AAOBOSI 15 Inch 28-Bottle Dual Zone Wine Fridge User Manual

Model: JC-85B

INTRODUCTION

Thank you for purchasing the AAOBOSI 15 Inch 28-Bottle Dual Zone Wine Fridge. This manual provides essential information for the safe and efficient operation, maintenance, and troubleshooting of your new wine cooler. Please read this manual thoroughly before installation and use, and retain it for future reference.

Figure 1: Front view of the AAOBOSI 15 Inch 28-Bottle Dual Zone Wine Fridge. This compact unit is designed to store up to 28 standard wine bottles, featuring a sleek stainless steel finish and a glass door.

SAFETY INFORMATION

Always follow basic safety precautions when using electrical appliances to reduce the risk of fire, electric shock, and injury

to persons.

- Ensure the appliance is properly grounded.
- Do not operate if the power cord is damaged.
- Keep ventilation openings clear of obstruction.
- Do not store explosive substances such as aerosol cans with a flammable propellant in this appliance.
- Unplug the appliance before cleaning or maintenance.

SETUP

Unpacking and Placement

1. Remove all packaging materials, including the foam base and adhesive tape.
2. Clean the interior of the appliance with a soft cloth and warm water.
3. Place the wine fridge on a flat, stable surface away from direct sunlight and heat sources. Ensure adequate ventilation around the unit.
4. Allow the appliance to stand upright for at least 24 hours before plugging it in to allow refrigerants to settle.

