7. TROUBLESHOOTING

If you encounter issues with your earbuds, refer to the following solutions.

Earbuds Not Pairing or Connecting

- Ensure both earbuds are charged.
- Make sure Bluetooth is enabled on your device.
- Place the earbuds back into the charging case, close the lid, wait a few seconds, then remove them again to re-initiate pairing mode.
- Forget "KG-X01" from your device's Bluetooth list and attempt to pair again.
- Ensure the earbuds are within the effective Bluetooth range (typically 10 meters/33 feet) of your device.

Only One Earbud Working

- Ensure both earbuds are charged.
- Place both earbuds back into the charging case, close the lid, and then remove them simultaneously. This should force them to re-sync with each other.
- If the issue persists, try resetting the earbuds (refer to the manufacturer's website for specific reset instructions if not detailed here).

Charging Issues

- Check that the charging cable is securely connected to both the case and the power source.
- Ensure the charging contacts on the earbuds and inside the case are clean and free of debris.
- Try using a different USB charging cable or power adapter.

Reconnecting Issues (as per customer feedback)

- If you experience frequent disconnections or issues with earbuds reconnecting, try the "Forget Device" method mentioned above and re-pair.
- Ensure there are no strong electromagnetic interferences nearby.
