EMART EM-SRL-10

EMART 9" Selfie Ring Light User Manual

Model: EM-SRL-10 | Brand: EMART

1. INTRODUCTION

This manual provides detailed instructions for the setup, operation, maintenance, and troubleshooting of your EMART 9" Selfie Ring Light. This device is designed to provide adjustable illumination for various applications such as live streaming, makeup tutorials, YouTube videos, and photography. Please read this manual thoroughly before use to ensure proper functionality and safety.

2. PRODUCT FEATURES

- **Dimmable LED Ring Light:** Features 3 LED light modes (Cold White, Warm White, Warm Yellow) and 10 adjustable brightness levels to suit various lighting needs.
- **Adjustable Tripod Stand:** The aluminum alloy tripod stand is adjustable from 17 inches to 51 inches, suitable for both desktop and floor use. It can also function as a mobile phone selfie stick.
- **Dual Remote Control:** Includes a 433MHz one-to-one remote control for all ring light functions and a Bluetooth camera phone remote for convenient photo capture.
- **Flexible Phone Holder:** Equipped with a flexible phone holder to securely mount your smartphone in the center of the ring light.
- **USB Powered:** Easily powered via USB, compatible with laptops, desktop mainframes, power banks, and USB wall chargers.

Figure 2.1: Overview of the EMART 9-inch Selfie Ring Light setup, showing the ring light, adjustable tripod, and phone holder. It also illustrates compatibility with both smartphones and cameras.

Figure 2.2: Illustration of the three distinct color temperature modes: Cold White (5500K), Warm White (5500K), and Warm Yellow (3000K), demonstrating their visual effect on a subject.

10 Level Brightness Dimmable

Figure 2.3: Depiction of the 10 brightness levels (10% to 100%) and the two control methods: a wireless remote control and an in-line cable control for power, brightness, and mode settings.

3. PACKAGE CONTENTS

Please verify that all components are present in the package:

- 9-inch LED Ring Light
- Adjustable Tripod Stand
- Flexible Phone Holder
- Ball Head Adapter
- Clamp-on Phone Holder
- Light Remote (in-line cable control)
- Bluetooth Camera Phone Remote

Figure 3.1: Visual representation of all components included in the EMART 9-inch Selfie Ring Light package, laid out for easy identification.

4. SETUP INSTRUCTIONS

Follow these steps to assemble and set up your EMART 9" Selfie Ring Light:

- 1. Unfold the Tripod Stand:** Gently spread the legs of the tripod stand until it is stable on a flat surface. Adjust the height by extending the telescopic sections and securing them with the locking clips. The stand is adjustable from 17 to 51 inches.
- 2. Attach the Ball Head:** Screw the ball head adapter onto the top of the tripod stand. Ensure it is tightened securely.
- 3. Mount the Ring Light:** Screw the 9-inch LED ring light onto the ball head adapter. The ball head allows for angle adjustment of the ring light.
- 4. Attach Phone Holder:** Insert the flexible phone holder into the designated slot in the center of the ring light. Alternatively, use the clamp-on phone holder to attach your phone to the tripod pole.
- 5. Connect Power:** Plug the USB cable from the ring light into a compatible USB power source (e.g., laptop, power bank, USB wall adapter).

Figure 4.1: Visual guide demonstrating the easy setup process, adjustable height (20-51 inches), and various USB charging options for the EMART ring light.

Figure 4.2: Image showing the angle-adjustable feature of the ring light and the Bluetooth control compatibility with iOS and Android systems.

5. OPERATING INSTRUCTIONS

Once assembled, operate your ring light using the in-line cable control or the wireless remote control.

5.1. Using the In-line Cable Control

- **Power On/Off:** Press the 'On/Off' button to turn the ring light on or off.
- **Adjust Brightness:** Use the '+' button to increase brightness and the '-' button to decrease brightness. There are 10 levels of brightness.
- **Change Light Mode:** Press the 'M' (Mode Setting) button to cycle through the 3 color temperature modes: Cold White, Warm White, and Warm Yellow.

5.2. Using the Wireless Remote Control

- **Power On/Off:** Press the power button on the wireless remote.
- **Adjust Brightness:** Use the '+' and '-' buttons to adjust the brightness levels.
- **Change Light Mode:** Use the 'M' button to switch between the 3 color modes.

5.3. Using the Bluetooth Camera Phone Remote

- Pairing:** Turn on Bluetooth on your smartphone. Press and hold the button on the Bluetooth remote until the indicator light flashes. Select 'AB Shutter3' or similar from your phone's Bluetooth device list to pair.
- Capture Photos/Videos:** Once paired, open your phone's camera app. Press the corresponding button on the Bluetooth remote to trigger the shutter for photos or start/stop video recording.

6. MAINTENANCE

- Cleaning:** Use a soft, dry cloth to wipe the ring light and tripod stand. Do not use abrasive cleaners or solvents.
- Storage:** When not in use, disassemble the ring light and store it in a dry, cool place away from direct sunlight.
- Cable Care:** Avoid bending or crimping the USB power cable excessively to prevent damage.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Ring light does not turn on.	No power, loose connection, faulty USB port.	Ensure USB cable is securely connected. Try a different USB power source or port. Check if the power button on the in-line control is pressed.
Brightness or color mode cannot be adjusted.	In-line control or wireless remote malfunction.	Ensure the ring light is powered on. Try using the other control method (if one is not working). Check battery in wireless remote if applicable (though this model uses 433MHz, not IR, so battery is less likely an issue for the light remote itself, but the Bluetooth remote does use a battery).
Bluetooth remote does not pair with phone.	Bluetooth not enabled, remote not in pairing mode, interference.	Ensure Bluetooth is enabled on your phone. Put the remote into pairing mode (refer to section 5.3). Move closer to the phone. Restart phone and remote.
Tripod stand is unstable.	Legs not fully extended, locking clips not secured, uneven surface.	Fully extend all tripod legs and ensure locking clips are firmly engaged. Place the stand on a flat, stable surface. Do not overload the stand.

8. SPECIFICATIONS

Feature	Detail
Product Dimensions	10 x 10 x 51 inches (fully extended)
Item Weight	2.9 pounds

Feature	Detail
Model Number	EM-SRL-10
Light Modes	3 (Cold White, Warm White, Warm Yellow)
Brightness Levels	10
Tripod Height Adjustment	17 inches to 51 inches
Power Source	USB (5V/2A recommended)
Connectivity Technology	Infrared (for light remote), Bluetooth (for camera remote)
UPC	733205101288, 782855721223
Date First Available	June 25, 2019
