SAFETY INFORMATION

WARNING: To reduce the risk of death or injury from electric shock, burns, fire, or injury to persons:

- Always unplug the appliance immediately after using.
- Do not use while bathing.
- Do not place or store appliance where it can fall or be pulled into a tub or sink.
- Do not place in or drop into water or other liquid.
- If an appliance falls into water, unplug it immediately. Do not reach into the water.
- Avoid extended use to prevent overheating.
- Be cautious of heat damage to hair.
- Maintain the hair dryer to ensure motor longevity.

SETUP

1. **Unpacking:** Carefully remove the hair dryer and all accessories from the packaging.
2. **Attachment Selection:** Choose the desired attachment based on your styling needs (bristle brush, dual-row comb, or wide-tooth thermal comb).
3. **Attaching Accessories:** Align the chosen attachment with the front of the dryer. Push it firmly until it clicks into place. Ensure the lock button engages to secure the attachment.
4. **Power Connection:** Plug the hair dryer into a standard 120V AC outlet.

OPERATING INSTRUCTIONS

1. **Power On:** Slide the ON/OFF switch to your desired speed setting (LOW or HIGH).
2. **Adjust Heat:** Select your preferred heat setting (LOW, WARM, or HOT) using the separate heat switch. The dryer offers 3 heat and 2 speed settings for a total of 6 combinations.
3. **Styling with Attachments:**
 - **Bristle Styling Brush:** Use for effortless and easy styling, helping to fight frizz with natural ion generation.
 - **Dual-Row Straightening Comb:** Ideal for sleek, straight styles and maximum control.
 - **Wide-Tooth Thermal Detangling Comb:** Provides superior heat transfer for smooth, voluminous results. The shea butter-infused ceramic coating helps to condition and protect hair from damage.
4. **Cool Shot:** Press and hold the COOL SHOT button to deliver a burst of cool air, which helps to set your style for a long-lasting finish.
5. **Power Off:** After styling, slide the ON/OFF switch to the OFF position and unplug the appliance.

MAINTENANCE

1. **Cleaning the Filter:** The hair dryer features a hinged filter designed to prevent lint buildup. Regularly open the hinged filter and clean any accumulated lint or hair to ensure optimal performance and extend motor life.
2. **Cleaning Attachments:** Remove attachments and clean them with a soft, damp cloth. Ensure they are completely dry before reattaching or storing.
3. **Storage:** Store the appliance in a cool, dry place when not in use. Do not wrap the cord around the appliance, as this can cause premature wear and breakage of the cord.

TROUBLESHOOTING

- **Appliance Not Operating:** Ensure the hair dryer is properly plugged into a functional 120V AC outlet. Check the ON/OFF switch and heat settings.
- **Reduced Airflow or Overheating:** Clean the hinged filter to remove any lint or hair buildup that may be obstructing airflow. Allow the appliance to cool down if it has overheated.
- **Attachments Not Staying Secure:** Ensure the attachment is correctly aligned and pushed firmly onto the dryer until the lock button engages.
- **Excessive Frizz:** Ensure you are utilizing the ionic and tourmaline ceramic technologies by using the appropriate heat settings and attachments for your hair type.
