Rhinowalk RK19665

Rhinowalk RK19665 3-in-1 Bike Pannier Bag Set Instruction Manual

Brand: Rhinowalk | **Model:** RK19665

INTRODUCTION

Thank you for choosing the Rhinowalk RK19665 3-in-1 Bike Pannier Bag Set. This versatile system is designed to provide secure and waterproof storage for your cycling adventures. It includes two side pannier bags and one top bag that can also function as a backpack, offering flexible storage solutions for various needs. Please read this manual carefully to ensure proper installation, usage, and maintenance of your pannier set.

SETUP AND INSTALLATION

The Rhinowalk pannier set features a quick-release system for easy attachment and removal from your bicycle's rear rack. Follow these steps for secure installation:

1. **Adjust Metal Hooks:** The metal hooks on the back of the side panniers are adjustable. Ensure they are positioned correctly to fit your bike rack's width. The clips include a rubber layer to protect your bike's paint from scratches.
2. **Hang Panniers:** Place the metal hooks over the top bar of your rear bike rack.
3. **Secure with Velcro Straps:** Utilize the Velcro straps located at the bottom of each side pannier. Wrap these straps around the vertical supports of your bike rack and fasten them securely. This prevents the bags from swinging or getting caught in the spokes during your ride.
4. **Attach Top Bag:** The top bag attaches to the two side panniers using buckles. Ensure all buckles are securely fastened to create a stable 3-in-1 unit.

**The clips add a rubber layer
to protect bike paint.**

**Velcro strap
For more convenient installation**

OPERATING INSTRUCTIONS

3-in-1 Multifunctionality

This pannier set offers versatile usage options:

- **Full Set:** Use all three bags together for maximum storage capacity on your bike rack.
- **Side Bags Only:** The two side panniers can be used independently. They are ideal for daily commutes or shorter trips.
- **Top Bag as Backpack:** The top bag can be detached and used as a standalone backpack, complete with integrated shoulder straps.
- **Side Bag as Shoulder Bag:** Each side pannier includes an adjustable, removable nylon shoulder strap, allowing it to be carried as a shoulder bag when off the bike.

Capacity and Storage

The set provides ample storage for your belongings:

- **Backpack (Top Bag):** Approximately 19.2 inches (L) x 12 inches (W) x 5.8 inches (H).
- **Side Shoulder Bags (Each):** Approximately 11.6 inches (L) x 5.9 inches (W) x 13.5 inches (H).

The bags are designed to expand to hold more items, making them suitable for groceries, gear, or personal effects.

Waterproof Features

Constructed from 1000D polyester material with a waterproof PVC layer on both sides, these bags offer excellent protection against water, wear, and tear. For heavy rain conditions, a dedicated rain cover is included to provide an additional layer of protection for the entire set.

MAINTENANCE

Proper care will extend the life of your Rhinowalk pannier bags:

- **Cleaning:** Wipe the bags with a damp cloth and mild soap. Avoid harsh chemicals or abrasive cleaners, as these can damage the waterproof coating. Rinse thoroughly and allow to air dry completely before storage.
- **Zipper Care:** The zippers are designed for water resistance and may feel stiff. Operate them carefully and avoid forcing them. Periodically clean any dirt or debris from the zipper teeth to ensure smooth operation.
- **Storage:** Store the pannier bags in a cool, dry place away from direct sunlight when not in use. Ensure they are clean and dry to prevent mold or mildew growth.

TROUBLESHOOTING

- **Panniers Rubbing Against Spokes:** If the side panniers rub against your bike's spokes, ensure they are securely fastened to the rack using both the top hooks and the bottom Velcro straps. For additional stability, especially on bumpy terrain, consider using short bungee cords to further secure the bags to the rack frame.
- **Stiff Zippers:** The waterproof zippers are designed to be tight. If they become difficult to operate, ensure they are clean and free of debris. Apply a silicone-based lubricant specifically designed for zippers if needed, but avoid oil-based lubricants.
- **Water Inside Bags:** While the bags are waterproof, extreme conditions or improper closure can lead to moisture ingress. Always ensure zippers are fully closed and the rain cover is properly deployed during heavy precipitation.

SPECIFICATIONS

Model Number	RK19665
Material	1000D Polyester with Waterproof PVC Layer
Water Resistance Level	Waterproof
Mounting Type	Rack Mount
Closure Type	Zipper
