

SONOFF MINIR2

SONOFF MINI R2 Smart WiFi Switch Instruction Manual

Model: MINIR2

1. INTRODUCTION

The SONOFF MINI R2 is a compact Smart WiFi Switch designed to integrate traditional light switches into a smart home system. It enables remote control of connected devices via the eWeLink app, voice commands through Amazon Alexa or Google Home Assistant, and supports various smart scene automations. This module operates on a 2.4GHz WiFi network and does not require a separate hub.

Image 1.1: The SONOFF MINI R2 Smart WiFi Switch, a compact device for smart home integration.

2. SAFETY INFORMATION AND IMPORTANT NOTES

- **Power Disconnection:** Always cut off the power supply before installing or performing any maintenance on the device. Failure to do so can result in electric shock or damage to the device.
- **Wiring:** Ensure that the neutral wire and live wire connections are correct according to the wiring diagram. Incorrect wiring can cause malfunction or safety hazards.
- **External Switch Connection:** The S1/S2 terminals are designed for connecting a rocker light switch and operate with weak current for safety. Do not connect the neutral wire and live wire to S1/S2.
- **WiFi Network:** The device requires a 2.4GHz WiFi network for operation. 5.0GHz WiFi networks are not supported.
- **Installation Environment:** Do not install the device in a metal junction box. Metal enclosures can interfere with the WiFi signal, leading to poor performance or disconnection.

Note: Don't Install it in the Metal Junction Box

Metal junction box

Image 2.1: Illustration showing the SONOFF MINI R2 and a warning against installation in a metal junction box due to potential WiFi interference.

3. SETUP

3.1 Wiring Instructions

Follow the diagram below carefully for proper installation. Ensure power is disconnected before proceeding.

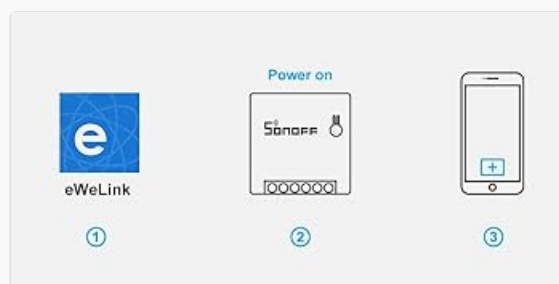

Image 3.1: Detailed wiring diagram for the SONOFF MINI R2, showing connections for live (L In), neutral (N In), output (L Out), and external switch (S1/S2).

1. Connect the incoming Live (L In) and Neutral (N In) wires to the corresponding terminals on the MINI R2.
2. Connect the Live output (L Out) to your light fixture or appliance.
3. Connect the Neutral output (N Out) to your light fixture or appliance.
4. For an external rocker switch, connect the switch wires to the S1 and S2 terminals. These terminals use a weak current for safety.

3.2 App Installation and Device Pairing

The SONOFF MINI R2 uses the eWeLink app for control and configuration.

1. Download the eWeLink app from the App Store (iOS) or Google Play Store (Android).
2. Register an account and log in.
3. Power on the SONOFF MINI R2. The device will enter pairing mode automatically (indicated by a rapidly blinking LED). If not, press and hold the pairing button for 5 seconds until the LED blinks rapidly.
4. In the eWeLink app, tap the '+' icon to add a device. Follow the on-screen instructions to connect the device to your 2.4GHz WiFi network.

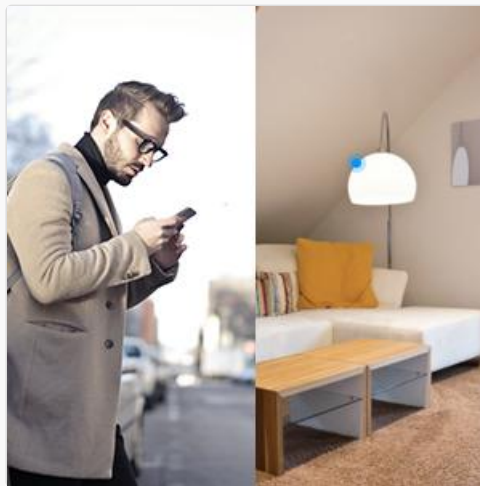

Image 3.2: Visual representation of the eWeLink app, the SONOFF MINI R2, and a smartphone, illustrating the device pairing process.

