NOOA ES509U

NOOA Ear Nose Hair Trimmer User Manual

Model: ES509U

PRODUCT OVERVIEW

The NOOA Ear Nose Hair Trimmer is a versatile 3-in-1 electric grooming tool designed for complete trimming and styling of facial hair. It features dual-edge stainless steel blades, a built-in LED light, and is fully waterproof for convenient wet and dry use. This device is suitable for trimming nose, ear, eyebrow, and beard hair.

SAFETY INFORMATION

- Keep out of reach of children.
- Avoid contact with skin and eyes.
- The cutter heads of this nose trimmer can be only used for designated parts; body trimming is not recommended.
- Please keep this nose ear hair trimmer away from children in case of any accident.

PACKAGE CONTENTS

Please ensure all items are present in the package:

- 1 x NOOA Trimmer Body
- 1 x Nose & Ear Trimmer Head
- 1 x Eyebrow Trimmer Head
- 1 x Beard Trimmer Head
- 1 x USB Charging Cable
- 1 x Cleaning Brush

SETUP AND CHARGING

Charging the Device

The NOOA Trimmer comes with a built-in rechargeable battery. Before first use, or when the device's performance decreases, charge the trimmer using the provided USB cable.

1. Connect the small end of the USB charging cable to the charging port on the trimmer.
2. Connect the larger end of the USB cable to a compatible USB power source (e.g., computer, wall adapter, power bank).
3. Allow the device to charge fully. A full charge ensures optimal performance.

USB RECHARGEABLE & PORTABLE

Take it with you and charge anywhere

Image: The NOAA Trimmer being charged via a USB cable connected to a laptop, demonstrating its portable charging capability.

Attaching and Changing Trimmer Heads

The trimmer features interchangeable heads for different grooming needs.

1. To remove a head, gently twist it counter-clockwise and pull upwards.
2. To attach a head, align the head with the trimmer body and twist clockwise until it clicks securely into place.

OPERATING INSTRUCTIONS

General Operation

- To turn the trimmer ON, slide the power switch upwards.
- To turn the trimmer OFF, slide the power switch downwards.
- The built-in LED light will illuminate when the trimmer is on, aiding visibility in dimly lit areas.

Using the Nose & Ear Trimmer Head

This head is designed for safe and efficient removal of unwanted nose and ear hair.

1. Insert the trimmer head gently into the nostril or ear canal. Do not insert too deeply.
2. Move the trimmer in a circular motion to trim hair. The 360° rotating design and R-type rounded blades ensure comfortable and precise trimming without pulling.
3. Breathe normally during nose hair trimming.

SAFETY & EFFICIENCY CLEANING

Don't hurt your nose

Image: A detailed view of the nose trimmer head, highlighting its 360-degree trimming capability and the R-type rounded blade design for safety and efficiency.

Using the Eyebrow and Beard Trimmer Heads

These heads are suitable for shaping eyebrows and maintaining beard lines.

- For eyebrows, carefully guide the trimmer along the desired shape. Use short, controlled strokes.
- For beard trimming, use the head to define edges and remove stray hairs.

Wet and Dry Use

The NOOA Trimmer is IPX7 waterproof, allowing for both wet and dry use.

- You can use the trimmer in the shower or with shaving cream/gel for a more comfortable experience.
- Ensure the device is fully charged before wet use.

IPX7 WATERPROOF

Used in wet & dry condition

MAINTENANCE AND CLEANING

Regular cleaning ensures optimal performance and hygiene.

1. After each use, turn off the trimmer.
2. Remove the trimmer head by twisting it counter-clockwise.
3. Rinse the trimmer head directly under running tap water to remove hair clippings and debris. The waterproof design allows for easy rinsing.
4. For thorough cleaning, you may use the provided cleaning brush to remove stubborn hairs from the blades.
5. Allow the head to air dry completely before reattaching or storing.
6. The entire device can be rinsed under running water or submerged briefly for deeper cleaning.

Image: Step-by-step guide for cleaning the trimmer head: 1. Open the protective cover. 2. Rinse the head thoroughly with water. 3. Replace the cover after drying.

TROUBLESHOOTING

If you encounter issues with your NOAA Trimmer, please refer to the following common solutions:

| Problem | Possible Cause / Solution |
|-------------------------------------|---|
| Trimmer does not turn on. | Battery may be depleted. Charge the device fully. Ensure the power switch is in the "ON" position. |
| Trimmer is not cutting effectively. | Blades may be clogged with hair. Clean the trimmer head thoroughly. Ensure the head is securely attached. Battery may be low, try charging. |
| Device feels hot during use. | This can be normal during extended use. If it becomes excessively hot, turn off the device and allow it to cool down before resuming use. |
