SAFETY INFORMATION

For external use only.

- Do not use if you or your partner are allergic to lidocaine or topical anesthetics.
- Avoid contact with the eyes.
- Do not spray on broken or sensitive skin.
- Stop use and consult a doctor if the product, used as directed, does not provide relief, if premature ejaculation persists (as it may indicate a condition requiring medical supervision), or if you or your partner develop a rash, burning, or itching.
- Keep out of reach of children. If swallowed, seek medical help or contact a Poison Control Center immediately.
- Consult a doctor or pharmacist before use if you have liver problems or if your partner is, or may be, pregnant.

Drug Facts

Active Ingredient Purpose (per spray):
Lidocaine 10 mg...Male Genital Desensitizer

Use Helps in temporarily slowing the onset of ejaculation.

Warnings
For external use only.

Do not use if you or your partner are allergic to lidocaine or topical anesthetics.

When using this product

- Avoid contact with the eyes.
- Do not spray on broken, irritated, or sensitive skin.

Stop use and ask a doctor if

- This product, used as directed, does not provide relief. Premature ejaculation may be due to a condition requiring medical supervision.
- You or your partner develop a rash or irritation, such as burning or itching.

Keep out of reach of children.
If swallowed, get medical help or contact a Poison Control Center immediately.

Ask a doctor or pharmacist before use

- If you have liver problems.
- If your partner is, or may be pregnant.

Directions
Gently shake bottle. Hold upright and press pump until spray dispenses.
Apply 2 or more sprays, not to exceed 10

SETUP AND PREPARATION

1. **Shake Gently:** Before each use, gently shake the bottle to ensure proper mixture of ingredients.
2. **First Use:** Hold the bottle upright and press the pump several times until the spray dispenses consistently.

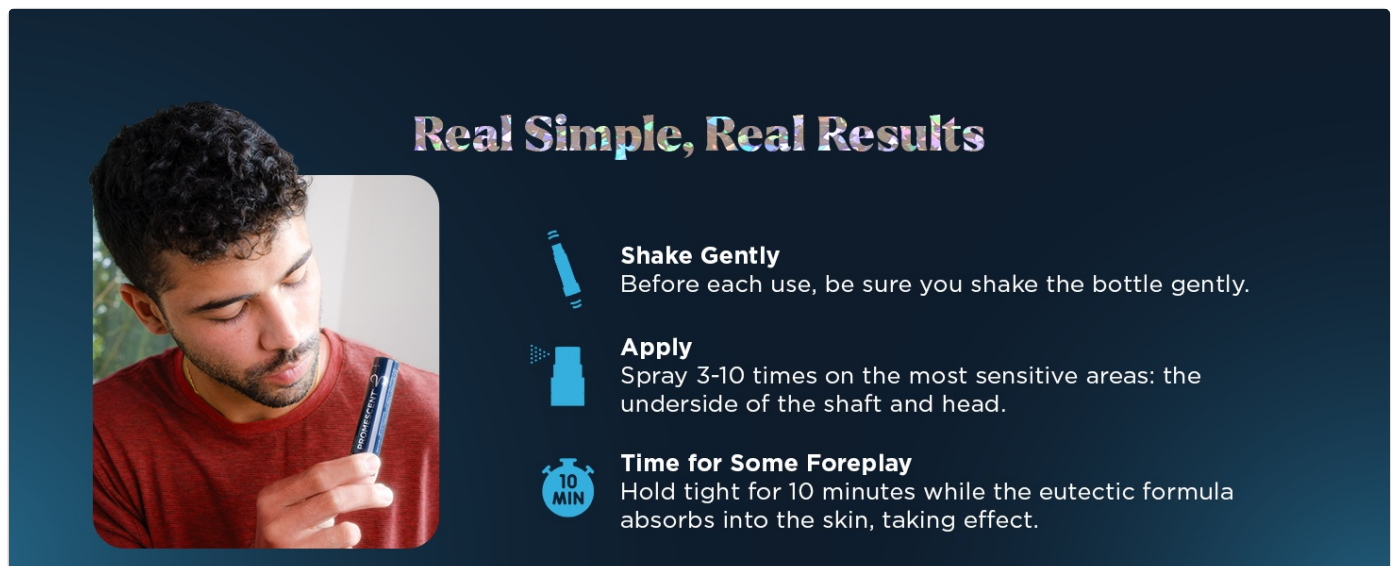

Image: Visual guide illustrating the three steps for using Promescent: shake gently, apply, and wait for absorption.

OPERATING INSTRUCTIONS

Follow these steps for effective use:

1. **Application:** Apply 3 or more sprays, not exceeding 10, to the head and shaft of the penis.

2. **Timing:** Apply approximately 10 minutes before sexual intercourse. This allows the active ingredient to absorb into the skin.
3. **Post-Use:** Wash the product off after intercourse.

The unique Anti-Transfer Technology is designed to ensure maximum absorption into the skin, minimizing transfer to your partner when used as directed.

MAINTENANCE AND STORAGE

- Store at 68-77°F (20-25°C).
- Keep the cap securely on the bottle when not in use.
- Ensure the spray nozzle is clean and free from blockages.

TROUBLESHOOTING

If you experience any issues with the product, consider the following:

- **No Relief:** If the product does not provide the intended relief when used as directed, discontinue use and consult a healthcare professional.
- **Skin Irritation:** If you or your partner develop a rash, burning, or itching, stop use immediately and consult a doctor.
- **Product Not Dispensing:** Ensure the pump is pressed firmly and consistently. If it's the first use, prime the pump by pressing it several times until spray appears.
