## NACHTIMOOR C90132G

# NACHTIMOOR Queen Platform Metal Bed Frame User Manual

Model: C90132G

## 1. INTRODUCTION

This manual provides detailed instructions for the assembly, operation, maintenance, and troubleshooting of your NACHTIMOOR Queen Platform Metal Bed Frame. Please read this manual thoroughly before assembly and retain it for future reference.

The NACHTIMOOR Queen Platform Metal Bed Frame features a vintage Victorian style with a headboard and footboard. It is designed to provide a sturdy mattress foundation without the need for a box spring, offering under-bed storage space.

### Key Features:

- **Classical Design:** Fashionable appearance with retro headboard and footboard, designed to complement various bedroom decors.
- **Sturdy Metal Frame Structure:** Constructed from steel with welding platform structure and fixed screws for durability and stability.
- **Noise Reduction:** Integrated rubber strips reduce noise from metal friction, ensuring a quiet sleep environment.
- **Mattress Anti-Slippage:** Four parting slips on the panel prevent the mattress from moving.
- **Under-Bed Storage:** 13 inches of clearance provides ample space for storage boxes.
- **Easy Assembly:** All necessary parts and tools are included for convenient installation.
- **No Box Spring Required:** Designed for direct mattress placement.

## 2. SAFETY INFORMATION

- Read all instructions carefully before assembly.
- Ensure all parts are present and undamaged before beginning assembly. Do not use if any parts are missing or broken.
- Assemble the bed frame on a soft, non-abrasive surface (e.g., carpet or rug) to prevent scratching.
- Do not overtighten screws during assembly, as this may damage the frame. Tighten all screws firmly once assembly is complete.

- Periodically check all connections and fasteners to ensure they remain tight. Retighten as necessary.
- Do not allow children to climb or play on the bed frame.
- Distribute weight evenly across the bed frame. The maximum support capacity is 550-660 lbs.
- Keep small parts away from children to prevent choking hazards.

### 3. PACKAGE CONTENTS

---

Before starting assembly, verify that all components listed below are present in your package:

- Steel Bed Headboard
- Steel Bed Footboard
- Steel Bed Side Rails
- Steel Bed Base Cross Bars (Slats)
- Steel Bed Support Legs
- Assembly Instruction Manual
- Screws and Allen Key (Tools for assembly)

THE ASSEMBLING OF COMPONENTS IS NOT  
REQUIRED FOR **INTEGRATED** INSTALLATION.

