## PURPLE LEAF 1

# PURPLE LEAF 365 cm Rectangular Cantilever Umbrella Instruction Manual

Model: 1

## 1. INTRODUCTION

---

Thank you for choosing the PURPLE LEAF 365 cm Rectangular Cantilever Umbrella. This manual provides essential information for the safe assembly, operation, and maintenance of your new outdoor umbrella. Please read these instructions carefully before use and retain them for future reference.

This cantilever umbrella is designed to provide versatile shade for your outdoor living space, featuring a robust aluminum frame, a durable polyester canopy, and an easy-to-use crank mechanism for opening and closing.

## 2. SAFETY INFORMATION

---

- Always ensure the umbrella is securely anchored with an appropriate weighted base (**base not included**). Refer to product B09HRHG61M for a suitable water tank base.
- Do not use the umbrella in strong winds, heavy rain, or other severe weather conditions. Close and secure the umbrella to prevent damage or injury.
- Keep children and pets away from the umbrella during opening, closing, and adjustment.
- Avoid placing the umbrella near open flames or heat sources.
- Regularly inspect all components for wear and tear. Do not use if any parts are damaged.

## 3. PACKAGE CONTENTS

---

Your PURPLE LEAF Cantilever Umbrella package should contain the following main components:

- Umbrella Canopy with Ribs
- Main Pole Assembly
- Crank Handle Mechanism
- Cross Base (for attaching weighted base, weighted base sold separately)
- Assembly Hardware (bolts, washers, nuts)

*Note: The weighted base is not included and must be purchased separately to ensure stability.*

## 4. SETUP AND ASSEMBLY

---

Follow these steps to assemble your cantilever umbrella:

1. **Unpack Components:** Carefully remove all parts from the packaging and lay them out on a clean, flat surface. Verify all components are present according to the package contents list.
2. **Assemble Cross Base:** Attach the cross base pieces together using the provided hardware. Ensure all bolts are tightened securely.
3. **Secure Weighted Base:** Place your purchased weighted base (e.g., water tank base B09HRHG61M) onto the assembled cross base. Ensure it is filled or weighted sufficiently to prevent tipping.
4. **Attach Main Pole:** Insert the main pole assembly into the designated slot on the secured cross base. Fasten it using the appropriate bolts and nuts, ensuring it is upright and stable.
5. **Attach Canopy Assembly:** Carefully lift the umbrella canopy assembly and attach it to the top of the main pole. Follow the specific instructions provided with the hardware for securing the canopy to the pole.

The umbrella features a robust structural design with thickened cast iron ribs and oxidation-resistant paint for extended service life.

## 5. OPERATING INSTRUCTIONS

Your PURPLE LEAF cantilever umbrella is designed for ease of use and versatile shade positioning.

## 5.1 Opening and Closing the Umbrella

- **To Open:** Locate the aluminum crank handle on the main pole. Turn the handle clockwise to extend the canopy until it is fully open.
- **To Close:** Turn the crank handle counter-clockwise to retract the canopy until it is fully closed. Secure the canopy with the attached strap if available.

### Aluminum Crank Handle

Five tilt adjustments meet various sunlight angles. Easy to open and close

Image 3: The aluminum crank handle allows for easy opening and closing of the umbrella.

## 5.2 Adjusting Tilt and Rotation

- **Tilt Adjustment:** The umbrella offers five tilt adjustments to meet various sunlight angles. Use the tilt mechanism (usually a lever or button) on the pole to adjust the canopy angle.
- **360-Degree Rotation:** The umbrella can pivot 360 degrees. Unlock the rotation mechanism (often a foot pedal or lever at the base) and rotate the canopy to your desired position. Lock the mechanism once adjusted.
- **Height Adjustment:** The umbrella can be adjusted to 6 different heights. Use the height adjustment mechanism on the pole to set the desired height.

The umbrella ribs are protected by an embedded spring shockproof design, which helps prevent damage if the umbrella falls or experiences sudden impact.

# Shockproof Design

Embedded springs help protect umbrella ribs when falling.

## 6. MAINTENANCE

---

Proper maintenance will extend the life and appearance of your umbrella.

### 6.1 Canopy Care

- The canopy is made from 240 g/m<sup>2</sup> premium yarn-dyed polyester fabric, offering superior UV resistance (Rated UV 50+), water repellency, and tear resistance, with 3 years fade resistance.
- Clean the canopy regularly with a soft brush and mild soap solution. Rinse thoroughly with clean water and allow it to air dry completely before closing or storing.
- Do not use harsh chemicals, bleach, or abrasive cleaners, as these can damage the fabric.
- For stubborn stains, a specialized outdoor fabric cleaner may be used, following the product's instructions.

Image 5: Detail of the 240 GSM premium yarn-dyed fabric, showcasing its durability and protective features.

