2. Battery Backup Installation (Optional)

For battery backup of time and thermometer settings during power outages, install three AAA batteries (not included) into the battery compartment on the bottom of the unit. This ensures settings are retained even if the main power is disconnected.

3. Setting Time and Alarm

Locate the 'LOCK/UNLOCK' switch on the back of the unit. Set it to 'UNLOCK'.

Gently rotate the large button on the top of the alarm clock to adjust the time. Press the alarm button (small button next to the large one) to set the alarm time. Rotate the large button again to set the desired alarm time.

Once set, switch the 'LOCK/UNLOCK' switch back to 'LOCK' to prevent accidental changes.

Your browser does not support the video tag.

4. Temperature Unit Selection

On the bottom of the unit, locate a small hole labeled 'C/F'. Use a paper clip or a similar pointed object to

press the button inside this hole to switch between Celsius (°C) and Fahrenheit (°F) temperature display.

OPERATING INSTRUCTIONS

1. Adjusting Display Brightness

The Homtime C1 Pro features a large, easy-to-read LCD display with adjustable brightness. Simply tap the large rotary button on the top of the unit to cycle through three brightness levels (20%, 60%, 100%) and an 'off' setting. This allows you to customize the display visibility for day or night use without disturbing your sleep.

2. Alarm Function and Snooze

When the alarm sounds, tap the large rotary button on the top to activate the snooze function. The alarm will pause for 9 minutes and then reactivate. To completely silence the alarm, press and hold the large rotary button for 3 seconds.

The alarm features a gentle wake-up sound that starts softly and gradually increases in volume. You can adjust the maximum alarm volume by pressing and rotating the large button while the alarm is sounding.

3. Bluetooth Speaker Function

The C1 Pro can function as a Bluetooth speaker. Enable Bluetooth on your mobile device and search for "C1pro" in the list of available devices. Select "C1pro" to pair. Once connected, you can play audio from your device through the alarm clock's speaker.

4. TF Card Playback

Insert a Micro SD (TF) card loaded with your favorite MP3 audio files into the TF card slot on the back of the unit. The alarm clock can play these songs, allowing you to customize your wake-up sound or enjoy music directly from the card.

5. Dual USB Charging Ports

The alarm clock is equipped with two USB charging ports on the front, providing a total current output of 5V-3A. These ports feature over-current, over-voltage, and short-circuit protection. You can charge two USB-powered devices simultaneously, such as smartphones, tablets, or other gadgets.

MAINTENANCE

Cleaning

To clean the unit, wipe it with a soft, dry cloth. Do not use abrasive cleaners, waxes, or solvents as they may damage the finish. Ensure the unit is unplugged before cleaning.

Storage

If storing the alarm clock for an extended period, remove the backup batteries to prevent leakage and damage. Store in a cool, dry place.

TROUBLESHOOTING

Display is blank or not lighting up:

- Ensure the power adapter is securely plugged into both the unit and a working wall outlet.
- Check if the brightness setting is set to 'off'. Tap the large rotary button to increase brightness.
- Verify that the power outlet is functional by plugging in another device.

Alarm is not sounding:

- Ensure the alarm is set correctly and the alarm icon is visible on the display.

- Check the alarm volume level.

Bluetooth pairing issues:

- Ensure Bluetooth is enabled on your mobile device and the C1 Pro is within range.
- Forget "C1pro" from your device's Bluetooth settings and attempt to re-pair.
- Restart both the alarm clock (by unplugging and replugging) and your mobile device.

USB charging not working:

- Ensure the alarm clock is powered on.
- Check the USB cable for damage and ensure it is properly connected to both the alarm clock and your device.
- Try a different USB port or cable.