## 4. SETUP AND ASSEMBLY INSTRUCTIONS

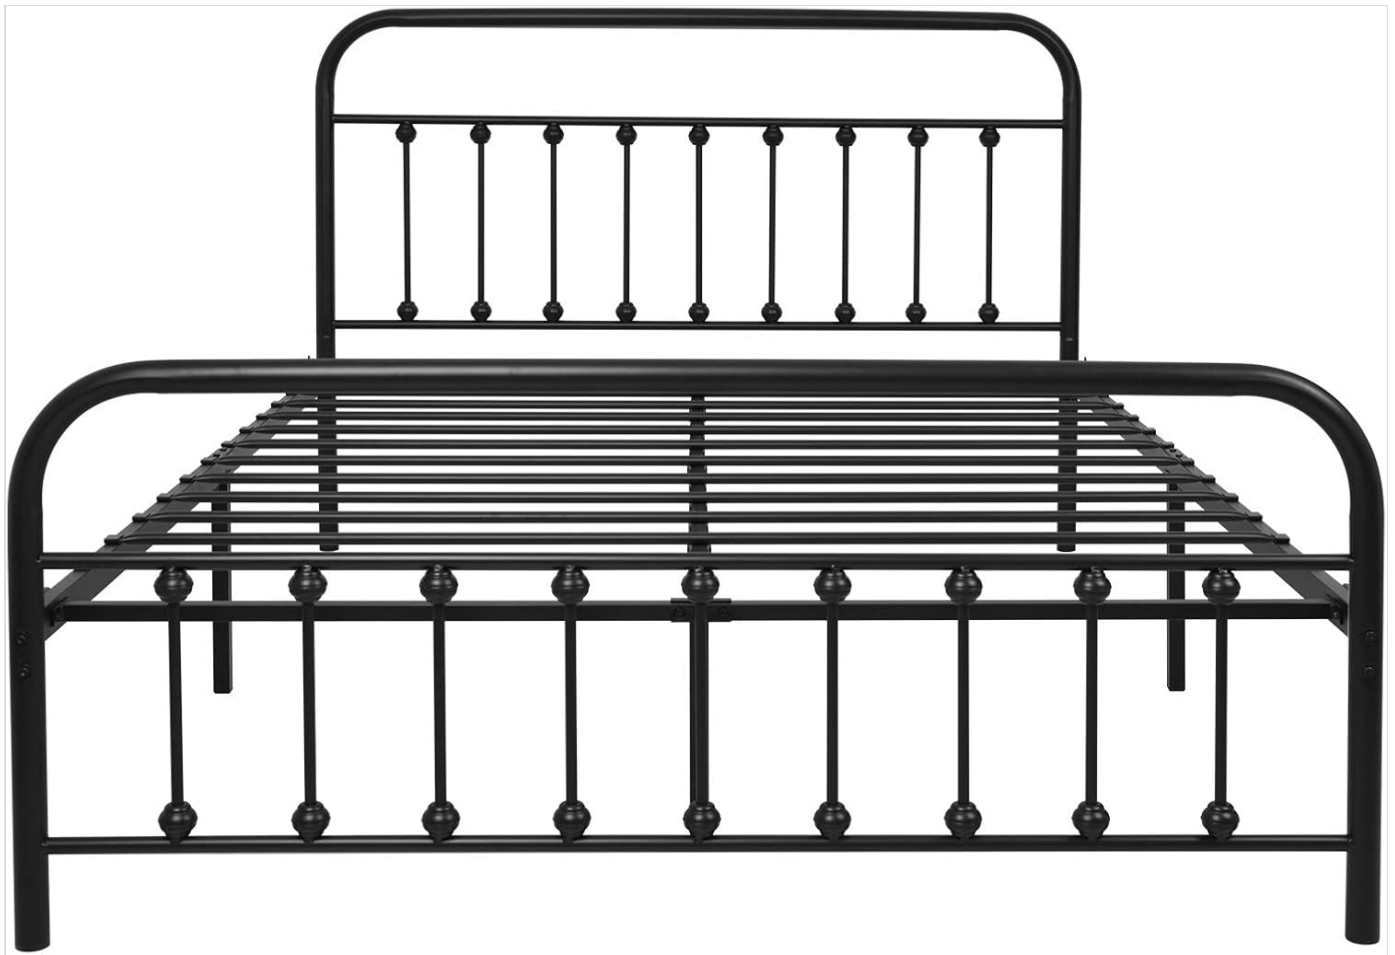

---

Assembly typically requires two people and takes approximately 45-60 minutes. Follow these steps carefully:

1. **Unpack Components:** Carefully remove all parts from the packaging. Lay them out on a clean, soft surface to prevent scratches.
2. **Identify Parts:** Refer to the included assembly instruction manual to identify each component (e.g., headboard, footboard, side rails, support legs, slats).
3. **Attach Side Rails to Headboard:** Connect the side rails to the headboard using the provided screws and Allen key. Do not fully tighten the screws yet.
4. **Attach Side Rails to Footboard:** Connect the other end of the side rails to the footboard. Ensure the headboard and footboard are facing the correct direction. Do not fully tighten the screws.
5. **Install Center Support Legs:** Attach any central support legs to the main frame or crossbars as indicated in the specific assembly diagram.
6. **Place Slats:** Position the metal slats across the bed frame. Ensure they are securely seated in their designated slots or attached with the provided fasteners. The rubber strips on the slats should face upwards to prevent mattress slippage and reduce noise.
7. **Tighten All Screws:** Once all components are in place and aligned, systematically tighten all screws firmly. Do not overtighten.
8. **Final Check:** Gently shake the assembled frame to ensure stability. Verify that all connections are secure.

## 5. OPERATING INSTRUCTIONS (USAGE)

---

This bed frame is designed for use with a Queen-sized mattress. No box spring is required.

- **Mattress Placement:** Carefully place your Queen-sized mattress directly onto the assembled metal slats. The integrated mattress stoppers (parting slips) will help prevent the mattress from shifting.
- **Under-Bed Storage:** Utilize the 13 inches of clearance beneath the frame for storage. Compatible storage containers can be placed directly on the floor under the bed.
- **Weight Distribution:** Ensure weight is distributed evenly across the bed surface. Avoid concentrating heavy loads in one small area.

Figure 5.2: Visual representation of the bed frame's design features, including noise reduction, mattress stability, under-bed storage, and non-slip feet.

## 6. MAINTENANCE

- **Cleaning:** Wipe the metal frame with a dry cloth to remove dust and debris. Avoid using harsh chemicals or abrasive cleaners, which may damage the powder-coated finish.
- **Fastener Check:** Periodically (e.g., every 3-6 months) inspect all screws and bolts. Retighten any loose fasteners to maintain stability and prevent squeaking.
- **Surface Protection:** The bed frame is equipped with non-slip feet caps to protect your flooring. Ensure these caps remain intact.

## 7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Bed frame squeaks	Loose fasteners; friction between metal parts.	Ensure all screws and bolts are securely tightened. The integrated rubber strips are designed to reduce noise; verify they are correctly positioned.
Mattress slides on frame	Mattress not properly seated; anti-slippage features not engaged.	Ensure the mattress is centered on the frame. Verify that the four parting slips on the panel are correctly installed and preventing movement.
Frame feels unstable	Incomplete assembly; loose connections.	Recheck all assembly steps. Ensure all screws are fully tightened. Verify that all support legs are making firm contact with the floor.
Missing parts	Packaging error.	Contact customer support immediately with your purchase details. Do not attempt to assemble with missing parts.

## 8. SPECIFICATIONS

---

- **Product Dimensions:** 83.5"L x 61"W x 43"H
- **Size:** Queen
- **Color:** Black
- **Material:** Metal (Steel)
- **Finish Type:** Powder Coated
- **Ground To Item Distance (Under-Bed Clearance):** 13 Inches
- **Maximum Weight Capacity:** 550-660 lbs
- **Assembly Required:** Yes
- **Model Number:** C90132G
- **UPC:** 824382134890
- **Item Weight:** 56 pounds
