3. SETUP

Simpli-Magic Shop Towels are ready for immediate use upon unpacking. No assembly is required. For optimal absorbency and to minimize initial lint, it is recommended to wash the towels before first use.

First Use Preparation:

1. Unpack the desired number of towels from the packaging.
2. Machine wash the towels separately in cold water with a mild detergent.
3. Tumble dry on low heat or air dry.
4. Once dry, the towels are ready for use.

4. OPERATING INSTRUCTIONS

These shop towels are designed for a variety of cleaning and wiping tasks. Their cotton composition provides good absorbency and durability.

General Usage Guidelines:

- **Wiping Surfaces:** Use for cleaning spills, wiping down counters, or drying surfaces.
- **Automotive Use:** Effective for cleaning grease, oil, and grime from vehicle parts and surfaces.
- **Detailing:** Can be used for interior and exterior detailing of vehicles, ensuring a clean finish.
- **General Cleanup:** Suitable for various household and workshop cleanup tasks.

5. MAINTENANCE

Proper care and maintenance will extend the life of your Simpli-Magic Shop Towels.

Cleaning Instructions:

- **Machine Washable:** Towels can be machine washed.
- **Separate Wash:** It is recommended not to wash these towels with other items, especially light-colored fabrics, as they may bleed dye during washing.
- **Water Temperature:** Use cold or warm water.
- **Detergent:** Use a mild detergent.
- **Avoid Bleach:** Do not use bleach, as it can damage the cotton fibers and affect the color.
- **Drying:** Tumble dry on low heat or air dry. The material is quick-drying.

6. TROUBLESHOOTING

This section addresses common concerns and provides solutions for optimal towel performance.

Issue	Possible Cause	Solution
Towel Bleeding Dye	Initial washes or washing with other items.	Wash towels separately for the first few washes. Avoid washing with light-colored items.
Reduced Absorbency	Buildup of fabric softener or detergent residue.	Avoid using fabric softener. Use less detergent or run an extra rinse cycle.
Excessive Lint	New towels or improper drying.	Wash towels before first use. Ensure lint trap is clean in dryer. Shake towels before drying.
Towel Stiffness	Hard water or detergent residue.	Add a cup of white vinegar to the rinse cycle. Ensure proper drying.