4. OPERATING INSTRUCTIONS

4.1 App Remote Control

Once paired, you can control the connected device from anywhere using the eWeLink app on your iOS or Android smartphone.

- Open the eWeLink app and select your SONOFF MINI R2 device.
- Tap the power icon to turn the connected light or appliance on/off.
- The app provides real-time status feedback, indicating whether the device is on or off.

Remote Control

Image 4.1: A smartphone showing the eWeLink app interface, used to remotely control a light connected to the SONOFF MINI R2.

4.2 Voice Control

The SONOFF MINI R2 is compatible with Amazon Alexa and Google Home Assistant, allowing for hands-free control.

- Link your eWeLink account with Amazon Alexa or Google Home Assistant through their respective apps.
- Use voice commands such as "Alexa, turn on the light" or "Hey Google, turn off the bedroom light."

Voice Control

Image 4.2: A person in bed using an Amazon Echo Dot to issue a voice command, "Alexa, turn OFF the light," demonstrating voice control functionality.

4.3 Smart Scenes and Scheduling

Automate your devices with various scheduling options within the eWeLink app.

- **Schedule:** Set specific times for the device to turn on or off daily or on selected days.
- **Countdown:** Set a timer for the device to turn off after a specified duration.
- **Loop Timer:** Configure the device to cycle on and off repeatedly at set intervals.
- **Smart Scene:** Create custom automation rules where one SONOFF device can trigger another, or group multiple devices to operate together with a single tap.

Smart Schedule

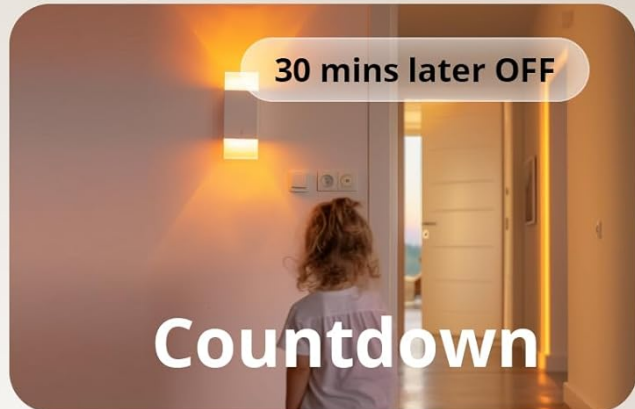

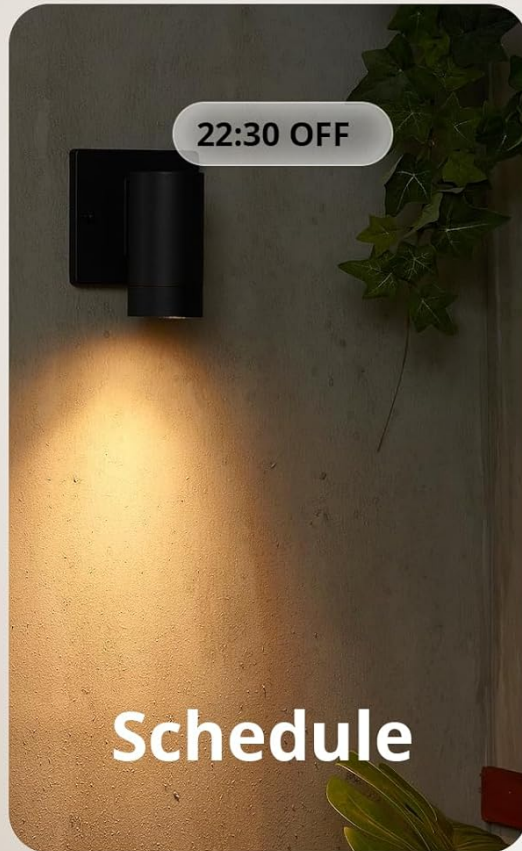

Image 4.3: Visual examples of smart scheduling features including a fixed schedule (e.g., 22:30 OFF), a countdown timer (e.g., 30 mins later OFF), and a loop timer (e.g., 22:00 OFF, repeat Mon/Wed/Sat).

