# Hanes No Dig Support Smoothtec Wirefree Bra User Manual

## 1. INTRODUCTION

---

The Hanes No Dig Support Smoothtec Wirefree Bra is designed for ultimate comfort and support without the need for underwires. Featuring SmoothTec comfort band technology and Comfort Flex Fit 4-way stretch fabric, this bra adapts to your body for a flexible fit. Its Cool Comfort moisture-wicking properties help keep you dry, and convertible straps offer versatility for various clothing styles. This manual provides essential information for proper use and care of your bra.

## 2. PRODUCT FEATURES

- **Ultimate Wireless Support:** SmoothTec comfort band provides targeted support around the cups and in the center.
- **No Digging, No Binding:** Comfort Flex Fit 4-way stretch fabric ensures a flexible fit that moves effortlessly with you.
- **Cup Comfort:** Soft stretch foam on the inside of the cups for enhanced comfort.
- **Sleek and Smooth:** Designed for a smooth look under various garments, including tees and knits.
- **Cool Comfort Technology:** Moisture-wicking fabric helps keep you cool and dry throughout the day.
- **Convertible Straps:** Straps can be worn traditionally or crisscross for adaptable styling.

## 3. WEARING INSTRUCTIONS

Follow these steps for proper wearing and adjustment of your Hanes No Dig Support Smoothtec Wirefree Bra:

1. **Positioning:** Place the bra on your body, ensuring your breasts are fully enclosed within the cups.

2. **Hook and Eye Closure:** Fasten the hook-and-eye closure at the back. Start with the loosest setting and adjust as needed for a snug, comfortable fit around your rib cage. The band should be level all around your body.
3. **Strap Adjustment:** Adjust the shoulder straps to provide adequate lift and support without digging into your shoulders. The straps should feel secure but not tight.
4. **Convertible Wear:** For crisscross styling, unhook the straps from the back of the bra, cross them over your back, and re-hook them to the opposite side's strap loop. This option is ideal for racerback or sleeveless tops.

## 4. SIZING GUIDE

To ensure the best fit, please refer to the following sizing information. A proper fit is crucial for comfort and support.

### 4.1. How to Measure Your Bra Size

Use a soft tape measure and follow these steps:

1. **Band Size:** Wear your favorite bra. Wrap the tape measure around your chest, directly under your bust, ensuring it is snug and level. If the measurement is an odd number, round down to the closest even number. This is your band size.
2. **Bust Measurement:** Measure completely around the fullest part of your bust, keeping the tape measure level.
3. **Cup Size:** Subtract your band size (Step 1) from your bust measurement (Step 2). The difference in inches corresponds to your cup size:
  - 1 inch difference = A cup
  - 2 inches difference = B cup
  - 3 inches difference = C cup
  - 4 inches difference = D cup
  - 5 inches difference = DD cup
  - 6 inches difference = DDD cup
  - 7 inches difference = G cup
  - 8 inches difference = H cup

Easy as **one, two, three!** Use our Bra Size Calculator as a guide to determine your bra size.

## 1 BAND SIZE

- Wear your favorite bra
- Use a soft tape measure. (in inches)
- Wrap the tape measure around your chest to the front, above your bust.
- This measurement is your band size.
- If the band number is odd, round down to the closest even number.

## 2 BUST MEASUREMENT

- Measure completely around the fullest part of your bust keeping the tape measure level.
- If this measurement falls on the ½ inch, round up.

For example, if your bust measurement is 35 1/2" use 36 as your bust measurement

## 3 CUP SIZE

- Subtract the band size (Step 1) from the bust measurement (Step 2).
- This number equates to the letter of your cup size.

**BUST MEASUREMENT – BAND SIZE = CUP SIZE**

For example, if your bust measurement is 36" and your band size is 34, you wear a 34B.

### DIFFERENCE SIZE

1 inch	A
2 inches	B
3 inches	C
4 inches	D
5 inches	DD
6 inches	DDD
7 inches	G
8 inches	H

## 5. CARE AND MAINTENANCE

Proper care will extend the life and maintain the quality of your Hanes bra.

- **Washing:** Hand wash only. Use cold water and a mild detergent. Gently squeeze the bra to remove excess water. Avoid harsh scrubbing or twisting.
- **Drying:** Do not tumble dry. Lay flat or hang to air dry. Avoid direct sunlight or high heat, as this can damage the fabric and elastic.
- **Storage:** Store bras flat or folded in a drawer to maintain their shape. Avoid crushing cups.
- **Fabric Composition:** 83% Nylon, 17% Spandex.

## 6. SPECIFICATIONS

Key specifications for the Hanes No Dig Support Smoothtec Wirefree Bra (Model DHHU35):

- **Model Number:** DHHU35
- **Fabric Type:** 83% Nylon, 17% Spandex
- **Closure Type:** Hook & Eye
- **Care Instructions:** Hand Wash Only
- **Origin:** Imported

- **Manufacturer:** Hanes Ultimate

## 7. TROUBLESHOOTING

---

If you encounter any issues with your bra, consider the following common solutions:

- **Straps Slipping:** Adjust the strap length. If straps continue to slip, try the crisscross configuration. Ensure the band is snug enough to provide primary support.
- **Band Riding Up:** This often indicates the band is too loose. Try a tighter hook-and-eye setting or consider a smaller band size. The band should sit level across your back.
- **Cups Gaping or Overflowing:** Gaping cups suggest the cup size is too large, or the band is too loose. Overflowing cups indicate the cup size is too small. Refer to the sizing guide to re-evaluate your measurements.
- **General Discomfort:** Ensure all adjustments (straps, band) are comfortable and not digging into your skin. The wirefree design should minimize discomfort, but an incorrect size can still cause issues.

## 8. WARRANTY AND SUPPORT

---

For specific warranty information or further assistance, please refer to the product packaging or contact Hanes customer support directly. Contact details can typically be found on the official Hanes website or product tags.
