KYODOLED P0036

KYODOLED Key Storage Lock Box with Code, Locking Key Cabinet, 40 Key Management Wall Mount

Brand: KYODOLED

1. INTRODUCTION

The KYODOLED Key Storage Lock Box is designed to provide a secure and organized solution for managing up to 40 keys. Crafted from heavy-duty steel, this wall-mountable cabinet features a 3-digit combination lock, ensuring robust security for your keys. It comes complete with key rings, identification tags, and key labels for efficient organization, making it ideal for homes, offices, apartment complexes, and various commercial settings.

Video: An overview of the KYODOLED Key Storage Box with Combination Lock, highlighting its features and capacity.

2. SETUP

2.1. Combination Lock Setup

The lock box comes with a default factory code of "0-0-0". To open, ensure the dials are set to "0-0-0" and twist the knob to the "unlock" position. To set your personal 3-digit combination code, follow these steps:

1. Adjust the dials to the factory code "0-0-0" and twist the button to "unlock" to open the lock box.
2. Inside the lock mechanism, use two fingers (thumb and index finger) to move the lock slot from position A to the side, then up to position B. Do not move it directly from A to B, as it may get stuck.
3. Set your new 3-digit code by rolling the dials to your desired numbers. Ensure all numbers are centered on the dial.
4. Move the lock slot back from position B to position A to complete the code setting.

Important: Please do not forget your code. If you forget the code, finding it can take 20-30 minutes.

