## 4. SETUP

1. **Initial Charge:** Before first use, fully charge the trimmer. Connect the USB-C charging cable to the trimmer and a power adapter (not included) with an input voltage not higher than 5V 1A. The LED display will show the charging status.
2. **Attach Comb:** Select the appropriate comb attachment (1-10mm or 11-20mm) based on your desired trimming length. Align the comb with the trimmer head and push it on until it clicks into place.
3. **Adjust Length:** Rotate the precision dial to select your desired trimming length. The numbers on the dial correspond to the hair length in millimeters.

## 5. OPERATING INSTRUCTIONS

### General Trimming Tips:

- Ensure your hair is clean and dry before trimming for best results.
- Always trim against the direction of hair growth.
- Use light, even pressure.

### Trimming Your Beard:

1. Select your desired length using the precision dial.
2. Turn on the trimmer by pressing the power button.
3. Place the flat part of the comb against your face and move the trimmer slowly against the grain of your beard.
4. For detailing or shaping, remove the comb attachment and use the bare blade (0.5mm) for precise lines around your beard, mustache, or sideburns.

Video: This video demonstrates the SUPRENT beard trimmer's features and usage for men's grooming.

## 6. MAINTENANCE

1. **Cleaning:** After each use, turn off the trimmer and remove the comb attachment. Rinse the trimmer head and comb under running water. Ensure the trimmer is completely dry before storing or recharging.
2. **Blade Oiling:** It is recommended to drip a small amount of blade oil (provided) onto the blades after every 3-5 uses. This helps keep the blades sharp and ensures smooth operation, reducing heat and noise.
3. **Storage:** Store the trimmer in a cool, dry place away from direct sunlight and moisture.

## 7. TROUBLESHOOTING

- **Trimmer not turning on:** Ensure the trimmer is fully charged. Check the USB-C cable and power adapter connection.
- **Reduced cutting performance/pulling hair:** Clean the blades and comb thoroughly. Apply blade oil as per maintenance instructions. The blades may need replacement if performance does not improve.
- **Trimmer overheating:** Ensure the blades are clean and oiled. Do not use the trimmer for extended periods without breaks.
- **Difficulty removing guard:** Rotate the adjustment ring from 10 to 1, then gently pull off the guard.

## 8. SPECIFICATIONS

Feature	Detail
Model Number	USBT575BX-5A1
Power Source	USB-C Rechargeable
Battery Type	1 AAA batteries required (internal)
Charging Time	Approx. 90 minutes
Operating Time	Up to 60 minutes
Waterproof Rating	IPX7
Length Settings	19 (0.5mm - 20mm)
Dimensions	1.37 x 1.18 x 6.49 inches
Weight	4.59 ounces (0.13 Kilograms)
