## 4. SETUP & ASSEMBLY

The Spirich Over-the-Toilet Storage Cabinet requires assembly. Detailed installation instructions are included with your product. All parts and accessories are numbered for easy identification during the assembly process.

1. **Unpack Components:** Carefully remove all parts from the packaging and lay them out on a clean, soft surface to prevent scratches. Verify all numbered parts and hardware are present according to the included parts list.
2. **Follow Step-by-Step Instructions:** Refer to the provided assembly guide for sequential steps. Each step will indicate which numbered parts and hardware are required.
3. **Secure Connections:** Ensure all screws and fasteners are tightened securely, but do not overtighten to avoid damaging the wood.
4. **Install Anti-Toppling Hardware:** For safety and stability, attach the anti-toppling fitting to the cabinet and securely anchor it to the wall as instructed.

## 5. OPERATION

The Spirich Over-the-Toilet Storage Cabinet is designed for convenient storage of bathroom essentials.

- **Cabinet Doors:** Open the two cabinet doors by gently pulling the silver knobs. The doors are equipped with magnetic catches to keep them securely closed.
- **Adjustable Shelf:** The interior shelf can be repositioned to different heights. To adjust, remove the shelf, reposition the shelf pins to the desired holes, and then place the shelf back on the pins.
- **Open Shelf:** The open shelf located below the cabinet doors provides easy access to frequently used items or for decorative display.

## 6. MAINTENANCE

To maintain the appearance and longevity of your storage cabinet, follow these simple maintenance guidelines:

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners, as these can damage the finish.
- **Spills:** Promptly wipe up any spills to prevent moisture damage, especially in a bathroom environment.
- **Inspection:** Periodically check all fasteners and connections to ensure they remain tight. Retighten if necessary.
- **Avoid Overloading:** Do not exceed the recommended weight limit of 100 pounds to prevent structural damage.

## 7. TROUBLESHOOTING

- **Cabinet feels unstable:** Ensure all assembly screws are tightened. Verify the anti-toppling hardware is correctly installed and securely anchored to the wall.
- **Doors do not close properly:** Check that the magnetic catches are aligned and functioning. Ensure hinges are properly installed and tightened.
- **Missing parts during assembly:** If any parts or hardware are missing, please contact customer support for assistance.