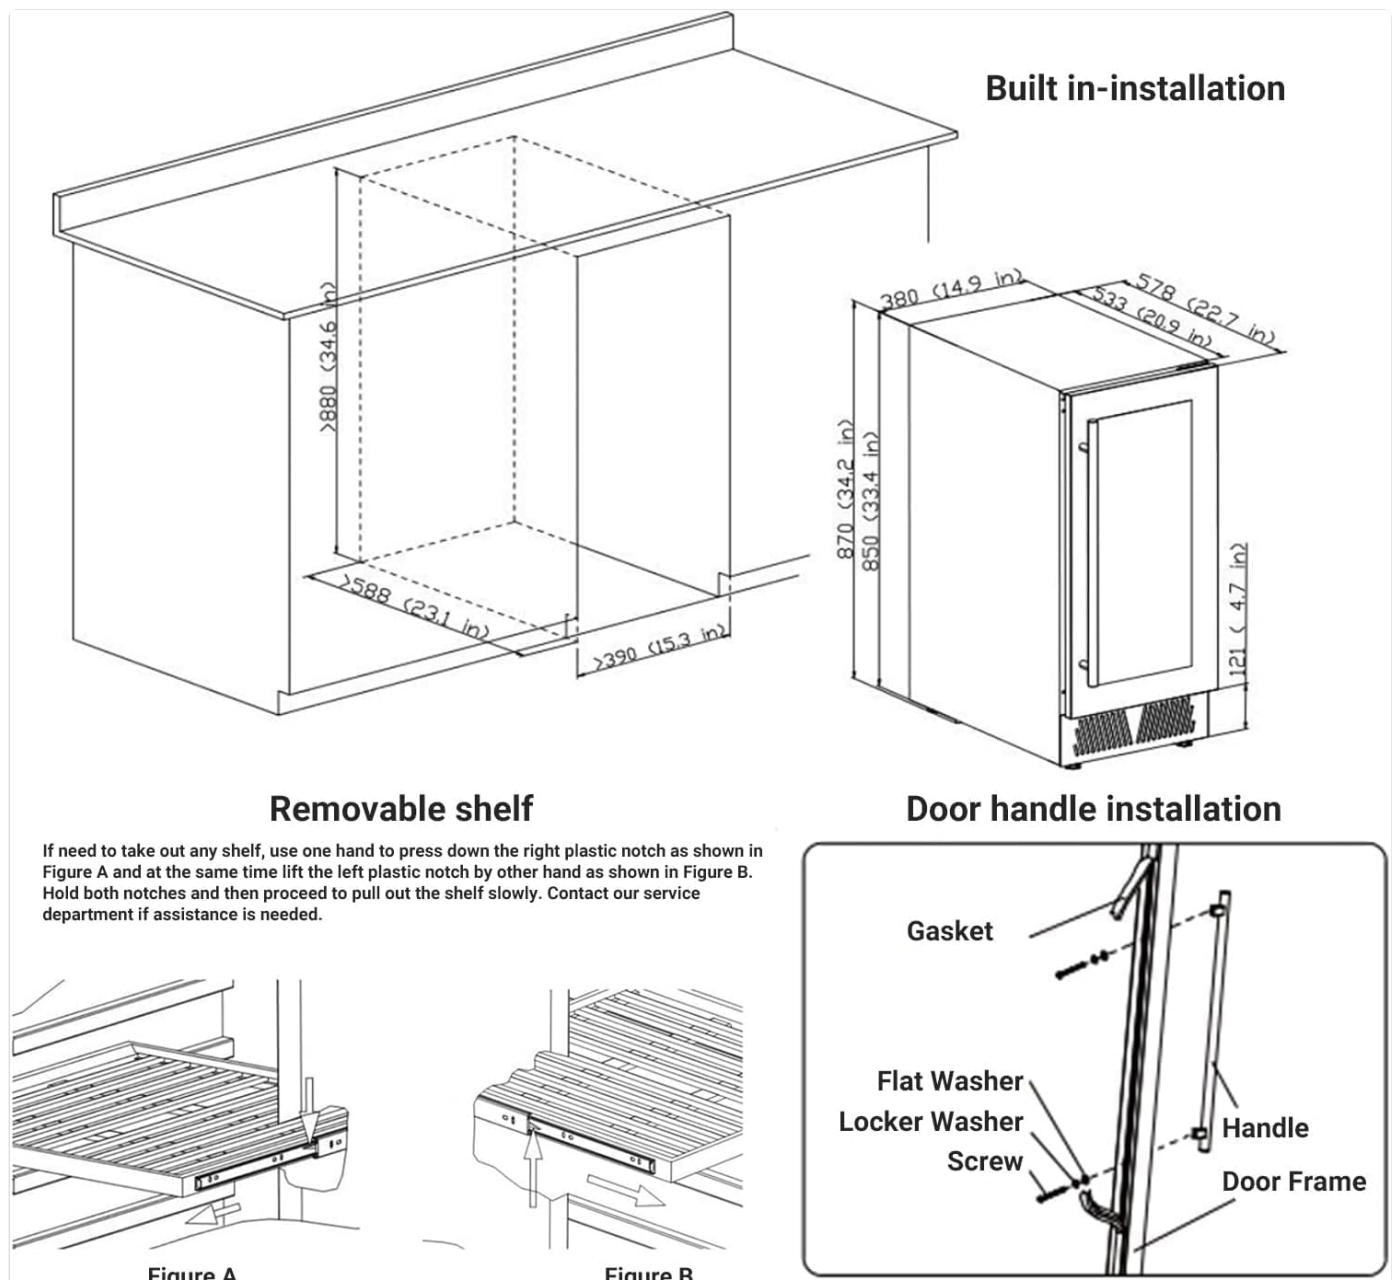

Figure 2: Installation guidelines for the wine fridge, including dimensions for built-in placement and instructions for removing shelves. The unit features front

Door Handle Installation

The door handle may require assembly. Follow these steps:

1. Locate the handle, screws, flat washers, locker washers, and gasket.
2. Align the handle with the pre-drilled holes on the door frame.
3. Secure the handle using the provided screws, ensuring the washers are in place for a tight fit.

OPERATING INSTRUCTIONS

Powering On and Initial Settings

1. Plug the wine fridge into a dedicated 110V electrical outlet.
2. The digital touch screen will illuminate, displaying the current temperatures of both zones.