## 6.2 Frame Care

- Wipe the aluminum frame with a damp cloth and mild soap. Dry thoroughly to prevent water spots.
- Periodically check all bolts and connections to ensure they are tight. Retighten if necessary.
- Lubricate moving parts of the crank mechanism and rotation system annually with a silicone-based spray to ensure smooth operation.

## 6.3 Storage

- When not in use for extended periods, especially during off-season or severe weather, close the umbrella and cover it with a protective umbrella cover (sold separately).
- For long-term storage, disassemble the umbrella and store it in a dry, sheltered location to protect it from elements and prolong its lifespan.

## 7. TROUBLESHOOTING

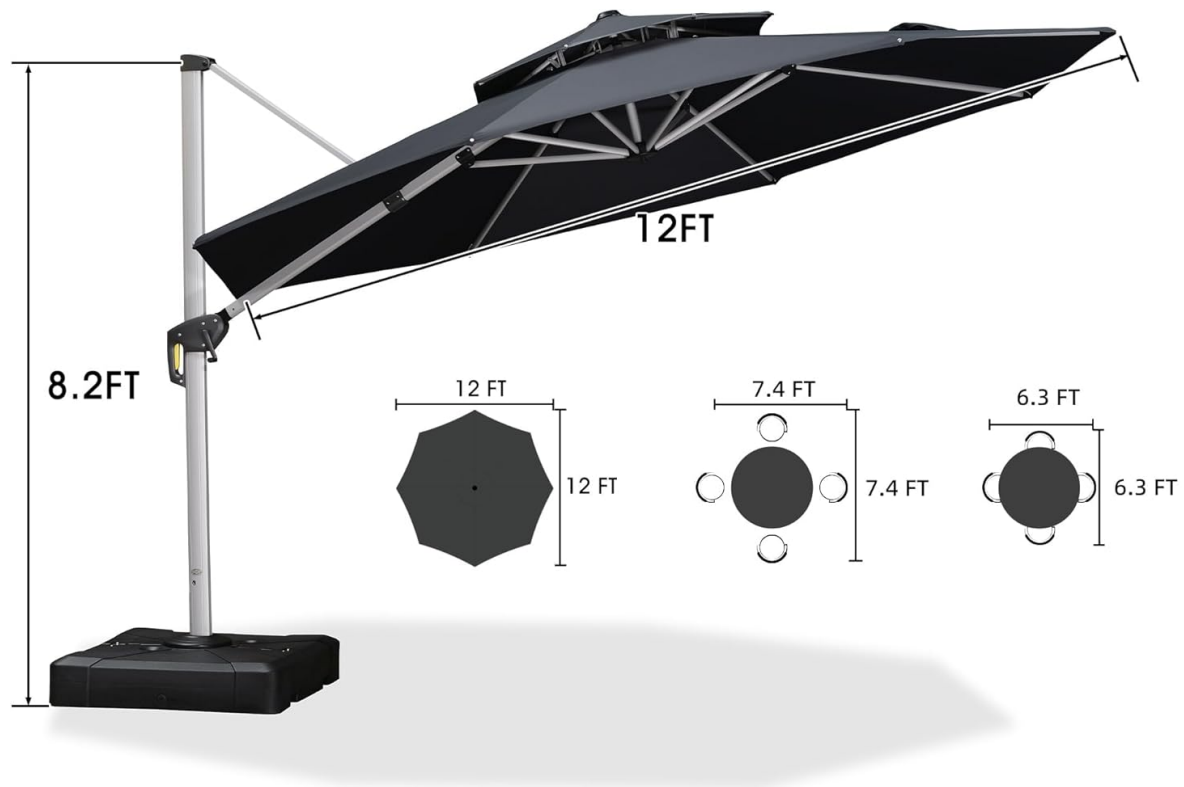

- **Umbrella difficult to open/close:** Check if the crank mechanism is obstructed. Ensure all moving parts are clean and lubricated.
- **Umbrella unstable:** Verify that the weighted base is adequately filled/weighted and securely

attached to the cross base. Ensure all pole connections are tight.

- **Canopy not tilting/rotating:** Check if the locking mechanisms for tilt and rotation are disengaged. Ensure no debris is obstructing the movement.
- **Water pooling on canopy:** Ensure the canopy is fully extended and taut. Adjust the tilt to allow water runoff.

## 8. SPECIFICATIONS

Feature	Detail
Brand	PURPLE LEAF
Model Number	1
Canopy Shape	Rectangular
Canopy Size	365 cm (approx. 12 ft)
Overall Height	Approx. 8.2 ft
Color	Grey
Canopy Material	240 g/m <sup>2</sup> Yarn-Dyed Polyester
Frame Material	Aluminum Pole, Thickened Cast Iron Ribs
Weight	30 Kilograms
Tilt Positions	5
Rotation	360 Degrees
Height Adjustments	6
UV Protection	Rated UV 50+
Fade Resistance	3 Years

Note: The base of the umbrella needs to be purchased separately.
