3. PRODUCT OVERVIEW

The Transpeed Android TV Box X3 PLUS is a streaming media player designed to deliver 4K Ultra HD content. It features a compact design and multiple connectivity options.

3.1 Device Layout

Familiarize yourself with the ports and indicators on your TV Box:

Image 3.1: Transpeed Android TV Box X3 PLUS in a typical setup.

- **HDMI Port:** Connects to your TV or display.
- **USB 3.0 Port:** For connecting external storage devices or peripherals.
- **TF Card Slot:** For expanding storage with a microSD card.
- **DC Power Input:** Connects to the power adapter.
- **Ethernet Port:** For wired network connection.
- **Reset Button:** For factory reset (use with caution).

4. SETUP GUIDE

Follow these steps to set up your Transpeed Android TV Box X3 PLUS.

4.1 Connecting the Device

1. Connect one end of the HD cable (HDMI) to the HDMI port on the TV Box and the other end to an available HDMI input on your television.

2. Connect the power adapter to the DC Power Input port on the TV Box, then plug the adapter into a wall outlet.
3. Turn on your television and select the correct HDMI input source using your TV remote.

4.2 Initial Boot-up and Network Connection

1. The TV Box will automatically power on and display the boot-up screen.
2. Follow the on-screen prompts to complete the initial setup, including language selection and time zone.
3. **For Wi-Fi Connection:** Select your Wi-Fi network from the list, enter the password, and connect. The device supports 2.4G and 5G dual-band Wi-Fi.
4. **For Wired Connection:** Connect an Ethernet cable from your router to the Ethernet port on the TV Box. The device will automatically detect the wired connection.

4.3 Connecting Accessories

- **Remote Control:** Insert AAA batteries (not included) into the remote control. The remote should pair automatically.
- **Mini Keyboard:** The mini keyboard typically connects via a USB dongle. Plug the dongle into a USB port on the TV Box.
- **Bluetooth Devices:** To connect Bluetooth headphones, speakers, or game controllers, navigate to the Android settings menu, select "Connected devices" or "Bluetooth," and pair your device. The TV Box supports Bluetooth 5.0.

5. OPERATING INSTRUCTIONS

This section covers the basic operation of your Transpeed Android TV Box X3 PLUS.

5.1 Navigation

Use the included remote control or mini keyboard to navigate the Android TV interface. The remote control features directional buttons, an OK button, back, home, and volume controls. The mini keyboard offers a full QWERTY layout and a touchpad for mouse-like control.

5.2 Android 14 Interface

The TV Box runs on Android 14, providing access to a wide range of applications and services. The home screen typically displays recommended content, installed apps, and quick access to settings.

Android 14.0

Higher quality output, powerful graphics processor, stable

Image 5.1: The Android 14 operating system provides an enhanced user experience.

5.3 App Installation and Management

Access the Google Play Store to download and install your favorite streaming apps, games, and utilities. You can manage installed apps through the Android settings menu.

5.4 4K HDR10 Playback

The TV Box supports 4K resolution and HDR10 technology for enhanced visual quality. Ensure your television is 4K and HDR10 compatible and that you are using an HD cable capable of transmitting 4K signals.

4K Experience Every Detail

Dive into a world of crystal-clear 4K resolution, where every pixel is rendered with stunning clarity and realism.

Image 5.2: Experience crystal-clear 4K resolution with HDR10 support.

5.5 Wireless Screen Mirroring

The device supports DLNA, Airplay, and Miracast for wireless screen mirroring from compatible mobile phones and tablets. This allows you to display content from your portable devices directly on your TV screen.

Wireless Screen Mirroring

Support mobile phones, tablets, etc to put videos and photos on the big screen of the TV to share wonderful moments

Image 5.3: Wireless screen mirroring functionality.

5.6 Voice Control

Utilize the voice control feature for convenient navigation and content search. Press the voice assistant button on your remote and speak your commands.

Intelligent Voice Control

One-click voice operation, say what you want

Image 5.4: Intelligent voice control for easy operation.

6. MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your TV Box.

6.1 Cleaning

Gently wipe the device with a soft, dry cloth. Do not use liquid cleaners or abrasive materials, as they may damage the surface or internal components.

6.2 Software Updates (OTA)

The TV Box supports Over-The-Air (OTA) updates. Ensure your device is connected to the internet to receive the latest software and security enhancements. You can check for updates in the system settings.

6.3 Storage Management

The device comes with 16GB of internal storage. You can expand storage by adding a microSD card to the TF Card

Slot or connecting a USB storage device to the USB 3.0 port. Regularly clear cache and uninstall unused apps to maintain performance.

7. TROUBLESHOOTING

If you encounter issues with your Transpeed Android TV Box X3 PLUS, refer to the following common problems and solutions.

Problem	Possible Cause	Solution
No power/Device not turning on	Power adapter not connected or faulty.	Ensure the power adapter is securely connected to the device and a working power outlet. Try a different outlet.
No display on TV	Incorrect HDMI input selected; loose HDMI cable.	Verify your TV is on the correct HDMI input. Check HDMI cable connections at both the TV Box and the TV. Try a different HDMI cable or port.
No Wi-Fi connection	Incorrect password; router issues; out of range.	Double-check Wi-Fi password. Restart your router. Move the TV Box closer to the router. Ensure 2.4G/5G settings are compatible.
Remote control not responding	Low batteries; remote not paired.	Replace AAA batteries in the remote. Ensure there are no obstructions between the remote and the TV Box.
Apps crashing or slow performance	Insufficient RAM/storage; outdated app version.	Close background apps. Clear app cache. Update apps from the Google Play Store. Consider a factory reset if issues persist (backup data first).