Dual Zone Temperature Control

This wine fridge features two independent temperature zones for optimal wine storage:

- **Upper Zone:** 41-54°F (5-12°C) - Ideal for white wines and champagnes.
- **Lower Zone:** 54-68°F (12-20°C) - Perfect for red wines and brandies.

Use the **+** and **-** buttons on the digital touch screen to adjust the temperature for each zone. The clear LCD display shows real-time temperatures.

Dual Zone Wine Cooler

Realize your dream that chill RED & White wines in one cooler

Figure 3: Recommended temperature ranges for various wine types within the dual zone cooler. This visual guide helps users select the optimal temperature for their specific wine collection.

Temperature Memory Function

The built-in memory function retains your set temperatures even after a power loss. Once power resumes, the unit will automatically restore the previously set conditions, protecting your wine collection from temperature fluctuations.

Adjustable Wooden Shelves

The wine fridge comes with 5 pre-calibrated adjustable wooden shelves. These shelves are designed to accommodate both standard 750ml bottles and larger formats like magnums without the need for manual height adjustments. They slide in and out smoothly for easy access.

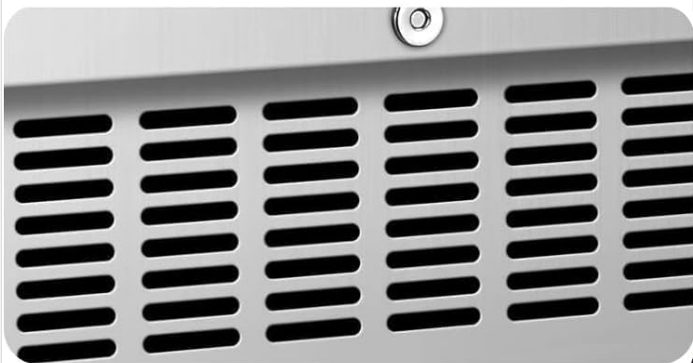

Sturdy Wood Shelves

With smooth ball bearing tracks, easy to sild out and in.

Soft Blue LED Light

Perfectly showcase your wines.
Add mystery to the whole design.

Front Ventilation

No need to spare much space for ventilation.
Security lock is included.

LCD Panel Smart touch

Multi-function adjustment.
Large bottle space.

***Display screen with child lock function**

Figure 4: Detailed view of the sturdy wooden shelves with smooth ball-bearing tracks, the soft blue LED interior lighting, and the smart touch LCD control panel. These features enhance both functionality and aesthetic appeal.

LED Lighting

The soft blue LED lighting can be turned on or off via the control panel to showcase your collection while consuming minimal energy.

MAINTENANCE

Cleaning the Interior

- Unplug the appliance before cleaning.
- Wash the interior with a solution of mild detergent and warm water.
- Remove shelves and clean them separately.
- Wipe dry thoroughly before plugging the unit back in.

Cleaning the Exterior

- Clean the exterior with a soft cloth and mild detergent.
- For stainless steel surfaces, use a stainless steel cleaner and polish.
- Regularly vacuum the condenser coils at the back of the unit to ensure efficient operation.

Defrosting

The wine fridge features an automatic defrost system, eliminating the need for manual defrosting.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Appliance does not operate.	Not plugged in; circuit breaker tripped; temperature set too high.	Ensure plug is secure; reset circuit breaker; lower temperature setting.
Temperature is not cold enough.	Door not closed properly; frequent door openings; warm ambient temperature; poor ventilation.	Check door seal; reduce door openings; ensure proper clearance around unit; clean condenser coils.
Vibrations.	Appliance not level.	Adjust leveling legs.
Noise.	Normal operation sounds (compressor, fan); loose parts.	These are normal; check for loose parts and tighten if necessary.
Moisture build-up inside.	High humidity; door left open.	Ensure door is closed tightly; wipe away excess moisture.
