SETUP AND INSTALLATION

The Bluex Bulbs E26 RGB Rotating LED Bulb is designed for simple installation. Please follow these steps carefully:

1. **Safety First:** Before installation, ensure the power to the light fixture is turned off at the switch and, if possible, at the circuit breaker.
2. **Identify Socket:** Confirm your light fixture has a standard E26 base socket.
3. **Screw In Bulb:** Gently screw the LED bulb into the E26 socket until it is snug. Do not overtighten.
4. **Restore Power:** Turn the power back on to the light fixture. The bulb will immediately begin its rotating, color-changing display.

Important Note: These bulbs are for indoor and outdoor use, but ensure the fixture provides adequate protection from direct water exposure if used outdoors.

OPERATING INSTRUCTIONS

The Bluex Bulbs E26 RGB Rotating LED Bulb operates automatically once power is supplied. There are no external controls or remote required.

- **Automatic Rotation:** The internal motor continuously rotates the prismatic dome, projecting dynamic light patterns.
- **Color Changing:** The integrated RGB LEDs automatically cycle through red, green, and blue colors, creating a vibrant light show.
- **Strobe Effect:** The combination of rotation and color changes produces a captivating strobe effect, ideal for party atmospheres.

MAINTENANCE

These LED bulbs are designed for long-lasting performance with minimal maintenance.

- **Cleaning:** To clean the bulb, ensure the power is off and the bulb is cool. Gently wipe the surface with a soft, dry cloth. Do not use liquid cleaners or abrasive materials.
- **Longevity:** LED technology provides extended lifespan compared to traditional bulbs. Avoid frequent on/off cycling to maximize bulb life.
- **Storage:** If storing the bulbs, keep them in their original packaging or a protective container in a cool, dry place.

TROUBLESHOOTING

If you encounter issues with your Bluex Bulbs E26 RGB Rotating LED Bulb, please refer to the following common solutions:

Problem	Possible Cause	Solution
Bulb does not light up.	No power to the fixture, loose connection, or faulty bulb.	<ul style="list-style-type: none"> • Check if the light switch is on. • Verify power to the outlet/fixture. • Ensure the bulb is screwed in securely. • Test the bulb in another working E26 fixture.
Rotation is not smooth or stops.	Obstruction, low voltage, or internal motor issue.	<ul style="list-style-type: none"> • Ensure nothing is obstructing the rotating dome. • Check if the power supply is stable (100-120V). • If the issue persists, the bulb may be faulty.
Colors are not changing.	Internal LED controller issue.	<ul style="list-style-type: none"> • Turn the power off and on again to reset the bulb. • If the issue persists, the bulb may be faulty.

If these steps do not resolve the issue, please contact Bluex Bulbs customer support for further assistance.

SPECIFICATIONS

Brand	Bluex Bulbs
Model Number	JJJ-GGG-DE-0804-A-362
Light Type	LED
Special Feature	Color Changing, Instant On
Wattage	3 Watts
Bulb Shape Size	A19
Bulb Base	E26
Specific Uses For Product	Party
Light Color	RGB (Red, Green, Blue, Multi)
Voltage	120 Volts (Accepted voltage frequency: 100 to 120 Volts and 60 Hertz)
Unit Count	4.0 Count (Pack of 1)
