MAINTENANCE

Cleaning and Care

- For general cleaning, wipe the table surface with a soft, damp cloth.
- Avoid using harsh chemicals or abrasive cleaners, as these can damage the finish.
- Protect the tabletop from excessive heat, moisture, and direct sunlight to preserve its appearance.
- Product care instructions specify **dry clean only** for any fabric components (e.g., if paired with upholstered chairs/stools). For the table itself, follow general wood furniture care.

TROUBLESHOOTING

Common Issues and Solutions

- **Wobbling Table:** Ensure all assembly hardware is tightened securely. If the floor is uneven, use furniture glides or shims to stabilize the table.
- **Surface Scratches:** Minor scratches can sometimes be minimized with furniture polish or touch-up pens designed for wood finishes. For deeper scratches, professional repair may be necessary.
- **Loose Hardware:** Periodically check and retighten all screws and bolts to maintain stability and safety.
