3. SETUP

3.1 Initial Placement and Power Connection

1. Place the lamp on a stable, flat surface.
2. Connect the power adapter to the lamp's power input port.
3. Plug the power adapter into a suitable electrical outlet. The lamp will power on automatically.

3.2 Mi Home App Installation and Pairing

The Mi Home App is required for full smart functionality.

1. Download the Mi Home App from the Apple App Store or Google Play Store.
2. Open the Mi Home App and sign in or create a new account.
3. Tap the "+" icon in the top right corner to add a new device.
4. Select the "Mi Smart Bedside Lamp 2" from the list of available devices.
5. Follow the on-screen instructions to connect the lamp to your 2.4 GHz Wi-Fi network*Note: This lamp requires a 2.4 GHz Wi-Fi network for initial setup and smart home integration. Ensure your router is configured to support this frequency.*
6. Once connected, you can rename the lamp and assign it to a specific room within the app.

3.3 Voice Assistant Integration

To integrate with voice assistants, follow the instructions within their respective apps:

- **Apple HomeKit:** Open the Home app on your iOS device, tap "Add Accessory," and scan the HomeKit code (usually found on the lamp or its packaging).
- **Google Assistant:** In the Google Home app, go to "Set up device" > "Works with Google" and link your Mi Home account.
- **Amazon Alexa:** In the Alexa app, enable the "Mi Home" skill and link your Mi Home account.

4. OPERATING INSTRUCTIONS

4.1 Touch Controls

The lamp features an intuitive touch panel on its front surface:

- **Power Button:** Press once to turn the lamp on or off.
- **Brightness Slider:** Slide your finger up or down the vertical bar to adjust brightness.
- **Color/Mode Button:** Press and hold the power button, then slide your finger along the vertical bar to cycle through different colors or preset modes.

4.2 Mi Home App Control

The Mi Home App provides comprehensive control over your lamp:

- **Power On/Off:** Toggle the lamp's power.
- **Brightness Adjustment:** Precisely adjust the light intensity.
- **Color Selection:** Choose from 16 million colors using a color wheel.
- **Color Temperature:** Adjust the white light from warm to cool.
- **Scenes and Presets:** Select from various pre-programmed lighting scenes or create your own custom

scenes.

- **Schedules and Timers:** Set schedules for the lamp to turn on/off or change modes automatically.

4.3 Voice Commands

Once integrated with a voice assistant, use commands such as:

- "Hey Google, turn on the bedside lamp."
- "Alexa, set the bedside lamp to blue."
- "Siri, dim the bedside lamp to 50%."
- "Hey Google, change the bedside lamp to warm white."

5. MAINTENANCE

To ensure the longevity and optimal performance of your XIAOMI Mi Smart Bedside Lamp 2, follow these maintenance guidelines:

- **Cleaning:** Disconnect the lamp from power before cleaning. Use a soft, dry, or slightly damp cloth to

wipe the surface. Avoid abrasive cleaners, solvents, or harsh chemicals that could damage the lamp's finish.

- **Placement:** Avoid placing the lamp in direct sunlight, high humidity, or extreme temperatures. Keep it away from water and other liquids.
- **Handling:** Handle the lamp with care. Do not drop it or subject it to strong impacts.
- **Power Adapter:** Use only the original power adapter provided with the lamp. Ensure the adapter is suitable for your region's electrical standards.

6. TROUBLESHOOTING

If you encounter issues with your Mi Smart Bedside Lamp 2, refer to the following common solutions:

Issue	Possible Cause	Solution
Lamp does not turn on.	No power connection.	Ensure the power adapter is securely plugged into the lamp and a working electrical outlet.
Cannot connect to Wi-Fi or Mi Home App.	Incorrect Wi-Fi frequency; poor signal; incorrect password.	Verify your Wi-Fi network is 2.4 GHz. Move the lamp closer to the router. Double-check your Wi-Fi password. Reset the lamp (refer to app for reset instructions, usually involves power cycling or holding a button).
Voice control not working.	Incorrect integration; lamp offline; incorrect commands.	Ensure the lamp is connected to the Mi Home App and the respective voice assistant (Apple HomeKit, Google Assistant, Alexa) is properly linked. Use correct voice commands. Check if the lamp is online in the Mi Home App.
Lamp is dim or not bright enough.	Brightness setting is low.	Adjust the brightness using the touch controls or the Mi Home App. The lamp has a maximum brightness of 400 lumens.
Power adapter appears non-standard for my region.	Regional power adapter incompatibility.	Ensure you are using the correct power adapter for your region. If an incorrect adapter was supplied, contact your retailer or XIAOMI support for a suitable replacement. Do not use incompatible adapters.
