# Star Trac 4 SERIES TREADMILL WITH 10" LCD

# Star Trac 4 Series 4TR Treadmill with 10" LCD User Manual

Model: 4 SERIES TREADMILL WITH 10" LCD

# PRODUCT OVERVIEW

The Star Trac 4-Series cardio line, including the 4TR Treadmill, is designed for hospitality and multi-housing markets. It features premium full-color flat panel displays, quick select adjustment keys, and optional personal viewing screens, offering the look and performance of a full commercial product.

# SETUP AND INSTALLATION

#### **Unpacking and Placement**

Carefully remove all packaging materials. Ensure the treadmill is placed on a stable, level surface with adequate clearance around it for safe operation and maintenance. The product dimensions are 81 inches (206 cm) in length, 32 inches (81 cm) in width, and 60 inches (152 cm) in height. Allow sufficient space for user movement and emergency dismount.

# **Electrical Requirements**

The treadmill requires a dedicated electrical circuit. It operates on either 110V/15 Amp (standard outlet) or 220V/15 Amp with a NEMA 6-15 outlet. Consult a qualified electrician if you are unsure about your electrical setup.

# **Assembly**

Assembly is required. Refer to the separate assembly guide included with your product for detailed, step-by-step instructions. Ensure all components are securely fastened before initial use.

# **OPERATING INSTRUCTIONS**

# **Console Features and Navigation**

The 4TR Treadmill features a 10-inch full-color LCD display for an intuitive user experience. The console provides various options for starting and customizing your workout.

Figure 3: Close-up view of the 10-inch LCD console, showing the Quick Start, Select a Workout, and Create a Workout options, along with quick select buttons for speed and incline.

# Starting a Workout

- Quick Start: Press the "Quick Start" option on the display to begin a workout immediately with default settings.
- Select a Workout: Choose from pre-programmed workouts such as "Warm Up," "Burn Fat," "Improve Cardio," "Train," or "Evaluate Fitness." The display will guide you through setting parameters like age, weight, duration, and gender for personalized results.

• Create a Workout: Customize your workout by selecting either "Time" or "Distance" as your primary goal.

### **Adjusting Settings During Workout**

- **Speed:** Use the quick select keys (e.g., 2, 4, 6, 8, 10, 12 mph) or the '+' and '-' buttons on the right side of the console to adjust the running speed. Speed range: 0.5-12 mph (0.8-19 km/h).
- Incline: Use the quick select keys (e.g., 1, 3, 6, 9, 12, 15%) or the '+' and '-' buttons on the left side of the console to adjust the incline. Incline range: 0-15%.
- **Heart Rate Monitoring:** The warm bar on the handlebars provides contact heart rate monitoring. Grip the metal sensors firmly to display your heart rate on the console. Telemetry heart rate monitoring is also supported.
- Integrated Fan: A personal fan is integrated into the console for user comfort.
- USB Port: An integrated USB port provides charging capability for user devices.
- Emergency Stop: The large red stop button on the console and the safety cord clip provide immediate stopping functionality.

  Always attach the safety clip to your clothing before starting a workout.

#### MAINTENANCE

Regular maintenance ensures the longevity and optimal performance of your treadmill. Always unplug the unit before performing any maintenance.

- Cleaning: Wipe down the console and exterior surfaces with a damp cloth after each use. Avoid abrasive cleaners or excessive moisture.
- **Deck Lubrication:** Periodically check the running deck for proper lubrication. Refer to the detailed maintenance schedule in the full user manual for specific intervals and procedures.
- **Belt Tension and Alignment:** Inspect the running belt for proper tension and alignment. Adjust as needed according to the full user manual to prevent premature wear.
- **Motor Compartment:** Keep the motor compartment clean and free of dust and debris. Professional servicing is recommended for internal components.

# **T**ROUBLESHOOTING

This section provides solutions to common issues. For problems not listed here, contact customer support.

Problem	Possible Cause	Solution
Treadmill does not power on.	Power cord not securely plugged in; circuit breaker tripped.	Ensure power cord is fully inserted. Check and reset the circuit breaker. Verify electrical requirements are met.
Running belt slips or hesitates.	Belt tension too loose; deck requires lubrication.	Adjust belt tension according to the full user manual. Lubricate the deck if necessary.
Console display is unresponsive or frozen.	Temporary software glitch.	Turn off the treadmill, wait 30 seconds, then turn it back on. If the issue persists, contact customer support.

#### **SPECIFICATIONS**

Feature	Detail
Brand	Star Trac
Model Name	4 SERIES TREADMILL WITH 10" LCD
Model Number	9-3613-4TR-110-15A-10IN-60BLK
