muvit iO MIOSMW014

Muvit iO MIOSMW014 SOS Health Senior GPS Locator Watch User Manual

Model: MIOSMW014

1. Introduction

This manual provides essential instructions for the proper setup, operation, and maintenance of your Muvit iO MIOSMW014 SOS Health Senior GPS Locator Watch. Please read this guide thoroughly before using the device to ensure optimal performance and safety. This device is designed to provide location tracking and emergency assistance for seniors.

2. Product Overview

The Muvit iO MIOSMW014 is a GPS locator watch equipped with an SOS button, designed for health monitoring and senior safety. It features a clear display and intuitive controls.

Package Contents:

- Muvit iO MIOSMW014 SOS Health Senior GPS Locator Watch
- Charging Cable
- User Manual

3. Setup

3.1 Charging the Device

Before initial use, fully charge the watch. Connect the charging cable to the watch's charging port and plug the other end into a USB power adapter (not included) or a computer's USB port. The charging indicator will show the charging status.

3.2 Inserting a SIM Card

The watch requires a Nano-SIM card for GPS tracking and communication features. Carefully open the SIM card slot

cover, insert the Nano-SIM card with the gold contacts facing up and the notched corner oriented correctly. Close the cover securely.

3.3 Pairing with a Smartphone

Download the official Muvit iO companion application from your smartphone's app store. Follow the in-app instructions to create an account and pair your watch. This typically involves scanning a QR code displayed on the watch screen or entering a device ID.

4. Operating Instructions

4.1 Power On/Off

- **Power On:** Press and hold the power button (usually located on the side) until the screen illuminates.
- **Power Off:** Press and hold the power button until the power-off option appears on the screen, then confirm.

4.2 Using the SOS Button

In case of an emergency, press and hold the dedicated SOS button for several seconds. The watch will automatically send an alert with your current GPS location to pre-configured emergency contacts and may initiate a call to a primary contact.

4.3 GPS Tracking

The watch continuously tracks its location using GPS technology. You can view the real-time location of the watch through the companion smartphone application. Location history and geofencing alerts can also be configured in the app.

4.4 Health Monitoring

The watch is equipped with sensors to monitor certain health parameters. These may include heart rate and temperature. Access these readings directly on the watch screen or through the companion app for a more detailed overview. **Note:** This device is not a medical device and should not be used for medical diagnosis or treatment.

5. Maintenance

5.1 Cleaning

Wipe the watch regularly with a soft, dry cloth. For stubborn dirt, use a slightly damp cloth and immediately dry the watch. Avoid using harsh chemicals or abrasive materials.

5.2 Battery Care

To prolong battery life, avoid extreme temperatures. Charge the watch regularly and do not let the battery completely drain for extended periods. Use only the provided charging cable.

5.3 Software Updates

Periodically check the companion application for available software updates. Keeping your watch's software up-to-date ensures optimal performance, security, and access to new features.

6. Troubleshooting

- **Watch not powering on:** Ensure the watch is fully charged. If it still doesn't turn on, try a different charging port or cable.
- **GPS not tracking:** Check if the SIM card is correctly inserted and has an active data plan. Ensure the watch has a clear view of the sky for optimal GPS signal reception.
- **SOS button not responding:** Verify that emergency contacts are configured in the companion app. Ensure the watch has network connectivity.
- **Cannot pair with smartphone:** Make sure Bluetooth is enabled on your smartphone and the watch is in pairing

mode. Restart both devices and try again.
