

JBL JBLGO2BLUAM

JBL GO2 Waterproof Ultra Portable Bluetooth Speaker User Manual

Model: JBLGO2BLUAM

INTRODUCTION

The JBL GO2 is a full-featured waterproof portable Bluetooth speaker designed for on-the-go audio. This manual provides essential information for setting up, operating, maintaining, and troubleshooting your device to ensure optimal performance.

WHAT'S IN THE BOX

Verify that all items are present upon unboxing:

- JBL GO2 Speaker
- Micro USB Cable (for charging)
- Quick Start Guide (this document)

SETUP

1. Charging the Speaker

Before first use, fully charge the JBL GO2 speaker. Connect the supplied Micro USB cable to the charging port on the speaker and the other end to a USB power adapter (not included). The charging indicator light will illuminate during charging and turn off when fully charged. A full charge takes approximately 2.5 hours.

Image: Side view of the JBL GO2 speaker, highlighting the Micro USB charging port and 3.5mm auxiliary input, both protected by a waterproof flap.

2. Powering On/Off

Press and hold the power button located on the top of the speaker for approximately 2 seconds to power on or off. A distinct audio cue will indicate the power status.

3. Bluetooth Pairing

1. Power on the JBL GO2 speaker. The Bluetooth indicator light will flash blue, indicating it is in pairing mode.
2. On your mobile device, navigate to the Bluetooth settings.
3. Select "JBL GO2" from the list of available devices.
4. Once connected, the Bluetooth indicator light will turn solid blue, and an audio cue will confirm the connection.

4. Auxiliary Connection

For devices without Bluetooth, connect an audio cable (not included) from your device's headphone jack to the 3.5mm auxiliary input port on the JBL GO2 speaker. The speaker will automatically switch to auxiliary mode.

OPERATING

1. Music Playback

After connecting via Bluetooth or auxiliary cable, begin playing audio from your source device. Use the controls on your device or the speaker to manage playback.

2. Volume Control

Adjust the volume using the '+' and '-' buttons located on the top of the speaker. You can also control the volume from your connected device.

Image: Top view of the JBL GO2 speaker, showing the power, Bluetooth pairing, volume up, volume down, and play/pause/speakerphone buttons.

3. Speakerphone Function

The JBL GO2 features a built-in noise-cancelling speakerphone. When a call is received while connected via Bluetooth:

- Press the play/pause button once to answer an incoming call.
- Press the play/pause button once again to end the call.
- Press and hold the play/pause button to reject an incoming call.

4. Waterproof Usage (IPX7)

The JBL GO2 is IPX7 waterproof, meaning it can be submerged in water up to 1 meter (3 feet) for up to 30 minutes. Ensure the charging port and auxiliary input port covers are securely closed before exposing the speaker to water.

Important:

- Do not expose the speaker to salt water or other liquids.
- Always ensure the port covers are sealed to maintain waterproofing.

MAINTENANCE

1. Cleaning

Clean the speaker with a soft, damp cloth. Do not use abrasive cleaners or solvents. For stubborn dirt, a mild soap solution can be used, followed by rinsing with fresh water if the port covers are sealed.

2. Storage

Store the speaker in a cool, dry place away from direct sunlight and extreme temperatures. If storing for an extended period, charge the battery periodically to maintain its lifespan.

3. Post-Water Exposure Care

After exposure to water, gently shake the speaker to remove excess water from the grille and ports. Allow it to air dry completely before charging or connecting any cables.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Speaker does not power on	Battery is depleted	Charge the speaker using the Micro USB cable.
No sound	Volume is too low or muted; Device not connected	Increase volume on speaker and source device; Ensure proper Bluetooth or auxiliary connection.
Bluetooth pairing fails	Speaker not in pairing mode; Device too far; Interference	Ensure speaker is in pairing mode (flashing blue light); Move device closer; Turn off other Bluetooth devices.
Poor audio quality via Bluetooth	Device too far; Obstructions; Low battery	Move device closer to speaker; Remove obstructions; Charge the speaker.

SPECIFICATIONS

Feature	Detail
Model Name	Go 2
Wireless Communication Technology	Bluetooth
Connectivity Technology	Auxiliary, Bluetooth
Water Resistance Level	IPX7 Waterproof
Playtime	Up to 5 hours (varies by volume level and audio content)
Charging Time	Approximately 2.5 hours
