Globe Electric 50035

GLOBE Electric Wi-Fi Smart BR30 LED Light Bulb (Model 50035) Instruction Manual

1. PRODUCT OVERVIEW

This manual provides instructions for the GLOBE Electric Wi-Fi Smart BR30 LED Light Bulb, Model 50035. This smart bulb offers multicolor (RGB) and tunable white (2000K-5000K) lighting, controllable via the GLOBE SUITE App or voice commands through Google Assistant and Amazon Alexa. It features a BR30 shape with an E26 base, operates at 10 watts (65W equivalent), and provides 650 lumens of brightness.

2. SAFETY INFORMATION

Please read and understand all safety instructions before installing or using this product. Failure to do so may result in electric shock, fire, or other injuries.

- Ensure power is turned off at the circuit breaker before installation or removal.
- Do not use with standard dimmers. This bulb is dimmable only via the GLOBE SUITE App or compatible voice assistants.
- Suitable for indoor use only.
- Do not disassemble or modify the bulb.

- Avoid exposure to water or excessive moisture.

3. PACKAGE CONTENTS

Verify that your package contains the following items:

- 1 x GLOBE Electric Wi-Fi Smart BR30 LED Light Bulb (Model 50035)
- 1 x Instruction Sheet (this document)

4. SETUP

Follow these steps to set up your GLOBE Electric Wi-Fi Smart BR30 LED Light Bulb:

4.1 Install the Bulb

1. Ensure the power to the light fixture is OFF at the switch and circuit breaker.
2. Carefully screw the smart bulb into a standard E26 base socket.
3. Turn the power ON at the switch. The bulb should flash rapidly, indicating it is in pairing mode. If it does not flash, turn the bulb ON/OFF three times to reset it.

4.2 Download the GLOBE SUITE App

The GLOBE SUITE App is required for full functionality. Download it from the App Store (iOS) or Google Play Store (Android).

- Search for "GLOBE SUITE".
- Install the app and create an account or log in.

4.3 Connect to Wi-Fi and Sync

Your mobile device must be running iOS 8.0 or higher / Android 4.1 or higher. The bulb requires a 2.4 GHz Wi-Fi network for initial connection.

1. Open the GLOBE SUITE App.
2. Tap the "+" icon in the top right corner to add a device.
3. Select "Lighting" and then "Smart Bulb".
4. Confirm the bulb is flashing rapidly. If not, reset it by cycling power ON/OFF three times.
5. Enter your 2.4 GHz Wi-Fi network name and password.
6. Follow the on-screen instructions to complete the pairing process. Once connected, the bulb will stop flashing and remain steadily lit.

5. OPERATING INSTRUCTIONS

Once your smart bulb is set up, you can control it using the GLOBE SUITE App or voice commands.

5.1 App Control

The GLOBE SUITE App provides comprehensive control over your smart bulb:

- **On/Off:** Toggle the bulb's power.
- **Brightness:** Adjust the light intensity from 1% to 100%.
- **Color Changing (RGB):** Select from millions of colors to create different moods or effects.

Image 5.1: The GLOBE SUITE App displaying the RGB color selection wheel for the smart bulb.

- **Tunable White:** Adjust the white light temperature from warm white (2000K) to cool daylight (5000K).

Image 5.2: The GLOBE SUITE App displaying the tunable white temperature slider and preset options.

- **Scenes:** Create custom lighting scenes or use pre-set options for various activities (e.g., reading, party, relaxation).
- **Schedules:** Set timers for the bulb to turn on or off at specific times.

5.2 Voice Control

The GLOBE Electric Smart Bulb is compatible with Amazon Alexa and Google Assistant. To enable voice control:

1. Link your GLOBE SUITE account to your Amazon Alexa or Google Home app.
2. Discover devices within the voice assistant app.
3. Use commands such as:

   - "Alexa/Hey Google, turn on [Bulb Name]."
   - "Alexa/Hey Google, set [Bulb Name] to 50% brightness."
   - "Alexa/Hey Google, change [Bulb Name] to blue."
   - "Alexa/Hey Google, set [Bulb Name] to warm white."

Image 5.4: The GLOBE Electric Smart Bulb highlighting its compatibility with Amazon Alexa and Google Assistant, along with tunable white and RGB color features.

6. MAINTENANCE

The GLOBE Electric Wi-Fi Smart BR30 LED Light Bulb requires minimal maintenance.

- **Cleaning:** Ensure the bulb is off and cool before cleaning. Wipe with a soft, dry cloth. Do not use liquid cleaners or abrasive materials.
- **Storage:** If storing the bulb, keep it in a cool, dry place away from direct sunlight and extreme temperatures.

7. TROUBLESHOOTING

If you encounter issues with your smart bulb, refer to the following common solutions:

Problem	Possible Cause	Solution
Bulb does not turn on.	No power; loose connection; bulb faulty.	Check power switch and circuit breaker. Ensure bulb is screwed in tightly. Test bulb in another fixture.
Bulb does not flash for pairing.	Not in pairing mode.	Turn the bulb ON/OFF three times (with 1-2 second intervals) to reset it to pairing mode.

| Problem	Possible Cause	Solution
Cannot connect to Wi-Fi.	Incorrect Wi-Fi band; weak signal; incorrect password.	Ensure you are connecting to a 2.4 GHz Wi-Fi network. Move closer to your router. Double-check Wi-Fi password.
Bulb is offline in the app.	Wi-Fi disconnected; power interruption.	Check your Wi-Fi router. Ensure the bulb has continuous power. Try resetting the bulb and re-pairing if necessary.
Voice control not working.	Account not linked; device not discovered.	Verify your GLOBE SUITE account is linked to Alexa/Google Assistant. Ask the voice assistant to discover new devices.

8. SPECIFICATIONS

Feature	Detail
Model Number	50035
Bulb Type	LED
Shape/Size	BR30
Base Type	E26
Wattage	10 Watts
Incandescent Equivalent	65 Watts
Brightness	650 Lumens
Color Temperature	2000K - 5000K (Tunable White)
Color Options	Multicolor (RGB)
Voltage	120 Volts
CRI (Color Rendering Index)	80
