Enbrighten 43934

Enbrighten LED Camping Lantern Instruction Manual

Model: 43934

INTRODUCTION

The Enbrighten LED Camping Lantern is a versatile, battery-powered lighting solution designed for various outdoor and emergency situations. Featuring a durable design, multiple power options, and a built-in USB charging port, it provides reliable illumination and device charging capabilities.

Image: The Enbrighten LED Camping Lantern, showcasing its design and key features like 3 light levels and 650 lumens.

KEY FEATURES

- **Dual Battery Power:** Operates with a built-in rechargeable 4400mAh battery (Micro USB cable included) or 3 D-cell batteries. Both can be used simultaneously for extended life.
- **USB Device Charging:** Integrated USB charging port (1.0A output) for topping off device batteries, ideal for emergencies.
- **Full-Range Dimming:** Customize light output up to 650 lumens by holding down the power button.
- **Impact and Water Resistant:** Rugged design with IPX4 water-resistance rating for durability in various conditions.

- **Carabiner Handle:** Locking carabiner-style handle with textured grip for secure hanging.
- **4000K Natural White Light:** Provides 360 degrees of natural white light.

SETUP

- 1. Initial Charge:** Before first use, fully charge the built-in 4400mAh lithium-ion battery using the included Micro USB cable. Connect the cable to the lantern's charging port and a compatible USB power source.
- 2. Optional D-Cell Batteries:** For extended operation or as an alternative power source, unscrew the bottom cover of the lantern. Insert three (3) D-cell batteries into the designated compartments, ensuring correct polarity. Replace the cover securely.

Image: A detailed diagram of the lantern, pointing out its key components including the 4400mAh Li-ion battery, USB charging port, battery level indicator, and the power/dimming button.

OPERATING INSTRUCTIONS

- 1. Power On/Off:** Press the power button located on the front of the lantern to turn the light on or off.
- 2. Dimming Function:** To adjust the brightness, press and hold the power button. The light will gradually dim or brighten. Release the button when the desired brightness level is reached. The lantern offers full-range dimming up to 650 lumens.
- 3. Battery Level Indicator:** The blue LED lights next to the power button indicate the current battery charge level. Four lights indicate a full charge, and the number of lit LEDs decreases as the battery drains.

4. **USB Device Charging:** Open the protective cover over the USB ports. Connect your device's charging cable to the USB output port (labeled "USB IN OUT 1.0A"). The lantern will begin charging your device. Close the protective cover when not in use to prevent dust and moisture ingress.

MAINTENANCE

- **Cleaning:** Wipe the lantern with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- **Battery Care:** If using D-cell batteries, replace all three batteries at the same time. Do not mix old and new batteries or different types of batteries. Remove batteries if the lantern will not be used for an extended period.
- **Storage:** Store the lantern in a cool, dry place away from direct sunlight and extreme temperatures.

TROUBLESHOOTING

Problem	Possible Cause / Solution
---------	---------------------------

Problem	Possible Cause / Solution
Lantern does not turn on.	<p>Check battery charge: Ensure the internal rechargeable battery is charged (indicated by blue LEDs).</p> <p>Check D-cell batteries: If using D-cells, ensure they are inserted correctly and are not depleted. Replace if necessary.</p> <p>Press power button firmly.</p>
Light is dim or flickers.	<p>Low battery: Recharge the internal battery or replace D-cell batteries.</p> <p>Dimming function: Ensure the light is not set to its lowest dimming level. Press and hold the power button to brighten.</p>
Device not charging via USB.	<p>Low lantern battery: The lantern's battery may be too low to provide sufficient charge. Recharge the lantern.</p> <p>Incorrect cable: Ensure you are using a functional USB cable compatible with your device.</p> <p>Device power requirements: Some devices may require more power than the lantern's 1.0A output can provide.</p>
Internal battery not holding charge.	Ensure the charging cable is securely connected to both the lantern and the power source. If the issue persists after multiple charging attempts, contact customer support.

SPECIFICATIONS

Attribute	Detail
Brand	Enbrighten
Model Name	Enbrighten LED Rechargeable Lantern
Model Number	43934
Product Dimensions	5.9"L x 6.9"W x 11.4"H
Battery Description	Lithium-Ion (built-in), D-cell (optional)
Brightness	650 Lumen
Mounting Type	Tabletop Mount
Water Resistance Level	Water Resistant (IPX4)
Battery Life	Up to 405 Hours (with both battery types)
Number of Batteries	1 Lithium Ion battery required (included), 3 D-cell batteries (not included)
Specification Met	IP54
Voltage	4.5 Volts
Wattage	6 watts
Manufacturer	Jasco Products Company, LLC
UPC	030878439343
Light Source Type	Light Emitting Diode (LED)

Attribute	Detail
Color	Black
Material	Plastic

WARRANTY & SUPPORT

This Enbrighten LED Camping Lantern comes with a **5-year limited warranty** from Jasco Products Company, LLC. For support or warranty claims, please contact Jasco Products Company, LLC directly. Refer to the product packaging or their official website for the most current contact information.
