## DEVAISE ASNG009WH

# DEVAISE 5-Drawer Chest Instruction Manual

Model: ASNG009WH

## PRODUCT OVERVIEW

---

The DEVAISE 5-Drawer Chest is a versatile wood storage cabinet designed for various spaces such as offices, studios, kitchens, and bedrooms. It features five spacious drawers and is equipped with casters for easy mobility, two of which are lockable for stationary placement. Crafted from durable engineered wood, this chest offers a practical and aesthetically pleasing solution for organizing your belongings.

## SAFETY INFORMATION

---

- Always follow assembly instructions carefully.
- Ensure all connections are secure before use.
- Do not overload drawers; each drawer can hold up to 18 pounds.
- For stability, utilize the anti-tipping mechanism if provided, especially if placing heavy items in upper drawers.
- Keep small parts away from children during assembly.

## PACKAGE CONTENTS

Before beginning assembly, verify that all components listed below are present and undamaged. If any parts are missing or damaged, please contact customer support.

Part	Description	Quantity
Side Panels	Main frame components	2
Top/Bottom Panels	Top and base of the chest	2
Drawer Fronts	Front panels of the drawers	5
Drawer Sides/Backs	Components for assembling drawers	10 sides, 5 backs
Drawer Bottoms	Base panels for drawers	5

Part	Description	Quantity
Casters	Wheels for mobility (2 lockable)	4
Hardware Pack	Screws, dowels, cam locks, drawer slides	1 set

## SETUP AND ASSEMBLY

---

Assembly is required for this product. Please follow the step-by-step instructions provided in the included manual. A Phillips head screwdriver and possibly a power drill (with appropriate bits) will be needed. It is recommended to assemble on a soft, clean surface to prevent scratches.

1. Unpack all components and lay them out. Identify each part using the provided labels.
2. Assemble the main frame of the chest by attaching the side panels to the top and bottom panels using the designated hardware.
3. Attach the drawer slides to the inside of the chest frame.
4. Assemble each of the five drawers individually. Attach the sides and back to the drawer front, then slide the bottom panel into place.
5. Attach the remaining drawer slides to the assembled drawers.
6. Insert the assembled drawers into the chest frame.
7. Attach the four casters to the bottom of the chest. Ensure the two lockable casters are placed at the front for easy access.
8. Install the anti-tipping hardware to the back of the chest and secure it to a wall stud, if desired, for enhanced stability.

## OPERATING INSTRUCTIONS

---

### Using the Drawers:

The drawers are designed for smooth operation. To open, gently pull the integrated handle. To close, push the drawer firmly until it is fully seated within the frame. Avoid forcing drawers, especially if they feel stuck, and ensure items inside do not obstruct movement.

