MAINTENANCE

To ensure the longevity and optimal performance of your fireplace, follow these simple maintenance guidelines:

- **Cleaning:** Wipe the exterior surfaces with a damp cloth. Do not use abrasive cleaners, as they may damage the finish.
- **Ventilation:** Periodically check that the air intake and outlet vents are clear of dust and obstructions to maintain proper airflow and heating efficiency.

TROUBLESHOOTING

If you encounter any issues with your Dimplex Sierra fireplace, refer to the following common troubleshooting steps:

- **No Power:** Check if the unit is properly plugged into a working electrical outlet. Ensure the circuit breaker has not tripped.
- **No Heat:** Verify that the heat function is activated via the remote control or hidden touch controls. Ensure the air vents are not blocked.

- **Flames Not Working:** Check the power supply and ensure the flame effect is turned on. If issues persist, try resetting the unit by unplugging it for a few minutes.
