TROUBLESHOOTING

If you encounter any issues with your telephone, please refer to the following common troubleshooting steps:

- **No Dial Tone:**
 - Ensure the telephone line cord is securely connected to both the phone base and the wall jack.
 - Test the wall jack with another working phone to confirm the line is active.
- **Cannot Make/Receive Calls:**
 - Verify all connections are secure.
 - Check if your telephone service is active.
- **Poor Call Quality/Noise:**
 - Ensure the handset cord is fully plugged in.
 - Try connecting the phone to a different wall jack to rule out line interference.
- **Caller ID Not Displaying:**
 - Confirm that your telephone service provider offers Caller ID service.
 - Ensure the phone is properly connected to a compatible line.

MAINTENANCE

To ensure the longevity and optimal performance of your telephone:

- Clean the telephone regularly with a soft, dry cloth. Avoid using harsh chemicals or abrasive cleaners.
- Keep the telephone away from direct sunlight, heat sources, and moisture.
- Do not disassemble the telephone. Refer to qualified service personnel for repairs.

IMPORTANT NOTES

- **Handset Stand Stability:** After installing the handset stand, a slight wobble may be observed. This is a deliberate design feature to prevent leverage issues and is not a quality defect. It does not affect the phone's appearance or functionality.
- **Color Variation:** Product color may vary slightly from images due to lighting conditions during photography and differences in display settings.
- **Measurement Tolerance:** A measurement error of +/- 1-3cm is permissible for product dimensions.
