7. **Attach Door Tracks:** Fasten the aluminum tracks to the top and bottom of the wardrobe frame. Ensure they are parallel and level for smooth door operation.
8. **Mount Sliding Doors:** Carefully lift and place the sliding doors onto the tracks. The mirrored door typically goes in the center. Ensure they slide freely without obstruction.

10. **Final Checks:** Verify all connections are tight. Ensure the wardrobe is stable and level. If anti-tip hardware is provided, secure the wardrobe to the wall according to its instructions.

4. OPERATING INSTRUCTIONS

The Madesa Monaco Wardrobe Closet is designed for ease of use and efficient storage.

- **Sliding Doors:** Gently push or pull the doors along their tracks to open and close. Avoid forcing the doors, as this can damage the tracks or rollers.
- **Internal Shelves:** Utilize the multiple shelves for folded clothing, accessories, or storage bins. Distribute items evenly to maintain stability.
- **Hanging Rod:** Use the metal hanging rod for garments that require hanging, such as shirts, dresses, or coats. Do not exceed the weight capacity of the rod.
- **Mirror:** The integrated mirror allows for convenient outfit checks. Keep it clean for optimal reflection.

5. MAINTENANCE AND CARE

Proper care will extend the life and appearance of your Madesa Monaco Wardrobe Closet.

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid abrasive cleaners, harsh chemicals, or excessive moisture, which can damage the finish.
- **Mirror Care:** Clean the mirror with a glass cleaner and a lint-free cloth. Spray cleaner onto the cloth, not directly onto the mirror, to prevent liquid from seeping into the edges.
- **Door Tracks:** Periodically clean the aluminum door tracks to remove dust and debris, ensuring smooth operation. A vacuum cleaner with a brush attachment can be effective.
- **Hardware:** Periodically check all screws and fasteners to ensure they remain tight. Retighten if necessary.
- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight can cause fading or discoloration of the wood finish.
- **Humidity Control:** Maintain a stable room temperature and humidity level to prevent warping or cracking of the wood.
