Hama TH50 Thermo/Hygrometer Instruction Manual

Model: 00186371

INTRODUCTION

This manual provides essential instructions for the safe and efficient operation of your Hama TH50 Thermo/Hygrometer. This device is designed to accurately measure and display indoor temperature and humidity levels. Please read this manual thoroughly before using the device and keep it for future reference.

SAFETY INSTRUCTIONS

- Do not expose the device to extreme temperatures, direct sunlight, or high humidity.
- Avoid dropping the device or subjecting it to strong impacts.
- Do not open the device casing or attempt to repair it yourself. Refer all servicing to qualified personnel.
- Keep the device out of reach of children.
- Dispose of batteries according to local regulations.

PACKAGE CONTENTS

Please check that all items are present and in good condition:

- Hama TH50 Thermo/Hygrometer

- 1 Lithium Metal Battery (pre-installed or separate)
- This Instruction Manual

SETUP

1. Battery Installation

The Hama TH50 requires one Lithium Metal battery for operation. If the battery is not pre-installed, follow these steps:

1. Locate the battery compartment cover on the back of the device.
2. Open the battery compartment cover.
3. Insert the Lithium Metal battery, ensuring the correct polarity (+/-) as indicated inside the compartment.
4. Close the battery compartment cover securely.

2. Placement

The Hama TH50 is designed for tabletop mounting. For accurate readings, place the device in a central location within the room, away from direct heat sources, air conditioning vents, or open windows that could affect temperature and humidity measurements.

OPERATING THE DEVICE

Display Information

Once the battery is installed, the device will automatically power on and begin displaying the current temperature and humidity. The display typically shows:

- **Temperature:** Measured in degrees Celsius (°C). The accuracy is $\pm 1^{\circ}\text{C}$.
- **Humidity:** Measured as a percentage (%).
- **Time:** The current time may also be displayed, depending on the model's features.

There are no user-adjustable settings or buttons on this model for changing units or modes. The device operates automatically.

MAINTENANCE

Cleaning

To clean the device, use a soft, dry, lint-free cloth. Do not use abrasive cleaners, solvents, or chemical agents, as these can damage the display or casing. Avoid getting moisture into the device.

Battery Replacement

When the display becomes dim or the readings appear inaccurate, it may be time to replace the battery. Follow the battery installation steps outlined in the "Setup" section to replace the Lithium Metal battery. Ensure proper disposal of the old battery.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Device does not power on / Display is blank.	Battery is not installed or is depleted. Incorrect battery polarity.	Check battery installation and polarity. Replace with a new Lithium Metal battery if necessary.
Inaccurate temperature/humidity readings.	Device placed near heat sources, vents, or in direct sunlight. Battery low.	Relocate the device to a more central and stable environment. Replace the battery.
Display is dim.	Low battery power.	Replace the Lithium Metal battery.

SPECIFICATIONS

- Model Number:** 00186371
- Brand:** Hama
- Product Dimensions:** 10.5 x 8.6 x 3.2 cm
- Item Weight:** 66 Grams
- Colour:** White
- Mounting Type:** Tabletop
- Temperature Reading Accuracy:** $\pm 1^{\circ}\text{C}$
- Batteries:** 1 Lithium Metal battery (included)

WARRANTY AND SUPPORT

Hama provides a limited warranty for this product. For detailed warranty information, technical support, or service inquiries, please refer to the official Hama website or contact their customer service department. Keep your purchase receipt as proof of purchase.

Note: Product specifications and appearance are subject to change without prior notice.
