Setup and Charging

Before first use, ensure all components are present and properly assembled. The vacuum features a detachable wand and a motorized head for easy configuration. Fully charge the lithium-ion battery before initial operation.

- **Assembly:** Connect the main vacuum unit to the extension wand, and then attach the motorized floor nozzle.
- **Charging:** Use the provided wall-mounted base and portable adapter to charge the 21.6V lithium-ion battery. A full charge takes approximately 3.5 hours. The halo LED battery indicator will show charging status.

Operating Instructions

The Kenmore 2-in-1 vacuum offers versatile cleaning options for various surfaces and situations.

- **Power Settings:** Select between two speed settings: Low (Eco Mode) for extended runtime and light cleaning, and High (Max Mode) for powerful suction on tougher messes.
- **Surface Compatibility:** This vacuum is suitable for bare floors, carpet, tile, linoleum, and hardwood. The motorized nozzle with LED headlight enhances visibility and cleaning efficiency.
- **2-in-1 Functionality:** The main unit detaches to become a portable hand vacuum, perfect for cleaning furniture, vehicle interiors, and hard-to-reach areas.
- **Included Tools:** Utilize the combo crevice/dusting brush tool for detailed cleaning.

Maintenance

Regular maintenance ensures optimal performance and extends the life of your vacuum.

- **Emptying the Dust Bin:** The transparent dust/dirt bin is quickly detachable and easy to empty. Empty after each use or when the fill line is reached.
- **Filter Cleaning:** The HEPA certified filtration system includes a washable filter. Regularly clean the filter according to the instructions in the full user manual to maintain optimal suction and filtration efficiency.

Troubleshooting

If you encounter issues with your Kenmore vacuum, refer to the following common solutions:

- **No Power:** Ensure the battery is fully charged and properly seated. Check the power adapter connection if charging.
- **Reduced Suction:** Empty the dust bin. Check and clean the HEPA filter. Inspect the nozzle and wand for any blockages.

- **Motorized Nozzle Not Spinning:** Check for tangled hair or debris around the brush roll. Ensure the nozzle is securely attached to the wand.