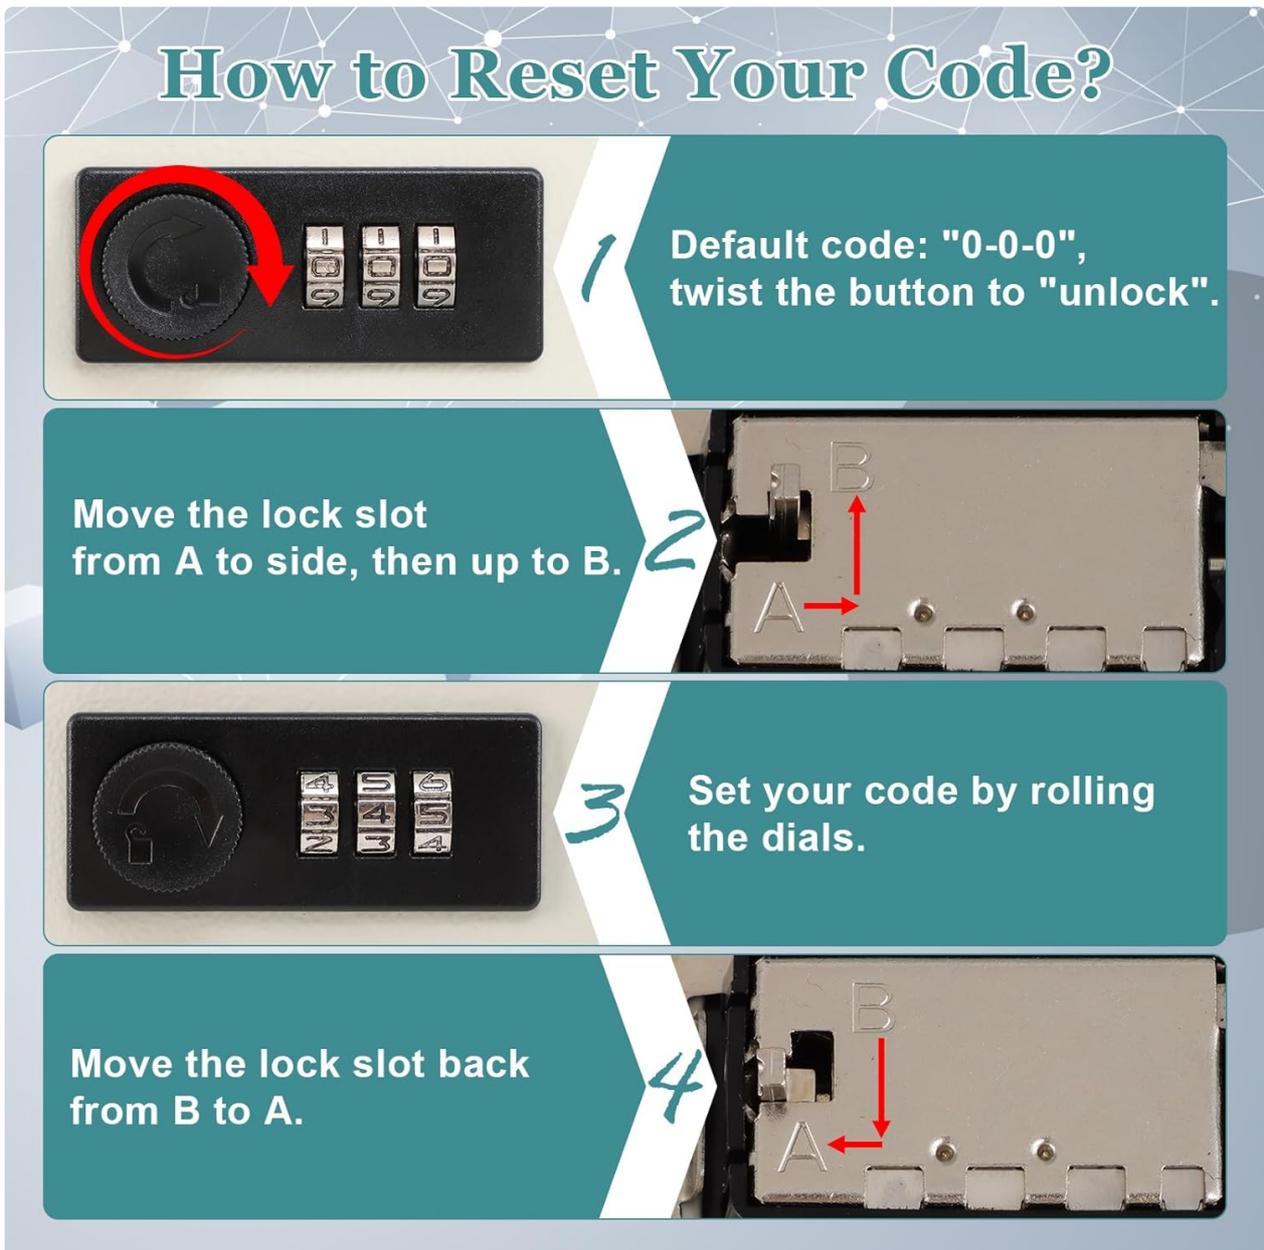

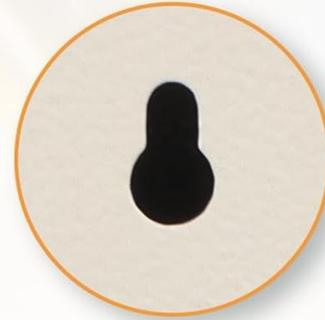

Image: Detailed instructions on how to reset your combination code, illustrating the lever movement and dial setting.

2.2. Wall Mount Installation

The key cabinet is designed for easy wall mounting. The package includes 3 screws and 3 wall anchors for stable placement. Follow these steps for installation:

1. Choose a suitable location on your wall for mounting the key cabinet.
2. Mark the positions for the three pre-drilled mounting holes on the back of the cabinet onto the wall. Use a level to ensure proper alignment.
3. Drill holes at the marked positions on the wall. Insert the wall anchors into the drilled holes.
4. Align the key cabinet with the anchors and secure it to the wall using the provided screws.

There are screw holes on the back for easy installation

3. OPERATING INSTRUCTIONS

3.1. Key Organization

The key cabinet includes 40 key rings, identification tags, and key labels to help you organize your keys efficiently. Each key hook is numbered, allowing you to assign a specific number to each key or set of keys. You can use the provided key labels to write down information about each key, such as its purpose or location, and then attach them to the corresponding key rings.

Product Size & Accessories

Video: A demonstration of how to keep all your keys in order and safe using the KYODOLED key storage box.

3.2. Accessing the Cabinet

To access your keys, simply input your set 3-digit combination code on the spinlock. Once the correct code is entered, turn the rotary knob to the right to unlock the door. To secure the cabinet, close the door and turn the rotary knob to the left to lock it. The combination lock provides over 1,000 possible combinations for enhanced security.

No need to carry keys with you

4. MAINTENANCE

The KYODOLED Key Storage Lock Box is constructed from heavy-duty steel for long-term durability. To maintain its appearance and functionality, regularly wipe the exterior with a soft, damp cloth to remove dust and grime. Avoid using abrasive cleaners or solvents that could damage the powder-coated finish. Ensure the combination lock mechanism remains free of debris for smooth operation.

5. TROUBLESHOOTING

5.1. Forgetting the Combination Code

If you have forgotten your combination code, you will need to reset it. Refer to the "Combination Lock Setup" section (2.1) and the accompanying "How to Reset Your Code?" image for detailed instructions on resetting the code. This process involves returning the lock to its factory default setting and then setting a new personal code.

6. SPECIFICATIONS

Feature	Detail
Brand	KYODOLED
Model Number	P0036
Color	White Combination Lock
Product Dimensions	2.5"D x 8.1"W x 12.1"H
