KEY FEATURES

- **Powerful Suction:** Designed for whole-home cleaning, effectively picking up dirt, debris, pet hair, and tough messes.
- **Self-Cleaning Brushroll with PowerFins:** Ensures nonstop removal of long hair and pet hair without tangles.
- **Dirt Engage Technology:** Delivers superior cleaning performance on both carpets and bare floors by deeply engaging surfaces.
- **Up to 40 Minutes Runtime:** Provides extended cleaning time in Standard mode, measured at the hand vacuum.
- **Removable Battery:** Offers flexible charging options, allowing you to charge the battery in or out of the unit.

- **Anti-Allergen Complete Seal Technology & HEPA Filter:** Captures and traps over 99.9% of dust and allergens inside the vacuum.
- **Lightweight Design:** At approximately 7.5 lbs, it's easy to maneuver for floor-to-ceiling cleaning.
- **LED Headlights:** Illuminates hidden debris on floors for thorough cleaning.

SELF-CLEANING BRUSHROLL

PET HAIR • LONG HAIR

Figure 2: HyperVelocity Suction provides accelerated power for effective pickup.

Figure 3: The self-cleaning brushroll prevents hair wrap, a common issue with pet hair.

SETUP AND ASSEMBLY

Your Shark Rocket Pet Pro requires minimal assembly. Follow these steps to get your vacuum ready for use:

1. Unpack all components from the box, including the main vacuum body, wand, floor nozzle, battery, and accessories.
2. Insert the wand into the floor nozzle until it clicks securely into place.
3. Insert the handheld vacuum into the top of the wand until it clicks securely into place.
4. Ensure the battery is charged. You can charge it while it's in the vacuum or removed. Connect the charger to the battery port and a power outlet.
5. Attach any desired accessories, such as the crevice tool or pet multi-tool, directly to the handheld vacuum or the end of the wand.

POWERFUL CLEANING ON ALL FLOORS

Deep cleaning on carpets and incredible bare floor pickup.

OPERATING INSTRUCTIONS

Power Settings

The vacuum features multiple power settings for different cleaning needs:

- **Bare Floor Setting:** Ideal for hard surfaces like wood, tile, and laminate.
- **Carpet Setting:** Provides optimized suction and brushroll speed for carpets and area rugs.
- **MAX Power Mode:** Pull the trigger on the handheld unit for a burst of extra suction for stubborn messes.

CLEAN HARD-TO-REACH AREAS

Detach the nozzle and use the wand to reach higher areas.

Figure 5: The vacuum provides powerful cleaning performance across all floor types.

Versatile Cleaning Modes

- **Stick Vacuum Mode:** Use the full assembly for floor cleaning. The LED headlights illuminate hidden debris.
- **Handheld Vacuum Mode:** Detach the handheld unit for quick cleanups on furniture, stairs, and in tight spaces.
- **Above-Floor Cleaning:** Attach accessories directly to the handheld vacuum or the wand for extended reach to clean high areas like ceilings and shelves.

PET-MULTI TOOL

Tackle stubborn pet hair on furniture, stairs, and more.

Figure 6: Easily convert the unit into a handheld vacuum for versatile cleaning.

FREESTANDING STORAGE

Detach the hand vac and clip it at the base of the wand for freestanding storage.

Figure 7: Detach the nozzle and use the wand to reach higher areas for comprehensive cleaning.

MAINTENANCE

Regular maintenance ensures optimal performance of your Shark Rocket Pet Pro.

Emptying the Dust Cup

Empty the dust cup after each use or when debris reaches the MAX fill line.

1. Press the dust cup release button to detach it from the handheld vacuum.
2. Hold the dust cup over a trash bin and press the empty release button to open the bottom flap.
3. Tap the dust cup gently to shake out any trapped debris.
4. Close the flap until it clicks, then reattach the dust cup to the handheld vacuum.

Figure 8: The easy-empty dust cup allows for quick and mess-free disposal of debris.

Cleaning the Brushroll

The self-cleaning brushroll is designed to prevent hair wrap, but occasional checks are recommended.

- If you notice any debris wrapped around the brushroll, carefully use scissors to cut along the brushroll channel to remove it.
- Ensure the brushroll is free of obstructions for optimal performance.

Filter Maintenance

Rinse the pre-motor filters (foam and felt) every month and the post-motor HEPA filter once a year. Allow filters to air-dry completely before reinstalling.

TROUBLESHOOTING

If you encounter any issues with your vacuum, refer to the table below for common problems and solutions.

Problem	Possible Cause	Solution
Vacuum not picking up debris.	Dust cup is full; filters are clogged; brushroll is obstructed.	Empty dust cup; clean filters; remove brushroll obstructions.
Vacuum turns off on its own.	Battery is low; vacuum is overheating.	Recharge battery; allow vacuum to cool down for at least 45 minutes.
Hair wrapped around brushroll.	Excessive long hair or pet hair.	Carefully remove hair from brushroll using scissors.
