BYHUBYENG 200E-B

BYHUBYENG 200E-B Wrist Pager Watch User Manual

Model: 200E-B

INTRODUCTION

This manual provides comprehensive instructions for the BYHUBYENG 200E-B Wrist Pager Watch. This device is designed to enhance communication efficiency in various service environments, such as restaurants, cafes, hospitals, and nursing homes. It functions as a receiver for call buttons, alerting staff through silent vibration and displaying the caller's number.

The BYHUBYENG 200E-B Wrist Pager Watch is compatible exclusively with BYHUBYENG call buttons.

PRODUCT OVERVIEW

Figure 1: BYHUBYENG 200E-B Wrist Pager Watch. This image displays the front view of the black wrist pager watch, showing its digital display.

Key Features:

- **Massive Capacity:** Supports up to 200 call buttons (001-ZZZ).
- **Waterproof Design:** IPX67 rated for durability.
- **Reminder Methods:** Silent vibration and display number.
- **Display Modes:** Two options: 1 group of 3 digits or 4 groups of 2 digits.
- **Multi-language Support:** English, Japanese, Chinese.
- **Long Range:** Receiving distance up to 100m (328ft), extendable with BYHUBYENG repeaters.
- **Rechargeable:** Equipped with a durable lithium battery.
- **Data Copy Function:** Allows copying data from one pager to another for easy number matching.

User-friendly Design

Figure 2: User-friendly Design Features. This image highlights various features of the wrist pager, including its rechargeable battery, stable signal, IPX67 waterproof rating, vibration and silent prompt, adjustable reminder time, smart pairing, signal amplifying support, portability, multi-language conversion, and data copy function.

SETUP

1. Charging the Device:

Before initial use, fully charge the wrist pager. Connect the provided USB charging cable to the charging port on the back of the pager and to a standard USB power adapter (not included).

Wireless Wrist Pager

***Strap:
Soft Silicone***

Multi-vacancy adjustment

USB Charging

Figure 3: Wrist Pager Charging and Strap Details. This image shows the back of the wireless wrist pager with its charging contacts and the USB charging cable, along with details of the soft silicone strap and multi-vacancy adjustment.

2. Pairing with Call Buttons:

The BYHUBYENG 200E-B wrist pager is designed to work with BYHUBYENG call buttons. Refer to the specific instructions provided with your BYHUBYENG call buttons for detailed pairing procedures. The pager supports smart pairing and can copy data from one alert pager to another for easy number matching.

LONG RANGE CALLING SYSTEM

CS-200E

Receiving distance up to **328ft** (depends on the practical usage environment). Distance can be extended by BYHUBYENG repeater.

Figure 4: Long Range Calling System. This image illustrates the interaction between the wrist pager and a call button, demonstrating the long receiving distance of up to 328ft (100m).

OPERATING INSTRUCTIONS

1. Receiving a Call:

When a BYHUBYENG call button is pressed, the wrist pager will vibrate silently and display the corresponding call number on its screen. The display will show either 1 group of 3 digits or 4 groups of 2 digits, depending on the selected display mode.

2. Display Modes:

The pager offers two display modes. Consult the device's on-screen menu or accompanying quick start guide for instructions on how to switch between these modes.

3. Language Settings:

The device supports English, Japanese, and Chinese. To change the language, navigate through the pager's settings

menu.

4. Signal Amplification:

For extended range requirements, BYHUBYENG repeaters can be used to amplify the signal. Refer to the repeater's manual for setup and operation.

Strong anti-interference

Multiple call buttons can call multiple pagers simultaneously

- **Conversion of 3 languages:**
English/Japanese/Chinese

- **2 COLORS**

Figure 5: Strong Anti-interference. This image demonstrates the pager's ability to handle multiple calls simultaneously and shows the availability of the pager in two colors (black and red), along with various compatible call button designs.

MAINTENANCE

- **Cleaning:** Wipe the pager with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners.
- **Water Resistance:** The pager is IPX67 waterproof, meaning it can withstand immersion in water up to 1 meter for 30 minutes. However, it is not recommended for prolonged underwater use. Ensure the charging port is dry before charging.
- **Battery Care:** To prolong battery life, avoid fully discharging the battery frequently. Charge the device regularly.
- **Storage:** Store the pager in a cool, dry place when not in use.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Pager not receiving calls.	◦ Pager is out of range. ◦ Call button not paired or faulty. ◦ Low battery on pager or call button. ◦ Interference.	◦ Move closer to the call button or use a repeater. ◦ Re-pair the call button. Check call button battery. ◦ Charge the pager. Replace call button battery. ◦ Relocate devices away from potential interference sources.
Display is blank.	◦ Pager is off. ◦ Battery is depleted.	◦ Press and hold the power button to turn on. ◦ Charge the pager.
Vibration not working.	◦ Vibration setting is off. ◦ Device malfunction.	◦ Check pager settings to ensure vibration is enabled. ◦ Contact customer support if the issue persists.
