

## ASHATA 3D Holographic Display Stands Projector

# ASHATA 3D Holographic Display Stands Projector User Manual

## INTRODUCTION

---

This manual provides instructions for the ASHATA 3D Holographic Display Stands Projector. This device is designed to create clear 360-degree holographic images from your smartphone, ideal for corporate product displays, cartoon interaction, and entertainment. For optimal performance, use in dark rooms with bright screen settings.

## PACKAGE CONTENTS

---

Please verify that all items are present in your package:

- 1 x Holographic Display Stands Projector (consisting of the stand and pyramid)
- 1 x Cleaning Cloth (may be included for maintenance)

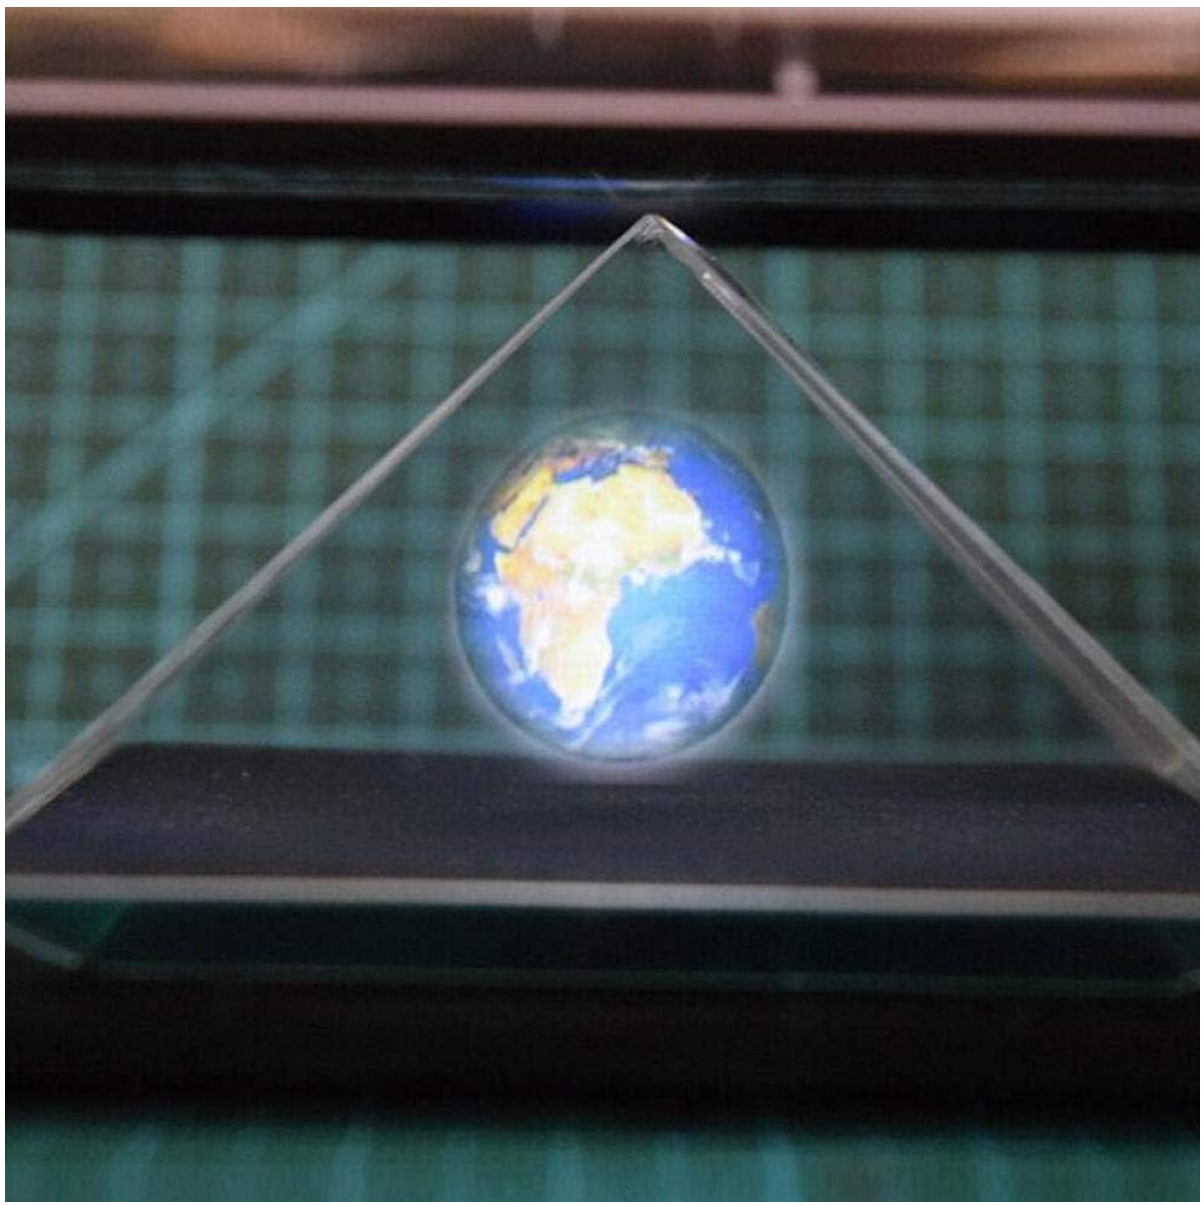

Image: The holographic pyramid and an optional cleaning cloth, typically included in the package.

## FEATURES

---

- Optimized for dark rooms and bright screens to produce clear 360-degree images.
- Offers stable performance and high reliability for consistent holographic projection.
- The four reflective planes project an image from four different angles, creating a comprehensive view of the object.
- A popular choice for holographic pyramid projection.
- Simple operation: place your smartphone on the stand with a holographic video playing to display a 3D hologram.

## SETUP INSTRUCTIONS

---

1. **Unpack the Projector:** Carefully remove the holographic display stand and pyramid from its packaging.
2. **Assemble the Stand (if necessary):** The stand typically comes pre-assembled. Ensure the pyramid is securely placed within the stand's base.
3. **Prepare Your Smartphone:** Ensure your smartphone screen is clean and set to maximum

brightness for the best holographic effect.

## OPERATING INSTRUCTIONS

---

Follow these steps to operate your ASHATA 3D Holographic Display Stands Projector:

1. **Download Hologram Content:** Download a holographic video specifically designed for pyramid projectors. You can often find these by searching for "hologram pyramid video" or similar terms on video platforms. Some manufacturers provide QR codes in their user manuals for resource access, or you can search for "Mixture" in your device's app store for compatible content.
2. **Play the Video:** Open the downloaded holographic video on your smartphone.
3. **Position the Phone:** Place your smartphone face down onto the top of the holographic display stand. Ensure the video content on your phone screen is centered over the top opening of the pyramid.
