## Claymore 3 FACE+

# CLAYMORE 3 FACE+ (Large) Instruction Manual

Rechargeable LED Area Light for Outdoors, Camping, Tent, Work, Industrial, Emergency Use

## 1. INTRODUCTION

---

Thank you for choosing the CLAYMORE 3 FACE+ (Large) rechargeable LED area light. This versatile and powerful lighting solution is designed for a wide range of applications, from outdoor adventures like camping and hiking to industrial work and emergency situations. Its unique three-dimensional design provides exceptional brightness and coverage, while the integrated power bank function ensures your devices stay charged.

Key features include:

- Large three-dimensional design for wide area illumination.
- Multiple lighting options: center, side, or all three faces.
- Three adjustable color temperatures: Cool (6500K), Natural (4200K), and Warm (3000K).
- Powerful 26,100mAh battery capacity providing up to 78 hours of light.
- High brightness output of up to 4,000 lumens.
- Integrated power bank (5V – 2A output) for charging external devices.
- Durable construction with aluminum frame and fiberglass-filled nylon plastic bumper.
- IP54 dustproof and splash-proof rating.

## 2. SAFETY INFORMATION

Please read all safety instructions carefully before using the CLAYMORE 3 FACE+ to ensure safe and optimal performance. Keep this manual for future reference.

- Do not disassemble, repair, or modify the product. This may cause fire, electric shock, or injury.
- Do not expose the product to direct sunlight for prolonged periods or to high temperatures.
- Do not use the product near flammable gases or liquids.
- Keep out of reach of children.
- The product has an IP54 rating, meaning it is dustproof and protected against splashing water. Do not submerge the product in water.
- Use only the provided or recommended adapter for charging.
- If the product shows signs of damage or malfunction, discontinue use immediately.

DURABLE

## IP54 Dustproof Waterproof Rating.

The CLAYMORE 3FACE+ has an International Protection rating of IP54 and is designed to withstand harsh outdoor activities.

\* IP54 is a dustproof / waterproof rating that means it is protected from dust and splashed water.

The CLAYMORE 3 FACE+ features an IP54 rating for dust and splash resistance.

## 3. SETUP

### 3.1. Unboxing and Initial Charge

Upon opening the package, ensure all components are present:

- CLAYMORE 3 FACE+ (Large) LED Area Light
- Pouch
- Adapter
- Strap & Carabiner

Before first use, fully charge the device using the provided adapter. The battery indicator lights will show the charging progress.

### 3.2. Mounting Options

The CLAYMORE 3 FACE+ offers various mounting methods for different scenarios:

- **Tabletop Mount:** Place the light on a flat surface for direct illumination.
- **Strap & Carabiner:** Use the included strap and carabiner to hang the light from branches, tent poles, or other suitable fixtures.
- **Tripod Socket:** The light features a 1/4" tripod socket, allowing it to be mounted on standard camera tripods or light stands for elevated illumination.
- **Magnetic Attachment (Accessory):** An optional neodymium magnet accessory (sold separately) can be attached to the 1/4" hole, allowing the light to be securely mounted on metallic surfaces, such as vehicle bodies.

UTILIZE

## Mounting Methods for a Variety of Purposes.

You can mount it in a variety of ways using the strap, carabiner rings and tripod socket.

The CLAYMORE 3 FACE+ can be mounted on a tripod or hung using the included accessories.

## 4. OPERATING INSTRUCTIONS

### 4.1. Power On/Off and Brightness Adjustment

Locate the power button on the device. Press and hold to turn the light on or off. Short presses will cycle through the three available brightness levels.

### 4.2. Light Modes

The CLAYMORE 3 FACE+ features a unique three-sided design, allowing for flexible light distribution. Use the dedicated mode buttons to select between different lighting configurations:

- **Mode 1 (Wide Light):** Activates the side faces for broad area illumination.
- **Mode 2 (Front Light):** Activates the front face for more focused illumination.
- **Mode 3 (Wide & Front Light):** Activates all three faces for maximum brightness and coverage.

### 4.3. Color Temperature Selection

The light offers three distinct color temperatures to suit different environments and preferences:

- **Cool White (6500K):** Provides a bright, crisp light, ideal for task lighting or situations requiring high visibility.
- **Natural White (4200K):** A balanced white light, suitable for general use and comfortable for the eyes.
- **Warm (3000K):** Emits a soft, warm glow, perfect for creating a cozy ambiance in camping or relaxation settings.

#### COLOR TEMPERATURE

## 3 Color Temperatures for Your Preference.

The CLAYMORE 3FACE+ provides 3 color temperatures (Cool White / Natural White / Warm White). Change the mood with your preferred color temp. according to the situation.

### 4.4. Power Bank Function

The CLAYMORE 3 FACE+ can also serve as a power bank to charge your electronic devices. Connect your device to the light's USB output port (5V – 2A output) using a compatible cable. This feature is ideal for charging smartphones, tablets, and other USB-powered devices when you are away from a power source.

STURDY

## IP54 Dustproof Waterproof Rating.

The CLAYMORE 3FACE+ has an International Protection rating of IP54 and is designed to withstand harsh outdoor activities.

\* IP54 is a dustproof / waterproof rating that means it is protected from dust and splashed water.

The CLAYMORE 3 FACE+ can be used as a power bank to charge your electronic devices.

## 5. MAINTENANCE

Proper maintenance will extend the lifespan of your CLAYMORE 3 FACE+.

- **Cleaning:** Wipe the light with a soft, damp cloth to remove dirt or debris. Do not use harsh chemicals or abrasive cleaners.
- **Storage:** When not in use, store the light in its durable pouch in a cool, dry place.
- **Battery Care:** To maintain battery health, recharge the device periodically (at least once every 3-6 months) even if it's not being used. Avoid completely draining the battery before recharging.

## 6. TROUBLESHOOTING

If you encounter any issues with your CLAYMORE 3 FACE+, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Light does not turn on.	Battery is depleted.	Charge the device fully using the provided adapter.
Light is dim or flickers.	Low battery or incorrect mode setting.	Recharge the device. Ensure the desired brightness level and light mode are selected.
Device not charging.	Adapter or cable issue, or improper connection.	Ensure the adapter is correctly plugged into a power outlet and the charging port. Try a different compatible cable if available.

Problem	Possible Cause	Solution
Power bank function not working.	Light's battery is too low or device incompatibility.	Ensure the CLAYMORE 3 FACE+ has sufficient charge. Verify your device is compatible with 5V – 2A USB output.

If the problem persists after attempting these solutions, please contact customer support for further assistance.

## 7. SPECIFICATIONS
