XuanPad M8-F

XuanPad Mini Projector User Manual

Model: M8-F

IMPORTANT SAFETY INFORMATION

Please read all safety instructions carefully before using this product. Keep this manual for future reference.

- **Ventilation:** Ensure adequate ventilation around the projector. Do not block ventilation openings.
- **Power Source:** Use only the power adapter supplied with the projector.
- **Liquid Exposure:** Do not expose the projector to rain, moisture, or any liquids.
- **Heat:** Avoid placing the projector near heat sources or in direct sunlight.
- **Cleaning:** Unplug the projector before cleaning. Use a soft, dry cloth.
- **Servicing:** Do not attempt to service this product yourself. Refer all servicing to qualified service personnel.

PACKAGE CONTENTS

Verify that all items are present in your package:

- Mini Projector
- HDMI Cable
- Power Cord
- AV Cable
- User Manual

PRODUCT OVERVIEW

The XuanPad Mini Projector is a portable video projector designed for home entertainment. It features an advanced

LED light source and LCD display technology, providing high brightness and supporting Full HD 1080p resolution for an enhanced visual experience.

Image: The XuanPad Mini Projector shown with its accompanying remote control, highlighting its compact design and user interface.

XuanPad

- 1080P support
- 14000L
- Rich color

Other

- 720P
- Wired connection

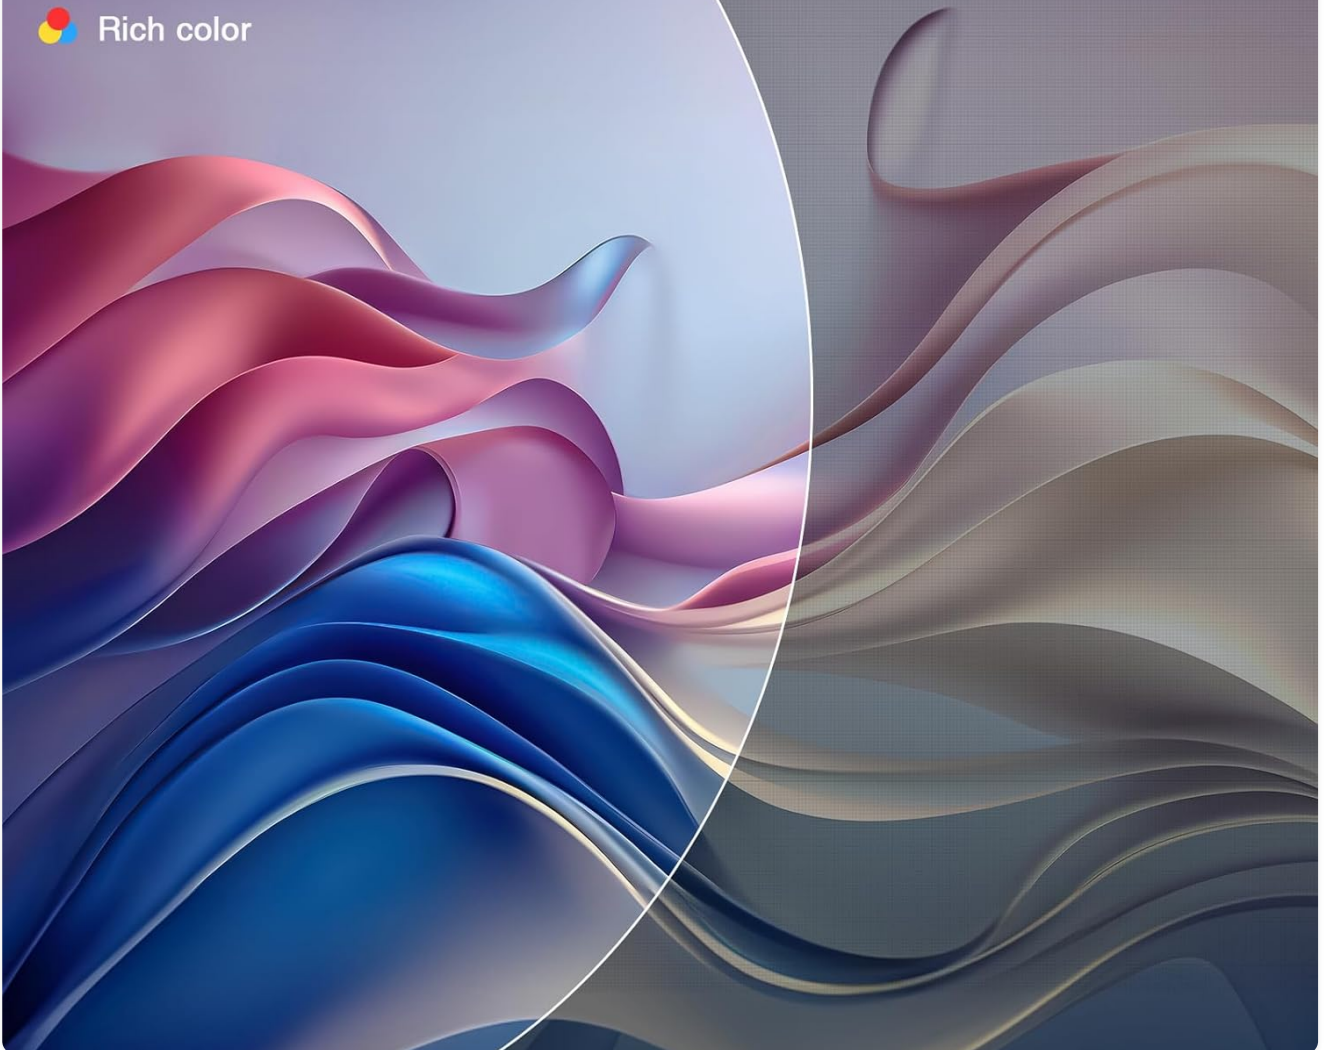

Image: A visual comparison demonstrating the superior color reproduction and brightness of the XuanPad projector (1080P support, 14000L, Rich color) compared to a standard 720P wired connection projector.

SETUP GUIDE

1. Placement

Choose a suitable location for your projector. The projection size can range from 30 to 200 inches with a projection distance of 1m to 5m. Ensure the surface is stable and level.

Image: Illustrates flexible placement options including table placement, tripod installation, and ceiling mounting for optimal viewing angles.

2. Power Connection

Connect the supplied power cord to the projector's power input port, then plug the other end into a power outlet.

3. Initial Power On

Press the power button on the projector or the remote control to turn on the device. The indicator light will illuminate.

OPERATING INSTRUCTIONS

1. Focusing and Keystone Correction

Adjust the focus ring on the projector lens until the image is clear. Use the keystone correction dial to adjust the image shape if it appears trapezoidal, ensuring a rectangular projection.

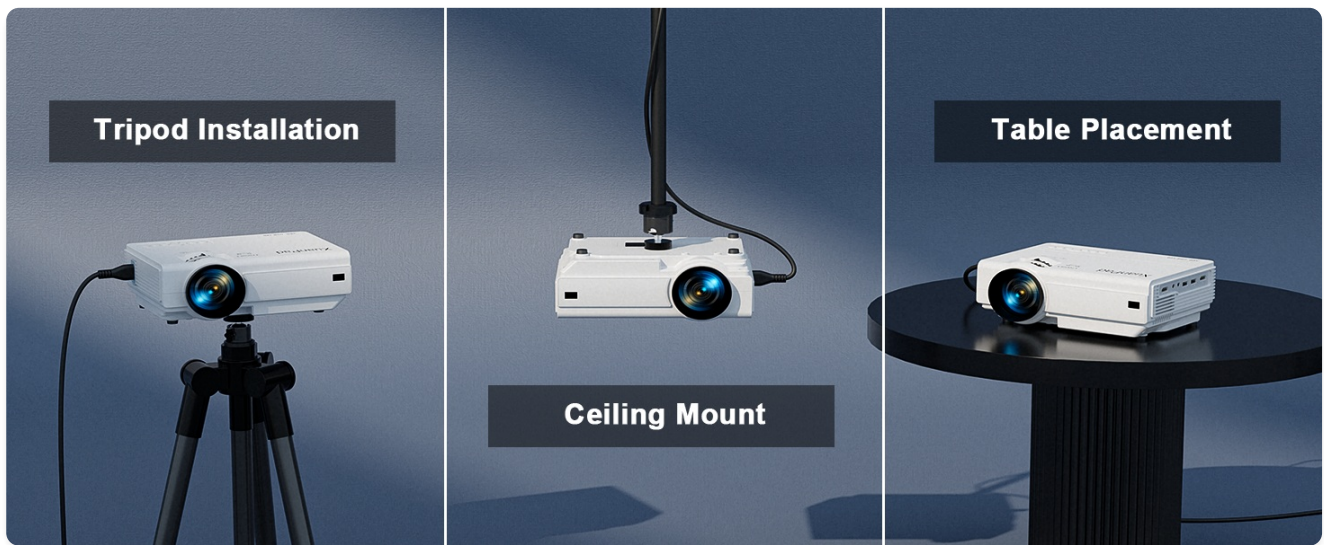

Image: Demonstrates the projector's ability to correct image distortion (keystone) for a perfectly rectangular display, even when placed at an angle.

2. Connecting Devices

The projector offers multiple connectivity options:

- **HDMI Connection:** Connect devices like laptops, game consoles, or TV sticks using an HDMI cable.
- **USB Connection:** Insert a USB drive to play media files directly.
- **AV Connection:** Use the AV cable to connect older devices like DVD players.
- **Smartphone Connection:** For smartphones, an additional HDMI adapter (not included) is required.

Compatible with Multiple Devices

When connect with phone, please purchase an extra HDMI adapter.

Smartphone

Laptop/PC

PS4

DVD Player

Memory Card

USB Drive

Image: Illustrates the wide range of devices compatible with the XuanPad projector, including smartphones, laptops, gaming consoles, and various storage devices.

Image: Demonstrates how to connect iOS and Android smartphones to the projector using appropriate HDMI adapters (not

included).

3. Audio Output

The projector has built-in dual stereo speakers. For a more immersive audio experience, you can connect external speakers via the audio output port.

MAINTENANCE

1. Lens Cleaning

Gently wipe the projector lens with a soft, lint-free cloth. Do not use abrasive cleaners or solvents.

2. Ventilation Care

Regularly check and clean the ventilation openings to prevent dust buildup, which can affect performance and lamp life. The projector features an advanced cooling system to dissipate heat effectively.

Image: Illustrates the efficient dual-fan cooling technology and silent design of the projector, ensuring optimal heat dissipation and extended lamp life.

3. Storage

When not in use for extended periods, store the projector in a cool, dry place, away from direct sunlight and extreme temperatures. Use the original packaging or a protective case.

TROUBLESHOOTING

Refer to the table below for common issues and their solutions:

Problem	Possible Cause	Solution
No image or sound	Loose cable connection, incorrect input source, power issue.	Check all cable connections. Select the correct input source (HDMI, USB, AV). Ensure the projector is powered on.
Blurry image	Out of focus, incorrect projection distance.	Adjust the focus ring on the lens. Ensure the projector is within the recommended projection distance (1m-5m).
Remote control not working	Dead batteries, obstructed signal.	Replace batteries. Ensure no obstacles between the remote and the projector's IR receiver.
Projector overheating	Blocked ventilation, prolonged use.	Ensure ventilation openings are clear. Allow the projector to cool down if used for extended periods.

TECHNICAL SPECIFICATIONS

Feature	Specification
Brand	XuanPad
Model Number	M8-F
Product Dimensions	19.81 x 15.29 x 6.86 cm
Item Weight	890 g
Color	White
Display Technology	LCD
Native Resolution	1920 x 1080 (Full HD Supported)

Feature	Specification
Maximum Supported Resolution	3840 x 2160
Brightness	14000L (200 ANSI)
Projection Size	30 - 200 Inches
Projection Distance	1m - 5m
Lamp Life	55,000 hours
Connectivity	HDMI, USB, AV
Power Source	AC
Wattage	50 watts