4. **Observe the Hologram:** A 3D hologram will appear within the pyramid. For the best visual experience, operate the projector in a dimly lit or dark room.

Video: Demonstration of various 3D holographic effects using a smartphone and the projector stand. This video illustrates how different animated objects appear as holograms.

Your browser does not support the video tag.

Video: Another demonstration showcasing different holographic animations, including a bird and a fish, projected through the pyramid stand.

## MAINTENANCE

---

To ensure the longevity and clarity of your holographic projector:

- **Cleaning:** Use a soft, lint-free cloth (like the one provided) to gently wipe the pyramid and stand. Avoid abrasive cleaners or materials that could scratch the surfaces.
- **Storage:** Store the projector in a clean, dry place away from direct sunlight and extreme temperatures when not in use.
- **Handling:** Handle the pyramid carefully to avoid fingerprints or damage to its reflective surfaces.

## TROUBLESHOOTING

---

If you encounter issues with your holographic projector, consider the following:

- **Hologram Not Clear/Visible:**
  - Ensure the room is dark. Ambient light can significantly reduce hologram visibility.
  - Increase your smartphone's screen brightness to its maximum setting.
  - Verify that the video content is specifically designed for holographic pyramids and is centered correctly on your phone screen.
  - Clean the pyramid surfaces with a soft cloth to remove any smudges or dust.
- **Image Appears Distorted:**
  - Check if the smartphone is placed flat and centered on the stand.
  - Ensure the pyramid is correctly seated within the stand.
- **No Hologram Effect:**
  - Confirm that a holographic video is playing on your smartphone. Regular videos will not produce a holographic effect.
  - Ensure the pyramid is positioned correctly to reflect the screen content.

## SPECIFICATIONS

---

Feature	Detail
Brand	ASHATA
Product Dimensions	3.94 x 2.36 x 1.57 inches
Item Weight	2.82 ounces
Material	ABS
Color	Black
Recommended Uses	Business, Home Cinema

Feature	Detail
Special Feature	Portable
Display Resolution (Typical)	1920 x 1080
Display Resolution (Maximum)	1080 x 2340

## WARRANTY AND SUPPORT

---

For warranty information or technical support, please refer to the product packaging or contact ASHATA customer service directly. Keep your purchase receipt for any warranty claims.
