

Andoer NP FV5

Andoer NP-FV5 Plus Camcorder Battery Pack User Manual

Model: NP-FV5 Plus

1. INTRODUCTION

This user manual provides essential information for the safe and effective use of your Andoer NP-FV5 Plus Rechargeable Camcorder Battery Pack. Please read this manual thoroughly before using the product to ensure optimal performance and longevity.

Image: The Andoer NP-FV5 Plus battery pack, showing both its front and back sides. The front displays the "HighPOWER" logo, while the back features the model number, voltage, capacity, and important safety warnings.

2. SAFETY INFORMATION

Your safety is paramount. Please observe the following precautions when handling the battery pack:

- **Do not connect improperly:** Ensure correct polarity when connecting the battery to a device or charger.
- **Do not dispose of in fire or expose to excess heat:** High temperatures can cause the battery to explode or leak.
- **Do not crush, puncture, incinerate or short circuit external contacts:** Physical damage or short circuits can lead to fire or injury.
- Keep out of reach of children.
- Dispose of used batteries according to local regulations.

3. PRODUCT FEATURES

- **Model:** NP-FV5 Plus
- **Voltage:** 3.7V
- **Capacity:** 2000mAh (Milliampere Hour)
- Designed to offer extended service time for compatible devices.
- Lithium Polymer (Li-ion) battery cell composition.

4. COMPATIBILITY

The Andoer NP-FV5 Plus battery pack is designed for use with devices that utilize the NP-FV5 battery type. This includes, but is not limited to, the Andoer 524KM 4K WiFi 1080P digital video camera and various Sony DV camcorders.

5. SETUP

5.1. Charging the Battery

Before first use, fully charge the battery. Use a compatible charger designed for NP-FV5 type batteries. Charging times may vary depending on the charger and the battery's current charge level.

1. Connect the charger to a power source.
2. Insert the NP-FV5 Plus battery into the charger, ensuring proper alignment of the contacts.
3. Observe the charger's indicator light (if available) to confirm charging has begun.
4. Once charging is complete, remove the battery from the charger.

5.2. Installing the Battery

To install the battery into your compatible camcorder or device:

1. Ensure the device is powered off.
2. Locate the battery compartment on your device. This is typically on the rear or bottom.
3. Open the battery compartment cover.
4. Align the battery with the compartment, matching the contacts on the battery to those in the device.
5. Gently slide the battery into place until it clicks securely.
6. Close the battery compartment cover.

✳️ The camera is not included

6. OPERATING

Once installed and charged, the battery will power your compatible device. Monitor your device's battery indicator to know when recharging is necessary. For optimal performance, avoid completely draining the battery before recharging, though modern Li-ion batteries are less susceptible to "memory effect."

7. MAINTENANCE

- **Cleaning:** Use a dry, soft cloth to clean the battery contacts if they appear dirty. Do not use liquids or abrasive cleaners.
- **Storage:** If storing the battery for an extended period, charge it to approximately 50-60% capacity and store it in a cool, dry place away from direct sunlight and extreme temperatures.
- **Disposal:** Do not dispose of batteries with household waste. Consult your local regulations for proper recycling or disposal of lithium-ion batteries.

8. TROUBLESHOOTING

Problem	Possible Cause	Solution
Battery not charging.	Improperly seated battery, faulty charger, dirty contacts.	Re-seat battery, try a different charger, clean battery and charger contacts.
Battery drains quickly.	Aging battery, extreme temperatures, high power consumption by device.	Ensure battery is fully charged, operate device within recommended temperature range, consider replacing battery if old.
Battery does not fit device.	Incorrect battery model.	Verify device compatibility with NP-FV5 Plus battery.

9. SPECIFICATIONS

Attribute	Detail
Battery Model	NP-FV5 Plus
Voltage	3.7V
Capacity	2000mAh
Battery Cell Composition	Lithium Polymer
Item Weight	3.52 ounces (approximately 100g)
Package Dimensions	5.47 x 4.61 x 1.81 inches
Manufacturer	Andoer
Country of Origin	China

10. WARRANTY AND SUPPORT

For warranty information and customer support, please refer to the documentation provided with your purchase or visit the official Andoer website. Keep your proof of purchase for warranty claims.