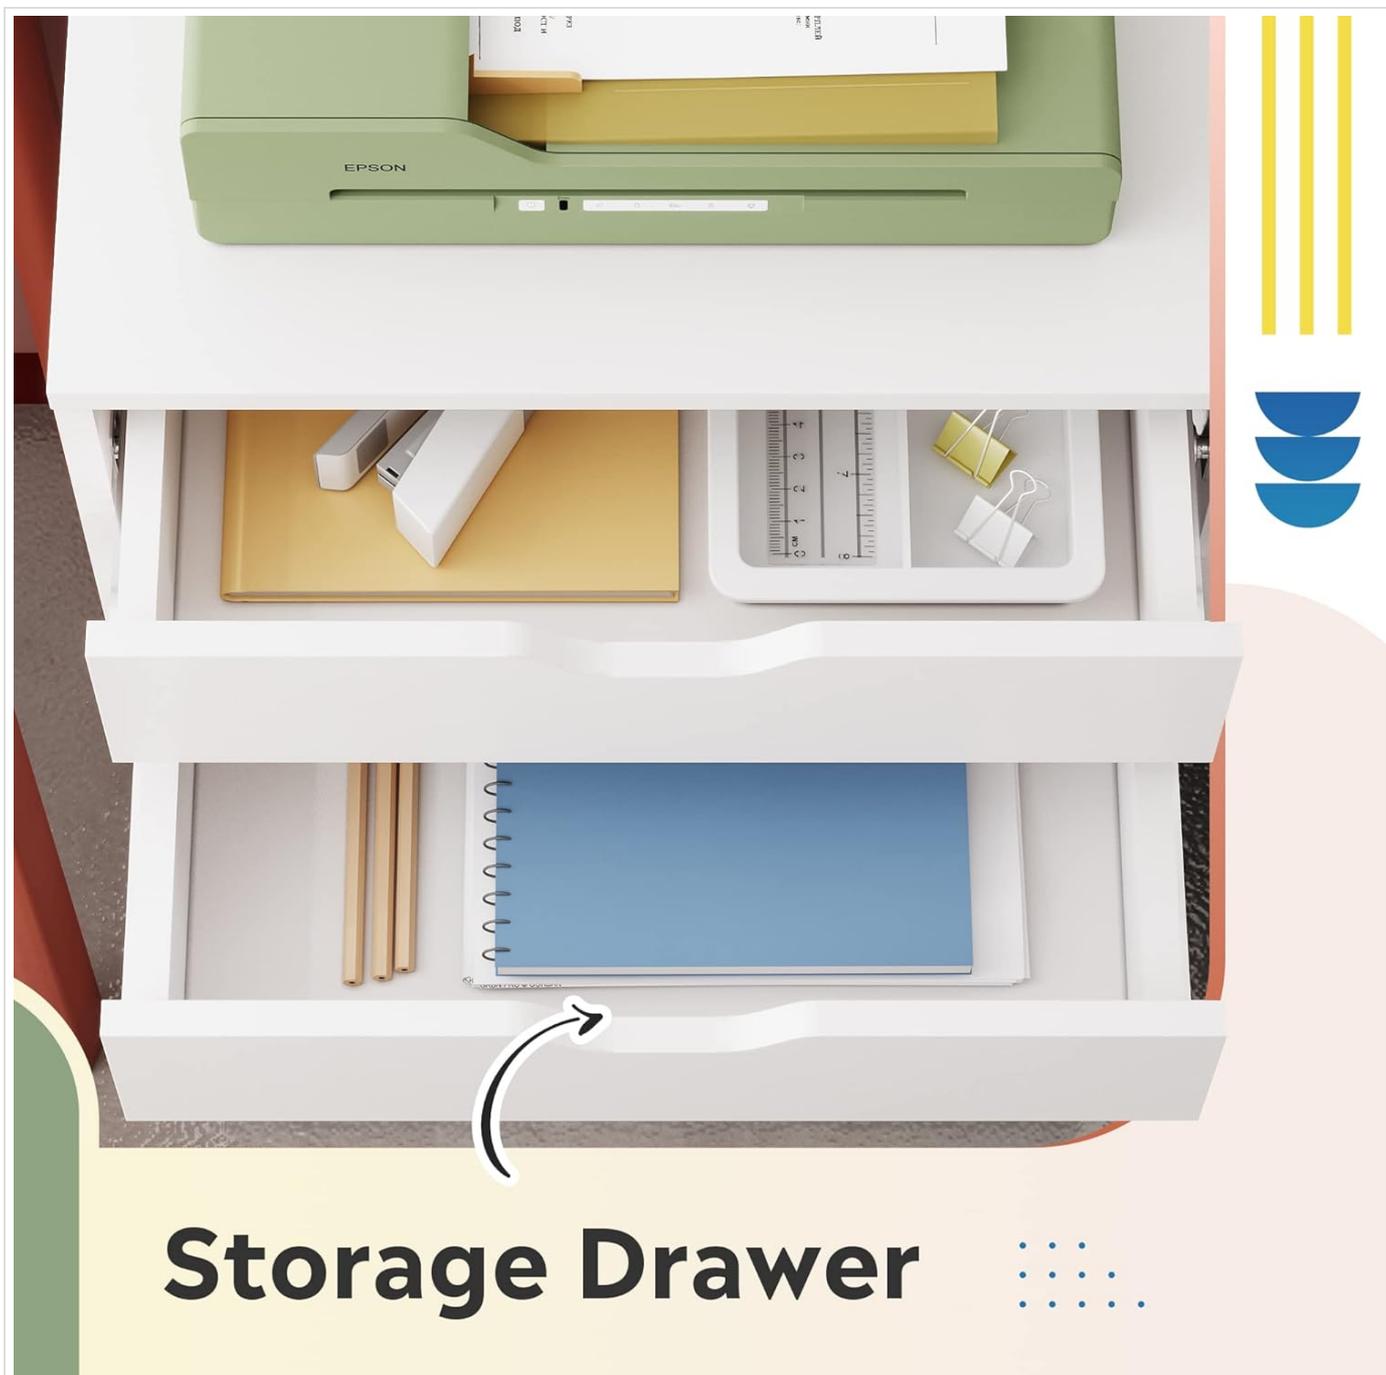

Image: Detail of a drawer with smooth runners, illustrating the ease of opening and closing.

### Using the Casters:

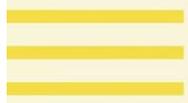

The chest is equipped with 360° swivel casters for easy movement. Two of these casters include a locking mechanism. To lock the chest in place, press down on the lever located on the lockable casters. To unlock and move the chest, lift the lever. Ensure casters are unlocked before attempting to move the unit.

## MAINTENANCE

- **Cleaning:** Wipe the surface with a damp cloth and mild cleaner. Avoid harsh chemicals or abrasive materials that could damage the finish.
- **Dusting:** Regularly dust the chest with a soft, dry cloth to prevent dust buildup.
- **Drawer Slides:** If drawers become stiff, apply a small amount of silicone lubricant to the drawer slides.
- **Hardware:** Periodically check all screws and fittings to ensure they remain tight. Tighten as necessary.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
Drawers stick or don't slide smoothly	Misaligned slides, loose hardware, obstruction	Check and tighten all screws on slides. Ensure nothing is blocking the drawer path. Apply silicone lubricant to slides.
Chest is wobbly or unstable	Loose connections, uneven surface, overloaded drawers	Tighten all assembly hardware. Move to a level surface. Distribute weight evenly in drawers. Install anti-tipping hardware.
Casters not rolling freely	Lock engaged, debris in wheel, loose attachment	Ensure caster locks are disengaged. Clear any debris from wheels. Tighten caster attachment screws.
