## Joosswell 7560-9W

# Joosswell LED Bathroom Vanity Lighting Fixture User Manual

Model: 7560-9W

## INTRODUCTION

---

This manual provides essential information for the safe and efficient installation, operation, and maintenance of your Joosswell LED Bathroom Vanity Lighting Fixture. Please read these instructions thoroughly before installation and retain them for future reference.

Image: The Joosswell LED Bathroom Vanity Lighting Fixture, a modern black bar light, installed above a round bathroom mirror, illuminating the area with a bright, clear light.

## SAFETY INFORMATION

---

- Always turn off the main power supply at the circuit breaker before beginning any electrical work.
- Ensure all wiring connections are secure and comply with local electrical codes.
- This fixture is designed for indoor use only.
- Do not attempt to modify the fixture. Any modifications may void the warranty and create a safety hazard.
- Consult a qualified electrician if you are unsure about any part of the installation process.

## PACKAGE CONTENTS

---

Please verify that all components are present and undamaged before installation.

- LED Bathroom Vanity Lighting Fixture (with integrated LED bulb)
- Mounting Hardware (screws, wire nuts, mounting bracket)
- User Manual (this document)

## SETUP AND INSTALLATION

This fixture is designed for wall-mounted installation and requires direct wiring to a reserved electrical connection. Professional installation is recommended.

- 1. Prepare for Installation:** Turn off power at the circuit breaker to the wall switch or outlet where the fixture will be installed.
- 2. Mounting Bracket Installation:** Attach the mounting bracket to the electrical junction box using the provided screws. Ensure the bracket is securely fastened.
- 3. Wiring Connections:** Connect the fixture's wires to the corresponding household wires. Typically, connect the black wire from the fixture to the black (live) wire from the wall, the white wire from the fixture to the white (neutral) wire from the wall, and the ground wire to the bare copper or green ground wire. Secure connections with wire nuts.
- 4. Secure the Fixture:** Carefully align the fixture with the mounting bracket and secure it in place using the provided

screws. Ensure the fixture is flush against the wall.

5. **Restore Power:** Once the fixture is securely installed, turn the power back on at the circuit breaker.

## OPERATING INSTRUCTIONS

The Joosswell LED Bathroom Vanity Lighting Fixture is designed for simple operation. It does not feature an integrated switch or cord. To operate the light, use the standard wall switch connected to the electrical circuit where the fixture is installed.

- To turn the light ON, flip the connected wall switch to the 'ON' position.
- To turn the light OFF, flip the connected wall switch to the 'OFF' position.
- This fixture is non-dimmable and should not be connected to a dimmer switch.

## MAINTENANCE

Regular maintenance will help preserve the appearance and functionality of your light fixture.

- **Cleaning:** Before cleaning, ensure the power to the fixture is turned off at the circuit breaker. Use a soft, dry cloth to wipe down the fixture. For stubborn marks, a slightly damp cloth with mild soap can be used, followed by drying thoroughly. Avoid abrasive cleaners, solvents, or polishes as they may damage the finish.
- **LED Care:** The LED light source is integrated and designed for long-term use. It does not require replacement under normal operating conditions.

## TROUBLESHOOTING

If you encounter issues with your light fixture, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Light does not turn on.	No power to the fixture. Loose wiring connection. Faulty wall switch.	Check the circuit breaker and ensure it is in the 'ON' position. Turn off power, then check all wire connections for tightness. Test the wall switch with another device or consult an electrician.
Light flickers.	Loose wiring connection. Incompatible dimmer switch (if mistakenly installed).	Turn off power, then check all wire connections for tightness. This fixture is non-dimmable. Ensure it is not connected to a dimmer switch.
Light is dim.	Incorrect voltage supply. Fixture is non-dimmable.	Verify the voltage supply matches the fixture's requirements (110V AC). This fixture is non-dimmable and will operate at its full brightness when powered correctly.

If the problem persists after attempting these solutions, please contact Joosswell customer support.

## WARRANTY AND SUPPORT

---

This Joosswell LED Bathroom Vanity Lighting Fixture comes with a **2-year warranty** from the date of purchase, covering defects in materials and workmanship under normal use.

For warranty claims, technical support, or any inquiries, please contact Joosswell customer service through the retailer where you purchased the product or visit the official Joosswell store on Amazon:
