OPERATING INSTRUCTIONS

Co-sleeper Cradle Mode:

To use the unit as a co-sleeper cradle, position it next to the child's bed. The cradle's height can be adjusted to align with the bed for easy access to the doll.

- **Adjusting Height:** Locate the height adjustment mechanism on the side panels. There are three possible height settings (28 cm, 33 cm, 38 cm). Carefully lift or lower the cradle unit to the desired height until it clicks securely into place.
- Ensure the cradle is stable at the chosen height before placing a doll inside.

Changing Table Mode:

To convert the co-sleeper into a changing table, simply fold the lateral shelf upwards. This creates a flat surface suitable for changing your doll.

- Gently lift the side panel of the cradle. It is designed to fold up and lock into a horizontal position, forming the changing surface.
- Use the included accessories (urinal, dressing box, pots) for a complete doll care experience.

Storage Shelf:

The shelf located under the main unit provides convenient storage for all doll accessories, keeping them organized and within reach during play.
