SETUP INSTRUCTIONS

Follow these steps to assemble your window squeegee:

- 1. Insert Squeegee Scraper:** Align the squeegee scraper with the head unit and slide it into place.
- 2. Secure Scraper:** Press the small green button to lock the scraper securely.
- 3. Insert Mop Part:** Attach the microfiber mop part to the designated area on the squeegee head.
- 4. Adhere Mop:** Press the Velcro on the mop to ensure it adheres tightly to the head.
- 5. Connect Pole Sections:** Align the buttons on the aluminum extension pole sections. Hold the button and push the sections together until they click into place. Ensure a secure connection.
- 6. Fill Spray Bottle:** Fill the 80 ml bottle with your preferred window cleaning solution or plain water.
- 7. Insert Spray Bottle:** Insert the filled bottle into the designated slot on the squeegee head.
- 8. Final Assembly:** Ensure all parts are firmly connected before use.

OPERATING INSTRUCTIONS

To use the squeegee effectively:

- **Extend the Pole:** Adjust the telescopic aluminum handle to the desired length (49 to 69 inches) by pressing the buttons and sliding the sections.
- **Spray Solution:** Press the trigger on the handle to dispense cleaning solution from the 80 ml bottle onto the window surface.
- **Scrub:** Use the absorbent microfiber scrubber cloth to loosen dirt and grime on the window.
- **Squeegee:** Flip the head to use the rubber blade. Gently pull the squeegee across the window in overlapping strokes to remove water and solution, leaving a streak-free finish.

MAINTENANCE AND CARE

Proper maintenance ensures the longevity and performance of your squeegee:

- **Clean Microfiber Cloth:** The microfiber scrubber cloth is removable and washable. Detach it from the squeegee head and wash it with water and mild detergent. Allow it to air dry completely before reattaching.
- **Prevent Nozzle Clogging:** After each use, especially when using soap solutions, rinse the spray nozzle and the 80 ml bottle with clean water for at least 30 seconds to prevent dried soap residue from blocking the nozzle.

- **Store Properly:** Store the squeegee in a dry place away from direct sunlight.

TROUBLESHOOTING

If you encounter issues with your squeegee, consider the following:

- **Clogged Spray Nozzle:** If the spray nozzle is blocked, it may be due to dried soap water. Clean the nozzle and bottle thoroughly with clean water after each use to prevent blockages.
- **Squeegee Blade Performance:** For optimal streak-free results, ensure the rubber blade is clean and free of debris. If the blade is worn, replacement may be necessary (replacement parts not specified in product information).
- **Loose Pole Sections:** Ensure all pole sections are securely clicked into place during assembly and before use to maintain stability.
