# Satisfyer Purple Pleasure Vibrator Instruction Manual

Model: J02018-35

## 1. INTRODUCTION

---

Welcome to the instruction manual for your Satisfyer Purple Pleasure Vibrator. This manual provides essential information on how to set up, operate, maintain, and troubleshoot your device to ensure optimal performance and longevity. Please read these instructions carefully before first use and keep them for future reference.

## 2. PRODUCT OVERVIEW

---

The Satisfyer Purple Pleasure is a lay-on vibrator designed for external stimulation. It features a smooth, body-friendly medical silicone surface combined with durable ABS material. The device is fully waterproof (IPX7 standard), allowing for use in the bath or shower and easy cleaning. It offers 15 distinct vibration modes, including 5 speeds and 10 rhythms, for a varied experience.

### **3. SETUP AND CHARGING**

---

Before initial use, fully charge the device. Connect the magnetic USB charging cable to the charging contacts on the device and plug the USB end into a compatible power source (e.g., computer USB port or USB wall adapter). A full charge takes approximately 3 hours and provides up to 2 hours of continuous use.

## 5. CLEANING AND MAINTENANCE

The Satisfyer Purple Pleasure is waterproof (IPX7), making it easy to clean. After each use, wash the device with mild soap and warm water. Rinse thoroughly and allow it to air dry completely before storage. For best results and to maintain the integrity of the silicone, use only water-based lubricants with this device. Avoid oil-based lubricants, as they can damage silicone products.

### 6. TROUBLESHOOTING

- **Device not turning on:** Ensure the device is fully charged. Connect the magnetic USB cable and allow it to charge for the recommended 3 hours.
- **Device not charging:** Check that the magnetic charging cable is securely attached to the device's charging contacts and that the USB end is properly connected to a working power source. If issues persist, try a different USB port or adapter.
- **Unexpected behavior:** If the device is not responding as expected, try performing a soft reset by fully discharging the battery and then recharging it completely.
