## Braun BC17B

# Braun Classic Large Analogue Wall Clock User Manual

Model: BC17B

## INTRODUCTION

---

Welcome to the user manual for your Braun Classic Large Analogue Wall Clock, Model BC17B. This manual provides essential information for setting up, operating, and maintaining your clock to ensure optimal performance and longevity.

This clock features a silent sweep movement, a clear and easy-to-read dial, and a durable semi-tempered glass lens. It is designed for indoor use and requires one AA battery (not included).

## SETUP

### 1. Unpacking

Carefully remove the clock from its packaging. Inspect the clock for any signs of damage.

Figure 2: The clock is securely packaged to prevent damage during transit.

## 2. Battery Installation

1. Locate the battery compartment on the back of the clock.
2. Rotate the back cover in the direction of the arrow to open it.
3. Insert one AA battery (not included) into the compartment, ensuring the correct polarity (+/-).
4. Close the back cover by rotating it until it locks securely.

Figure 3: Rear view of the clock, highlighting the battery compartment.

## 3. Setting the Time

Use the adjustment knob located on the back of the clock, near the battery compartment, to set the correct time. Rotate the knob until the hour and minute hands display the desired time.

## 4. Mounting the Clock

The clock is designed for wall mounting. Use the keyhole slot on the back of the clock to hang it securely on a wall hook or screw. Ensure the mounting surface is stable and can support the weight of the clock.

## Quiet movement.

Silent sweeping second hand (non-tick).

Figure 4: Side profile of the clock, demonstrating its slim design when mounted.

## OPERATION

Your Braun Classic Wall Clock operates continuously once the battery is installed and the time is set. It features a silent sweeping second hand, which moves smoothly without the traditional ticking sound, ensuring a quiet environment.

Figure 5: Detail of the silent sweeping second hand.

The dial is designed for easy readability, with contrasting hour and minute hands and clear numbering.

Figure 6: The clear dial layout ensures easy time reading.

## MAINTENANCE

- **Cleaning:** Wipe the clock surface and glass lens with a soft, dry cloth. Avoid using abrasive cleaners or solvents, as these may damage the finish or glass.
- **Battery Replacement:** Replace the AA battery annually, or when the clock begins to lose time or stops functioning.
- **Placement:** Avoid placing the clock in direct sunlight or near extreme temperature changes, as this can affect accuracy and material integrity.

## TROUBLESHOOTING

Problem	Possible Cause	Solution

Problem	Possible Cause	Solution
Clock stops or loses time	Low battery	Replace the AA battery.
Hands are not moving smoothly	Obstruction or internal issue	Ensure nothing is obstructing the hands. If the issue persists after battery replacement, contact customer support.
Clock is not hanging straight	Improper mounting	Re-adjust the clock on the wall hook/screw to ensure it is level.
