

## BUGANI M83 PRO

# BUGANI Shock Bluetooth Speaker M83-SPEAKER User Manual

Model: M83 PRO

## 1. INTRODUCTION

Thank you for purchasing the BUGANI Shock Bluetooth Speaker M83-SPEAKER. This manual provides essential information for setting up, operating, and maintaining your speaker to ensure optimal performance and longevity. Please read this manual thoroughly before use and retain it for future reference.

## 2. SAFETY INFORMATION

- Do not expose the speaker to extreme temperatures or direct sunlight for extended periods.
- Avoid dropping or subjecting the speaker to strong impacts.
- Keep the speaker away from water and liquids, despite its IPX6 rating, to prevent damage to internal components.
- Do not attempt to disassemble, repair, or modify the speaker yourself. Contact qualified service personnel for assistance.
- Use only the provided charging cable and a compatible power adapter.
- Dispose of the product and its battery responsibly according to local regulations.

## 3. PACKAGE CONTENTS

Verify that all items are present in the package:

- BUGANI Shock Bluetooth Speaker M83-SPEAKER
- Type-C Charging Cable
- AUX Cable
- User Manual

## 4. PRODUCT OVERVIEW

---

The BUGANI Shock Bluetooth Speaker M83-SPEAKER is a portable, waterproof speaker designed for powerful audio performance. It features advanced Bluetooth 5.3 technology for stable connections and a robust design suitable for outdoor use.

### Key Features:

- **60W Super Power Audio:** Equipped with two mid-bass external magnetic speakers, two tweeters, and two subwoofer diaphragms for clear sound and deep bass.
- **True Wireless Stereo (TWS):** Connect two M83-SPEAKER units for a combined 120W stereo surround sound experience.
- **Bluetooth 5.3 Connectivity:** Provides faster pairing, more stable signal transmission, and lower power consumption with a wireless range of up to 100ft.
- **IPX6 Waterproof Rating:** Designed to resist high-pressure, heavy sprays of water, making it suitable for outdoor environments.
- **Power Bank Function:** Built-in large-capacity battery allows charging of smart devices via a USB cable.
- **Long Playtime:** Up to 32 hours of playtime on a single charge.
- **Multiple Playback Options:** Supports Bluetooth, 3.5mm AUX audio input, and TF-Card slot.
- **Built-in Microphone:** For hands-free calling.

### Component Identification:

# TRUE WIRELESS BLUETOOTH SPEAKER

Pair TWO speakers together  
to get **120W** super powerful stereo

Image: An X-ray view illustrating the internal components of the BUGANI Shock Bluetooth Speaker, highlighting two tweeters and two subwoofers responsible for its 60W audio output.

The speaker features a control panel with buttons for power, volume, track control, and mode selection. It also includes various ports for charging and external audio input.

## 5. SETUP

---

### 5.1 Charging the Speaker

Before first use, fully charge the speaker. Connect the provided Type-C charging cable to the speaker's charging port and the other end to a compatible USB power adapter (not included). The charging indicator light will show the charging status.

# 32 Hour Playtime

The USB port allows you to charge your smartphone from the outdoor portable speaker.

## 5.2 Bluetooth Pairing

1. Power on the speaker by pressing and holding the power button. The Bluetooth indicator will flash, indicating it's in pairing mode.
2. On your device (smartphone, tablet, etc.), enable Bluetooth and search for available devices.
3. Select "BUGANI M83-SPEAKER" from the list of devices.
4. Once paired, the Bluetooth indicator will stop flashing and remain solid. You will hear an audible confirmation.

# Bluetooth 5.3 Connection Speed, Stable Signal Transmission

Bluetooth 5.3

## 6. OPERATING INSTRUCTIONS

### 6.1 Basic Controls

- **Power Button:** Press and hold to turn on/off. Short press to play/pause.
- **Volume Up (+):** Short press to increase volume.
- **Volume Down (-):** Short press to decrease volume.
- **Next Track (>>|):** Long press to skip to the next track.
- **Previous Track (|<<):** Long press to go to the previous track.
- **Mode (M):** Short press to switch between Bluetooth, AUX, and TF Card modes.

### 6.2 True Wireless Stereo (TWS) Pairing

To achieve a 120W stereo sound experience, you can pair two BUGANI Shock M83-SPEAKER units together:

1. Ensure both speakers are powered on and not connected to any Bluetooth device.
2. On one speaker, press and hold the TWS pairing button (often indicated by a chain link icon or similar, refer

to speaker's physical buttons if not explicitly labeled). The speaker will enter TWS pairing mode.

3. The two speakers will automatically connect to each other. You will hear an audible confirmation once paired.
4. Now, connect your device to one of the speakers via Bluetooth as described in section 5.2. Both speakers will play audio in stereo.

### 6.3 Using AUX Input

Connect one end of the 3.5mm AUX cable to your audio source and the other end to the AUX-in port on the speaker. The speaker will automatically switch to AUX mode, or you may need to press the 'M' button to select AUX mode.

### 6.4 Using TF Card

Insert a TF (microSD) card with audio files into the TF card slot. The speaker will automatically switch to TF card mode and begin playing music, or you may need to press the 'M' button to select TF Card mode.

## 7. MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the speaker's surface. Do not use abrasive cleaners or solvents.

- **Storage:** Store the speaker in a cool, dry place away from direct sunlight and extreme temperatures when not in use for extended periods.
- **Battery Care:** To prolong battery life, avoid fully discharging the battery frequently. Charge the speaker regularly, even if not in use.

## 8. TROUBLESHOOTING

Problem	Possible Cause	Solution
Speaker does not turn on.	Low battery.	Charge the speaker fully.
Cannot pair via Bluetooth.	Speaker not in pairing mode; device Bluetooth off; too far from device.	Ensure speaker is in pairing mode. Turn device Bluetooth off and on. Move speaker closer to device.
No sound.	Volume too low; incorrect mode selected; device not playing.	Increase volume. Press 'M' to select correct mode. Ensure audio is playing on your device.
Speaker is locked up (blue light on/blinking, no connection, won't turn off).	Software glitch, often related to connection issues or multiple paired devices.	<b>Reset Procedure:</b> Insert a 3.5mm audio male plug (e.g., from an AUX cable) into the speaker's AUX input jack. The front indicator LED will turn red for a few seconds, then flash blue. This resets the software. Turn the speaker off, then back on. To prevent recurrence, always ensure the speaker is turned off before starting a new session. On your host device, remove the speaker from the paired list, turn Bluetooth off and on, then re-add and connect. Avoid having multiple devices with active Bluetooth paired to the speaker simultaneously.

## 9. SPECIFICATIONS

- **Model Name:** M83 PRO
- **Speaker Type:** Portable Speaker
- **Connectivity Technology:** Bluetooth 5.3
- **Speaker Maximum Output Power:** 60 Watts
- **Waterproof Rating:** IPX6
- **Playtime:** Up to 32 hours
- **Dimensions:** 3"D x 3"W x 4"H *(Note: This dimension appears to be a placeholder in the source data. Please refer to the product for actual dimensions.)*
