2. SAFETY INFORMATION

Always follow basic safety precautions when using electrical appliances to reduce the risk of fire, electric shock, or injury. This appliance is for indoor use only. Do not use near water or in wet conditions. Unplug before cleaning or performing maintenance. Keep out of reach of children.

3. WHAT'S IN THE BOX

Carefully unpack your Dyson Pure Cool Me. The package should contain the following items:

- Dyson Pure Cool Me Personal Air Purifier & Fan unit
- Remote control
- Power supply adapter
- 360° Glass HEPA and Activated Carbon Filter (pre-installed or separate)

4. SETUP

4.1 Filter Installation

If the filter is not pre-installed, follow these steps:

1. Ensure the appliance is unplugged from the power outlet.
2. Locate the filter cover on the base of the unit.
3. Remove the cover and insert the 360° Glass HEPA and Activated Carbon Filter. Ensure it clicks into place.
4. Replace the filter cover securely.

5.5 Sleep Timer

The sleep timer function allows you to set the appliance to turn off automatically after a set period. Options range from 30 minutes to 8 hours. Press the sleep timer button on the remote control to cycle through the available settings.

6. MAINTENANCE

6.1 Filter Replacement

The appliance will notify you on its screen when the filter needs replacement. To replace the filter, follow the steps outlined in section 4.1 'Filter Installation'. Use only genuine Dyson replacement filters to ensure optimal performance and purification.

6.2 Cleaning the Unit

Wipe the exterior of the appliance with a soft, dry cloth. Do not use detergents or polishes. Ensure the appliance is unplugged before cleaning.

7. TROUBLESHOOTING

- **No power:** Check if the power cord is securely plugged into both the appliance and the wall outlet. Ensure the outlet is functional.
- **Reduced airflow:** Check if the filter needs replacement (indicated on the screen). Ensure there are no obstructions to the air intake or outlet.
- **Unusual noise:** Ensure the appliance is on a stable surface. Check for any foreign objects inside the unit.
- **Remote control not working:** Check the battery in the remote control. Ensure there is no obstruction between the remote and the unit.
