## GOOLOO GLVC01

# GOOLOO GLVC01 Car Vacuum Cleaner User Manual

Model: GLVC01

## 1. INTRODUCTION

Thank you for choosing the GOOLOO GLVC01 Car Vacuum Cleaner. This handheld, portable, and corded vacuum is designed for efficient and quick cleaning of your vehicle's interior. It features strong suction, a low noise level, and a durable HEPA filter. Please read this manual thoroughly before use to ensure proper operation and maintenance.

### Important Safety Information

- This appliance is designed for car use only and operates on DC 12V power from your vehicle's cigarette lighter port. Do not connect to other power sources.
- Do not use to vacuum flammable or combustible liquids, hot ashes, or sharp objects.
- Keep the vacuum cleaner away from water and moisture.
- Ensure the filter is properly installed before operation.
- Unplug the device from the cigarette lighter port when not in use or before cleaning.
- Keep out of reach of children.

## 2. PACKAGE CONTENTS

Verify that all items listed below are included in your package:

- GOOLOO Car Vacuum Cleaner Unit
- Elastic Hose
- Brush Nozzle
- Plastic Tube Nozzle (Crevice Tool)
- Plastic Elbow Tube (for corners)
- Stainless Steel HEPA Filter (pre-installed)
- Carry Bag
- User Manual

# Product Size

**Input Voltage: DC-12V**

**Power: 120W**

**Power Cord Length: 14.8ft**

**Vacuum Suction: 8.0KPa**

**Decibel: ≤75db**

**Net Weight: 32oz**

## 3. PRODUCT FEATURES

- **Strong Suction & Low Noise:** Equipped with an 8000Pa suction power and a motor rotating at a max speed of 42000R/min, while maintaining a low noise level of 75dB.
- **Long Cord Design:** A 14.8ft (4.5m) power cord allows easy access to all areas of your car, including the trunk.
- **Upgraded HEPA Filter:** Features a washable and durable Stainless Steel HEPA filter for effective dust and debris capture.
- **Multifunctional Accessories:** Includes a small brush for ground-in dirt, an elastic hose for extended reach, and two types of plastic tubes (crevice tool and elbow tube) for versatile cleaning.
- **Lightweight & Portable:** Weighing approximately 32oz (0.9kg) and with a compact diameter of 3.3 inches, it is easy to

handle and store.

- **Intelligent Voltage Detection:** The device includes an indicator for car battery voltage status.

## 4. SETUP

1. **Unpack:** Carefully remove all components from the packaging.
2. **Attach Nozzle:** Select the appropriate nozzle for your cleaning task (e.g., crevice tool for tight spaces, brush for carpets). Align the nozzle with the vacuum's suction inlet and push firmly until it clicks into place. For extended reach, attach the elastic hose first, then the desired nozzle to the end of the hose.
3. **Connect Power:** Insert the DC 12V power plug into your vehicle's cigarette lighter socket. Ensure a secure connection.

## 5. OPERATING INSTRUCTIONS

1. **Start Vacuum:** After connecting to the 12V power source, press the power button located on the handle to turn on the vacuum cleaner.
2. **Clean Surfaces:** Guide the vacuum nozzle over the areas you wish to clean. Use the brush nozzle for carpets and mats, the plastic tube nozzle for dust and liquids in gaps, and the plastic elbow tube for hard-to-reach corners.
3. **Monitor Voltage:** Observe the intelligent voltage detection indicator on the vacuum.

- Voltage  $\leq 11V$ : Indicates low car battery voltage, suggesting a need to check or replace the car battery.
- $11V < \text{Voltage} \leq 13V$ : Indicates the car battery is in good condition.
- Voltage  $> 13V$ : Indicates excellent car battery condition.

4. **Turn Off:** Once cleaning is complete, press the power button again to turn off the vacuum cleaner.
5. **Disconnect Power:** Unplug the DC 12V power plug from the cigarette lighter socket.

## 6. MAINTENANCE

### Emptying the Dustbin

1. Ensure the vacuum cleaner is turned off and unplugged from the power source.
2. Twist the dustbin counter-clockwise to detach it from the main unit.
3. Carefully remove the HEPA filter from the dustbin.
4. Empty the collected dust and debris into a waste bin.

### Cleaning the HEPA Filter

1. After removing the HEPA filter from the dustbin, tap it gently to dislodge any loose dirt.
2. Rinse the stainless steel HEPA filter under running water until clean. Do not use harsh detergents.
3. Allow the filter to air dry completely before reinserting it into the dustbin. Ensure it is fully dry to prevent mold or damage.
4. Reassemble the filter into the dustbin, then twist the dustbin clockwise onto the main unit until secure.

## 7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Vacuum does not turn on.	Not properly plugged into 12V socket; vehicle's 12V socket is not active; power button not pressed.	Ensure the plug is fully inserted. Check if the vehicle's ignition is on (if required for 12V socket). Press the power button firmly.
Weak suction.	Dustbin is full; HEPA filter is clogged; nozzle or hose is blocked.	Empty the dustbin. Clean the HEPA filter. Check and clear any blockages in the nozzles or hose.
Vacuum turns off unexpectedly.	Overheating due to prolonged use; low car battery voltage.	Allow the vacuum to cool down for 10-15 minutes. Check the voltage indicator; if low, check your car battery.

Problem	Possible Cause	Solution
Dust escapes from the vacuum.	Dustbin not properly secured; HEPA filter not correctly installed or damaged.	Ensure the dustbin is twisted on securely. Reinstall or replace the HEPA filter if damaged.

## 8. SPECIFICATIONS

Feature	Detail
Brand	GOOLOO
Model Name	Car Vacuum Cleaner
Model Number	GLVC01
Power Source	Corded Electric (DC 12V)
Voltage	12 Volts
Wattage	120.00 W
Vacuum Suction	8000 Pa
Noise Level	75 Decibels
Runtime	Up to 35 minutes
Item Weight	32 Ounces (approx. 0.9 kg)
Power Cord Length	14.8 ft (4.5 m)
Filter Type	Stainless Steel HEPA Filter (Washable)
Form Factor	Handheld
Recommended Use	Car Interior Cleaning
Color	Black

# Intelligent Voltage Detection

## Voltage $\leq 11V$

\* Low, Voltage,  
need to replace car battery

## $11 < \text{Voltage} \leq 13V$

\* Car battery in  
good condition

\* Excellent car battery  
condition
