JEKCA 16S-M01

JEKCA Cat 16S-M01 Calico Plastic Building Blocks Instruction Manual

Model: 16S-M01

INTRODUCTION

This manual provides detailed instructions for assembling your JEKCA Cat 16S-M01 Calico plastic building blocks. Follow these guidelines carefully to ensure a successful and enjoyable building experience. The JEKCA building system utilizes a patented interlocking brick-through mechanism, designed for stability and durability.

SAFETY INFORMATION

WARNING: CHOKING HAZARD - Small Parts.

This product contains small parts and is not suitable for children under 14 years of age. Adult supervision is recommended for users aged 14 and above. Keep all components away from young children and pets to prevent accidental ingestion.

PACKAGE CONTENTS

- Over 1870 plastic building pieces for the JEKCA Cat 16S-M01 Calico model.
- Detailed building manual with step-by-step instructions.
- Specialized interlocking screws for securing the blocks.

Please verify all components are present before beginning assembly. If any parts are missing, refer to the "Troubleshooting" section for assistance.

ASSEMBLY INSTRUCTIONS

The JEKCA building system features a patented interlocking brick-through mechanism that ensures a sturdy and durable final model. Each piece is secured using specialized screws, preventing the structure from easily breaking apart.

Preparation:

1. Clear a large, well-lit workspace.
2. Organize the building pieces by color and shape as much as possible. This will simplify the assembly process.
3. Familiarize yourself with the included building manual. It contains detailed diagrams for each step.

Interlocking Mechanism Overview:

Image: Step-by-step diagram illustrating the JEKCA patented interlocking brick-through system. (1) Align two blocks. (2) Insert the specialized screws through the aligned blocks. (3) Rotate the screws 90 degrees to lock them securely in place.

- **Step 1: Align Blocks** - Position the plastic blocks according to the building manual's diagrams. Ensure the holes in the blocks align perfectly.
- **Step 2: Insert Screws** - Carefully insert the specialized screws through the aligned holes in the blocks.
- **Step 3: Lock in Place** - Using the provided tool (if applicable, or by hand), rotate the screws 90 degrees. This action expands the screw's base within the blocks, creating a secure, interlocking connection.

General Assembly Tips:

- Follow the building manual's sequence precisely. Each step builds upon the previous one.
- Double-check screw placement and rotation to ensure maximum stability.
- If a piece does not fit easily, do not force it. Re-examine the diagram and ensure correct orientation and piece selection.
- Take breaks if you feel fatigued. This is a detailed project that requires patience.

MAINTENANCE

To maintain the appearance and integrity of your JEKCA model:

- **Cleaning:** Dust the model regularly with a soft, dry cloth. For deeper cleaning, gently wipe with a damp cloth and mild soap, then dry thoroughly. Avoid harsh chemicals or abrasive materials.
- **Storage:** Store the assembled model in a stable location away from direct sunlight and extreme temperatures to prevent material degradation or discoloration.
- **Disassembly:** If you need to disassemble the model, carefully rotate the screws back 90 degrees to unlock them before separating the blocks.

TROUBLESHOOTING

Issue	Possible Cause	Solution
Missing pieces	Packaging error or accidental loss during unpacking/assembly.	Carefully check all packaging materials. If pieces are still missing, contact JEKCA customer service for assistance.
Blocks not fitting securely	Screws not fully rotated or incorrect block alignment.	Ensure screws are rotated 90 degrees to lock. Verify block orientation and alignment with the manual's diagrams.
Difficulty understanding a step	Complex diagram or specific piece orientation.	Review the diagram carefully, paying attention to small details. Try rotating the manual or the model for a different perspective. Seek online resources or contact support if needed.

SPECIFICATIONS

- **Product Model:** 16S-M01
- **Item Model Number:** ST19CA16-M01
- **Product Dimensions:** 14.02 x 4.17 x 15.43 inches
- **Item Weight:** 2.86 pounds
- **Manufacturer Recommended Age:** 14 years and up
- **Number of Pieces:** >1870
- **Brand:** JEKCA
- **Manufacturer:** JEKCA Limited
