Avantree BTHS-AS90-BLK

Avantree Aria Bluetooth Noise Cancelling Over Ear Headphones

Model: BTHS-AS90-BLK

PRODUCT OVERVIEW

The Avantree Aria headphones are designed to provide a superior audio experience with active noise cancellation and a detachable boom microphone, making them suitable for both music listening and clear communication. They offer both wireless Bluetooth and wired connectivity options for versatile use with various devices.

COMFORTABLE FIT

Roomy earcups, soft leather earpads and an adjustable headband provide you with long-lasting comfort.

PACKAGE CONTENTS

Verify that all items are present in the package:

- Avantree Aria Headphones
- Detachable Boom Mic
- Charging Cable (USB)
- 3.5mm Audio Cable
- Protective Travel Case
- User Manual (this document)

SETUP

1. Charging the Headphones

Before first use, fully charge the Avantree Aria headphones. Connect the provided USB charging cable to the charging port on the headphones and to a USB power source (e.g., computer USB port, USB wall adapter). The LED indicator will show charging status and turn off or change color when fully charged. A full charge provides approximately 35 hours of battery life.

EXTENDED PLAYTIME

Image: An illustration indicating the extended playtime of the headphones, approximately 35 hours.

2. Bluetooth Pairing

To connect the headphones wirelessly to your device:

1. Ensure the headphones are turned off.
2. Press and hold the Multi-function button (usually the power button) for approximately 5-7 seconds until the LED indicator flashes blue and red alternately. This indicates pairing mode.
3. On your device (smartphone, tablet, computer), enable Bluetooth and search for new devices.
4. Select "Avantree Aria" from the list of found devices.
5. Once connected, the LED indicator on the headphones will flash blue slowly or turn solid blue.
6. If prompted for a password, enter "0000".

The headphones will automatically reconnect to the last paired device when turned on, if the device's Bluetooth is active and within range (up to 10 meters).

3. Attaching the Detachable Boom Microphone

For clear voice communication, attach the boom microphone to the dedicated port on the left earcup. Ensure it is securely inserted. The microphone can be detached when not needed.

OPERATING INSTRUCTIONS

Headphone Controls

The Avantree Aria headphones feature intuitive controls located on the earcups:

- **Power On/Off:** Press and hold the Multi-function button.
- **Volume Control:** Use the '+' and '-' buttons to adjust volume.

- **Play/Pause:** Press the Multi-function button once.
- **Next/Previous Track:** Long press '+' for next, long press '-' for previous.
- **Answer/End Call:** Press the Multi-function button once.
- **Reject Call:** Long press the Multi-function button.
- **Activate Voice Assistant:** Double press the Multi-function button.

Active Noise Cancellation (ANC)

The ANC feature reduces ambient noise, providing a more immersive listening experience. To activate or deactivate ANC, locate the dedicated ANC switch on the earcup and slide it to the desired position. Note that ANC is most effective at reducing constant low-frequency sounds.

Image: An illustration depicting the active noise cancellation feature, showing sound waves being filtered by the headphones.

Using the Detachable Boom Microphone

The boom microphone is designed for clear voice pickup during calls. It features an instant mute switch for privacy. Simply slide the switch on the microphone to mute or unmute your voice.

Wired Mode Operation

The Avantree Aria headphones can be used in wired mode by connecting the provided 3.5mm audio cable to the headphone's audio jack and your device's audio output. In wired mode, the headphones do not require battery power for audio playback, but ANC functionality may still require power.

MAINTENANCE

Cleaning

Regularly clean your headphones to ensure optimal performance and hygiene. Use a soft, dry, lint-free cloth to wipe the earcups and headband. For stubborn dirt, slightly dampen the cloth with water. Avoid using harsh chemicals or abrasive materials.

Earpad Replacement

The earpads on your Avantree Aria headphones are replaceable, extending the lifespan of your product. Replacement earpads can be purchased separately from Avantree. Refer to the specific instructions provided with replacement earpads for installation.

REPLACEABLE EARPADS

Increase your headphones' lifespan with replaceable earpads (purchased separately).

TROUBLESHOOTING

If you encounter issues with your Avantree Aria headphones, try the following solutions:

- **No Sound or Low Volume:**

- Ensure headphones are powered on and charged.
- Check volume levels on both headphones and the connected device.
- If using Bluetooth, ensure the headphones are properly paired and connected. Try re-pairing.
- If using wired connection, ensure the 3.5mm audio cable is fully inserted into both the headphones and the device. Test with a different cable if possible.

- **Cannot Pair via Bluetooth:**

- Ensure headphones are in pairing mode (LED flashing blue and red).
- Turn off and on Bluetooth on your device.

- Clear the pairing history on your device and try pairing again.
- Move the headphones closer to the device and away from other wireless interference sources.

- **Microphone Not Working:**

- Ensure the detachable boom microphone is securely attached.
- Check if the microphone's mute switch is in the unmute position.
- Verify microphone input settings on your computer or device.
- Some operating systems (e.g., Windows) may switch to a lower quality audio profile when a microphone is active. Adjust audio settings if necessary.

- **Active Noise Cancellation (ANC) Not Effective:**

- Ensure the ANC switch is turned on.
- ANC is most effective against constant low-frequency sounds (e.g., engine hum, fan noise) and may not completely eliminate voices or sudden noises.

- **Intermittent Connection/Audio Dropouts:**

- Ensure the headphones are within the Bluetooth range (up to 10 meters) of your device.
- Minimize obstacles between the headphones and the device.
- Avoid strong Wi-Fi signals or other 2.4GHz wireless devices that may cause interference.

If the issue persists, please contact Avantree customer support for further assistance.

SPECIFICATIONS

Feature	Detail
Model Name	Aria
Model Number	BTHS-AS90-BLK
Connectivity Technology	Wireless (Bluetooth), Wired (3.5mm Jack)

WARRANTY AND SUPPORT

Warranty Information

Avantree products typically come with a manufacturer's warranty. Please refer to the warranty card included in your product packaging or visit the official Avantree website for detailed warranty terms and conditions specific to your region and purchase date. Keep your proof of purchase for warranty claims.

Customer Support

For technical assistance, troubleshooting, or product inquiries, please contact Avantree customer support. You can usually find contact information (email, phone, or live chat) on the official Avantree website: www.avantree.com/support. When contacting support, please have your product model number (BTBS-AS90-BLK) and purchase details ready.

OFFICIAL PRODUCT VIDEOS

No official product videos from the seller were found that meet the embedding criteria (creator_type: Seller, m3u8 format, and not a preview video unless genuinely useful).