4.4 External Switch Control

The MINI R2 allows you to retain the functionality of your existing rocker light switch while adding smart control.

- After wiring the external switch to the S1/S2 terminals, the physical switch can still control the connected light.
- This provides flexibility, allowing control via the app, voice, or the traditional wall switch.

More Options For External Switch

Image 4.4: An illustration showing the SONOFF MINI R2 integrated with a standard wall switch, providing multiple control options.

4.5 Sharing Control

You can share control of your SONOFF MINI R2 with other eWeLink users.

- In the eWeLink app, navigate to the device settings and select the 'Share' option.
- Enter the eWeLink account of the person you wish to share control with. They will receive a notification and gain access to operate the device.

Sharing Control

Image 4.5: Two hands holding smartphones, one displaying the 'Share' option in the eWeLink app, indicating the ability to share device control with other users.

5. MAINTENANCE

- Keep the device clean and dry. Avoid exposure to moisture or extreme temperatures.
- Do not attempt to disassemble or repair the device yourself. Refer to qualified personnel for service.
- Regularly check for firmware updates in the eWeLink app to ensure optimal performance and security.

6. TROUBLESHOOTING

- **Device not connecting to WiFi:** Ensure your router is operating on a 2.4GHz frequency. Check that the WiFi password is correct. Move the device closer to the router to improve signal strength.
- **Device offline in app:** Verify that your home WiFi network is active and the device has power. Restart the device by cycling its power. If the issue persists, try re-pairing the device.
- **External switch not working:** Confirm that the S1/S2 wires are correctly connected and that the physical

switch itself is functional. Remember, S1/S2 should only be connected to a weak current switch, not live or neutral wires.

- **Voice control not responding:** Ensure your eWeLink account is properly linked to Amazon Alexa or Google Home Assistant. Check the device name in the eWeLink app and use that name in your voice commands.
- **Intermittent connection:** Avoid installing the device in metal junction boxes, as this can block the WiFi signal. Ensure there are no major obstructions between the device and your WiFi router.

7. SPECIFICATIONS

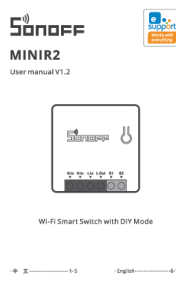

Feature	Specification
Model Number	MINIR2
Brand	SONOFF
Operation Mode	ON-OFF
Current Rating	10 Amps
Contact Type	Normally Closed
Connector Type	Plug In
Terminal	Screw
Item Dimensions (L x W x H)	1.68 x 0.79 x 1.68 inches
Circuit Type	1-way
Actuator Type	Push Button
Contact Material	Copper
Product Weight	1.48 ounces
Manufacturer	SONOFF
Date First Available	June 29, 2019

© 2023 SONOFF. All rights reserved.

FCC Authorization

Date: 2020-07-15

FEDERAL COMMUNICATIONS COMMISSION
Authorization and Evaluation Division
7435 Oakland Mills Road
Columbia, MD 21046

Subject: Agent Authorization

To whom it may concern:

We, Shenzhen Sonoff Technologies Co.,Ltd., hereby authorize Bay Area Compliance Laboratories Corporation to act on its behalf in all matters relating to application for Equipment authorization, including the signing of all documents relating to these matters. All acts carried out by Bay Area Compliance Laboratories Corporation on our behalf shall have the same effect as our own actions.

We, the undersigned, hereby certify that we are not subject to a denial of federal benefits, that includes FCC benefits, pursuant to Section 501 of the Anti-Drug Abuse Act of 1988, 21 U.S.C. 882.

This authorization is valid until further written notice from the applicant.

Sincerely Yours,
Client's signature: 
Printed Name: Jerry Shi
Title: Manager
