Medify Air MA-14

Medify MA-14 Air Purifier User Manual

MODEL: MA-14

Brand: Medify Air

Product Overview

The Medify MA-14 Air Purifier is designed to efficiently clean small to medium spaces, covering up to 470 sq ft in one hour. It utilizes a True HEPA H13 filtration system, capable of removing 99.9% of particles as small as 0.1 microns. This includes common allergens, odors, VOCs, smoke, pollen, pet dander, and dust, ensuring a cleaner and healthier indoor environment.

This air purifier is ideal for various settings such as homes, apartments, bedrooms, nurseries, living rooms, and offices. It features ultra-quiet operation with multiple fan speeds, a night light, and a sleep mode for undisturbed rest. A convenient filter replacement indicator ensures optimal performance.

Medify's HEPA filter material is tested to remove **99.97%** of airborne particles from 0.1 to 0.3 microns in size.*

True HEPA H13 Filtration

*Based on average CADR for pollen, smoke, and dust when operating at highest fan speed. Assumes closed room with 8-foot ceiling. Tested by Intertek Lab for HEPA filter material.

Initial Setup

- Unpacking:** Carefully remove the air purifier from its packaging. Ensure all packing materials are removed from the unit and the filter.
- Filter Installation:** The MA-14 comes with the filter pre-installed. Before first use, ensure the filter is unwrapped from its protective plastic bag. Refer to the "Care and Maintenance" section for detailed filter access instructions.
- Placement:** Place the air purifier on a flat, stable surface. For optimal air circulation, ensure there is adequate space (at least 6-12 inches) around all sides of the unit, away from walls and furniture. This allows for efficient intake and output of air.

Operation Guide

The control panel on top of the Medify MA-14 allows for easy adjustment of settings. Familiarize yourself with the buttons and indicators for optimal use.

- **Power Button:** Press to turn the unit ON or OFF.
- **Fan Speed Control:** Cycle through 3 fan speeds (low, medium, high) to adjust purification intensity. The lowest setting operates virtually silent.
- **Night Light:** Activate or deactivate the built-in night light.
- **Sleep Mode:** Engage sleep mode for an extra quiet operation and to completely dim the unit's panel lights, ideal for nighttime use.

Care and Maintenance

Regular maintenance ensures the longevity and efficiency of your Medify MA-14 Air Purifier.

- **Filter Replacement:** The unit features a filter replacement indicator that will alert you when it's time to change the filter. The 360-degree high-efficiency filter (Model: B07VF25QJ6) typically lasts for 2,500 hours, or approximately 3-4 months, depending on usage and air quality.
- **Replacing the Filter:**
 - a. Turn off and unplug the air purifier.
 - b. Remove the base cover to access the filter compartment.
 - c. Carefully remove the old filter.
 - d. Insert the new filter, ensuring it is properly seated.
 - e. Replace the base cover.
 - f. Plug in the unit and reset the filter indicator (refer to your specific model's instructions for reset procedure,

usually by holding the filter button).

- **Cleaning the Exterior:** Wipe the exterior of the unit with a soft, dry cloth. Do not use abrasive cleaners or solvents.

“It virtually eliminated particulates from our test room, reducing them by 99.9%”

Troubleshooting Common Issues

| Problem | Possible Cause | Solution |
|--|---|--|
| Unit does not turn on. | Not plugged in; power outage; unit malfunction. | Ensure the power cord is securely plugged into a working outlet. Check your home's circuit breaker. Contact customer support if the issue persists. |
| Airflow is weak or no air comes out. | Blocked air intake/outlet; dirty filter; incorrect filter installation. | Check for obstructions around the air intake and outlet. Clean or replace the filter. Ensure the filter is installed correctly and the base cover is securely closed. |
| Unusual noise from the unit. | Loose filter; foreign object inside; unit not on a flat surface. | Ensure the filter is securely in place. Turn off and unplug the unit, then carefully check for any foreign objects. Place the unit on a stable, flat surface. |
| Odor persists or air quality does not improve. | Filter needs replacement; room size exceeds coverage; strong odor source. | Replace the filter if the indicator is on or if it has been 3-4 months. Ensure the unit is appropriately sized for your room. Identify and address the source of strong odors. |

Technical Specifications

Model: MA-14

Product Dimensions: 7.49"D x 7.49"W x 12.36"H (approx. 8 x 12 x 8 inches)

Weight: 2.4 Pounds

Coverage Area: Up to 470 sq ft per hour (CADR 120)

Filtration Type: True HEPA H13 Filter with Activated Carbon Composite

Noise Level: Maximum 55 dB (lowest setting virtually silent)

Power Consumption: 26 watts

Voltage: 110 Volts

Certifications: CARB, ETL, Energy Star certified

Country of Origin: China

First Available: July 15, 2019
