Sitecom CH-012 57W Fast USB Wall Charger User Manual

Model: CH-012

1. INTRODUCTION

Thank you for choosing the Sitecom CH-012 57W Fast USB Wall Charger. This manual provides essential information for the safe and efficient use of your new charger. Please read these instructions carefully before use and retain them for future reference.

2. SAFETY INFORMATION

To ensure safe operation and prevent damage, please observe the following safety precautions:

- Do not expose the charger to water, moisture, or extreme temperatures.
- Do not attempt to disassemble, repair, or modify the charger. This will void the warranty and may cause electric shock or fire.
- Use the charger only with compatible devices and within its specified power limits.
- Ensure the wall outlet voltage matches the charger's input specifications (AC 100-240V).
- Avoid dropping or subjecting the charger to strong impacts.
- Keep out of reach of children.
- Unplug the charger during lightning storms or when unused for extended periods.

3. PACKAGE CONTENTS

Verify that all items are present in your package:

- 1x Sitecom CH-012 57W Fast USB Wall Charger
- 1x USB-C to USB-C PD Charging Cable (1 meter)

4. PRODUCT OVERVIEW

The Sitecom CH-012 is a versatile wall charger designed for fast and efficient charging of various devices. It features two output ports and intelligent power distribution.

Figure 4.1: Angled view of the Sitecom CH-012 charger, highlighting its dual charging ports.

Figure 4.2: Detailed view of the USB-C PD and USB-A ports for device connection.

Figure 4.3: Front view of the charger, displaying the Sitecom brand logo.

Figure 4.4: Side profile of the charger unit.

Figure 4.5: The 1-meter USB-C to USB-C PD charging cable included with the charger.

Key Features:

- **Dual Ports:** Equipped with one USB-C Power Delivery (PD) port and one standard USB-A port.
- **USB-C Power Delivery (45W Max):** Provides rapid charging for compatible smartphones, tablets, and laptops.
- **USB-A Port (12W Max):** Charges existing USB devices such as smartphones and tablets.
- **Intelligent Device Detection:** Automatically detects connected devices and delivers the optimal power for efficient charging.
- **Safety Protections:** Built-in safeguards against overcurrent, short-circuit, and overheating.
- **Robust Design:** Features a durable, heat-resistant casing.

5. SETUP

Follow these steps to set up your Sitecom CH-012 charger:

1. **Connect to Power Outlet:** Insert the charger's EU plug into a standard AC 100-240V wall outlet.
2. **Connect Your Device:**
 - For USB-C PD compatible devices (smartphones, tablets, laptops): Use the included USB-C to USB-C cable or another compatible USB-C PD cable. Connect one end to the charger's USB-C port and the other end to your device.
 - For standard USB-A devices (smartphones, tablets): Use a compatible USB-A cable (not included). Connect one end to the charger's USB-A port and the other end to your device.
3. The charger will automatically detect your device and begin charging.

Figure 5.1: Rear view of the charger, illustrating the EU plug for wall outlet connection.

6. OPERATING INSTRUCTIONS

The Sitecom CH-012 charger is designed for simple plug-and-play operation.

- **Single Device Charging:** Connect your device to either the USB-C PD port or the USB-A port. The charger will deliver the maximum power supported by your device and the connected port.
- **Simultaneous Charging:** You can charge two devices concurrently using both the USB-C PD and USB-A ports. The charger's intelligent chip will manage power distribution up to a total of 57W.
- **Power Delivery (PD) Technology:** The USB-C PD port utilizes Power Delivery technology to provide higher power levels, enabling faster charging for compatible devices. Ensure your device and cable also support USB PD for optimal performance.

7. MAINTENANCE

Proper care will extend the life of your charger:

- **Cleaning:** Disconnect the charger from the power outlet before cleaning. Use a soft, dry cloth to wipe

the surface. Do not use liquid cleaners or aerosols.

- **Storage:** Store the charger in a cool, dry place away from direct sunlight and extreme temperatures.
- **Cable Care:** Avoid bending or twisting the charging cable excessively, as this can damage the internal wires.

8. TROUBLESHOOTING

If you encounter issues with your charger, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Device not charging.	Charger not plugged in, faulty cable, incompatible device, or device issue.	Ensure charger is securely plugged into a live outlet. Try a different cable. Test with another device. Check if the device itself is functioning correctly.
Slow charging.	Cable not supporting fast charging, device not supporting PD, or multiple devices drawing power.	Use a high-quality cable that supports fast charging/PD. Ensure your device supports USB PD for the USB-C port. If charging two devices, total power is shared.
Charger feels warm.	Normal operation during charging, especially with high power output.	This is normal. If it becomes excessively hot or emits smoke/smell, unplug immediately and discontinue use.

If the problem persists after trying these solutions, please contact Sitecom customer support.

9. SPECIFICATIONS

Feature	Specification
Model Number	CH-012
Input	AC 100-240V, 50/60Hz, 1.5A
USB-C PD Output	5V/3A, 9V/3A, 12V/3A, 15V/3A, 20V/2.25A (45W Max)
USB-A Output	5V/2.4A (12W Max)
Total Power Output	57W
Safety Features	Overcurrent protection, short-circuit protection, thermal protection
Included Components	1m USB-C to USB-C PD charging cable
Color	Black
Compatible Devices	Tablets, Mobile Phones

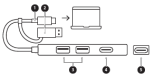

10. WARRANTY AND SUPPORT

For warranty information and customer support, please refer to the official Sitecom website or contact your retailer. Keep your proof of purchase for warranty claims.
