## Pyle PLATV65BT.5

# Pyle PLATV65BT.5 Marine ATV Powered Speakers User Manual

MODEL: PLATV65BT.5 | BRAND: PYLE

## Introduction

---

The Pyle PLATV65BT.5 Marine ATV Powered Speaker System is designed to provide high-quality audio for off-road vehicles such as ATVs, UTVs, golf carts, jetskis, and snowmobiles. This rugged and waterproof system features 4.0 Wireless Bluetooth connectivity, an 800 Watt power output, and integrated color-changing LED lights. Its durable construction ensures reliable performance in various outdoor conditions.

## What's in the Box

---

Carefully unpack all components and ensure the following items are included:

- Off-Road Speaker System (Main Unit)
- Wiring Power Cable (DC 12V)
- LED Light Remote Control
- Fastening Straps (4 units)
- Bluetooth Controller/In-Line Volume Control
- Lighter Accessory Adapter

### Setup

The Pyle PLATV65BT.5 speaker system offers flexible installation options for various vehicles.

#### Mounting

Use the provided fastening straps to secure the speaker system to a stable bar or frame on your ATV, UTV, golf cart, or other compatible vehicle. Ensure the speaker is mounted securely to prevent movement during operation. For enhanced stability, consider using additional bungee cords or ratchet straps if desired.

#### Power Connection

The system can be powered in two ways:

1. **Plug & Play:** Connect the included cigarette lighter power outlet accessory cable to your vehicle's 12V power socket.
2. **Hard-Wire:** For a permanent installation, connect the wiring power cable directly to your vehicle's 12V battery,

ensuring proper positive and negative connections.

The unit requires a DC 12V power source.

## Operating Instructions

---

### Bluetooth Pairing

The speaker system features Bluetooth Version 4.0 for wireless music streaming. When the system is powered on, Bluetooth will activate automatically. To connect your device:

1. Ensure Bluetooth is enabled on your smartphone, tablet, or other audio device.
2. Search for available Bluetooth devices.
3. Select the network name "**Pyle**" from the list.
4. If prompted for a password, enter "**0000**".

The Bluetooth wireless range is approximately 30+ feet. Automatic Bluetooth disconnection occurs when an Aux-in connection is detected.

### LED Light Control

The speaker system includes built-in color-changing LED lights. Use the provided LED Light Remote Control to manage the lighting effects:

- Choose from 19 dynamic color-changing modes.
- Adjust the speed and brightness of the lights.
- Select static colors such as Red, Green, Blue, White, Yellow, Aqua, or Purple.

# LED LIGHTS FOR STUNNING VISUALS

Dynamic bright lights provide a disco ambiance at your party, making it more enjoyable.

## Audio Playback

Enjoy full-range stereo sound reproduction. Adjust the volume directly from your connected Bluetooth device. The system is designed to deliver clear audio even in outdoor environments.

# Loud and Superior Sounds!

Image: An exploded view of the Pyle PLATV65BT.5 speaker, highlighting its internal components: two 6.5-inch poly injection cones and two 1.0-inch titanium dome tweeters, designed for superior sound.

## Maintenance

To ensure the longevity and optimal performance of your Pyle PLATV65BT.5 speaker system, follow these maintenance guidelines:

- **Cleaning:** The unit has an IP44 marine-grade waterproof rating, making it resistant to splashes and light rain. However, avoid direct high-pressure washing (e.g., power washers) on the speaker grills to prevent damage. Use a soft, damp cloth to wipe down the exterior.
- **Grill Care:** Over time, mud and debris may accumulate behind the speaker grills. If you are comfortable, carefully remove the speaker covers in a dry, clean environment to clean out any buildup. This will help maintain sound quality and extend product life. If not comfortable with disassembly, gently rinse the grills with a light hose spray, avoiding direct strong streams.
- **Storage:** When not in use for extended periods, store the speaker system in a cool, dry place away from direct sunlight and extreme temperatures.

## Troubleshooting

---

If you encounter issues with your speaker system, refer to the following common solutions:

- **No Power:** Ensure the power cable is securely connected to a 12V DC source. Check the vehicle's power outlet or battery connections.
- **No Sound/Low Volume:** Verify that your Bluetooth device is paired correctly and its volume is turned up. The speaker's volume is controlled by the connected device. Ensure no Aux-in cable is connected if you intend to use Bluetooth.
- **Bluetooth Disconnection/Poor Range:** Ensure your device is within the 30+ feet Bluetooth range. Obstructions between the device and speaker can affect connectivity.
- **LED Lights Not Working/Stuck Color:** Check the LED Light Remote Control battery. Ensure the remote is pointed towards the speaker's receiver. If lights turn on automatically to a specific color, use the remote to adjust them as desired.
- **Distorted Sound:** Reduce the volume on your connected device. Ensure the speaker grills are clear of debris.

## Specifications

---

Feature	Specification
Model Number	PLATV65BT.5
Speaker Type	Dual 2-Way Audio System
Speaker Size	6.5 inches (x2) Poly Injection Cone Speakers
Tweeter Size	1.0 inches (x2) Titanium Dome Diaphragms
